

Brian Head Town Bulk Water Dispenser Instructions

Step 1: Connect the Hose

- Attach the hose to the bulk water dispenser nozzle.
- Secure the connection using the cam lock fitting.
- Attach the other end of the hose to your water tank using the cam lock fitting.

Step 2: Enter Your Access Number

- Enter your assigned **Access Number** on the keypad.

Step 3: Enter Your PIN

- Enter your **PIN Number** when prompted.

Step 4: Set the Amount of Water

- Verify that the **gate valve is in the OFF (closed) position**. (All the way clockwise)
- Enter the number of **gallons** you wish to purchase.
- Press the **START** button.

Step 5: Fill Your Tank

- Slowly **open the gate valve** to begin filling your tank.

Step 6: Finish Filling

- When filling is complete, **close the gate valve**.
- Disconnect the cam lock fitting from your tank.
- Disconnect the hose from the dispenser.
- Hang the hose neatly on the dispenser.

To Stop Water Flow

If you need to stop the flow of water before the selected gallons have been dispensed:

- Press the **STOP** button.
- The water will immediately stop dispensing.

Important Reminders

- Ensure all hose connections are secure before starting.
- Keep the gate valve closed until after you have pressed **START**.
- Always disconnect and properly store the hose after use.
- Report any equipment problems to Brian Head Town immediately.

Thank you for helping keep the bulk water station clean and in good working order.

- ☐ I hereby acknowledge that I have read and understand the Brian Head Town Bulk Water Dispenser instructions that have been provided to me. (This must be signed before an account can be activated).
