CURBSIDE CONTAINER PLACEMENT GUIDE

Place containers at the curb the night before pickup day.

PROPER CONTAINER PLACEMENT

Put containers on a hard, level surface clear of obstructions such as snow, landscaping, mailboxes, and utility poles. Do not block the sidewalk.

CONTAINER DON'TS

Containers must remain upright and forward facing for pickup

Keep all materials inside the container with the lid closed

Do not place containers back to back

Keep container clear of all obstructions

? FREQUENTLY ASKED QUESTIONS

How does recycling work?

Casella makes recycling simple with single stream collection. This means you can place paper, cardboard, plastic, glass, and metal cans together in one bin—no sorting required. At our facilities, these materials are separated by type for proper processing.

Reminder: Trash and non-recyclable items do not belong in your recycling bin.

Can I put trash in my recycling bin?

No. Only recyclables belong in your recycling bin. Items that are not recyclable should go in the trash—except for medical or hazardous waste, which requires special handling.

How should I prepare recyclables?

Recyclables should be empty and free of excess food residue—a quick rinse is helpful but perfection isn't required. Corrugated cardboard boxes should be flattened and cut down to pieces no larger than 2' for easier handling.
