Hi Adam, an estimate for this would be roughly \$3300 to \$3500 (design to printable image, producing the wrap from reflective material and installation.) Please let me know if you have any questions.

Thanks, Ryan

Attached are the photos for the graphics I came up with. We can make some tweaks as you see necessary. Some notes:

1. Gray can be a bit darker than in my mockup.
2. It is hard to read in the mockup, but the words in the blue line say "Honesty" "Integrity" "Community" and "Compassion"
3. The blue color should be a royal-ish blue, not a light blue. Please make sure all the "blues" and "grays" are the same. We have a car where the blue is different shades on thing and it drives me nuts.
4. All lettering and letter outlines "Police" are the same gray color matching the stripes on the flag
5. The Arrows on the back of the car are reflective ghost graphics
6. 5% tint on windshield brow
7. 25% front side windows (Is there a type tint that is easier to see out of as opposed to normal tint? Ceramic tint? Carbon tint? If so, please explain and we will probably use that for these 2 windows).
8. 15% for the rest of the windows
9. The words "In God We Trust" go below the back window and above the taillight, on the paint, not on the back window.
10. The words "The City Rebuilt from Ashes" can be a smaller font than it is in this mockup.

11. There is about a 6 foot long by 2 inch wide strip of chrome on the bottom sides of the car that will also need to be wrapped black (Or painted).
12. The patch on the front sides of the car in the mockup is wrong. The colored version of the patch is attached. This will need to be made gray scale to match the rest of the car. Chat GPT made a gray scale version and that is also attached to this email.

We will need design AND install of graphics and tint. We are having interior lights installed so tint should probably be done before they get put in. If at all possible, it would be very helpful to get the quote back as soon as possible.

Reach out to me at 715-923-8399 with any questions. Please throw me a text if I do not answer as I won't have the best reception early this week.

Thank you!

Good afternoon, Adam,

I just wanted to follow up with you on my previous email.

If you could please send over the artwork, sizing, quantities needed, and if you had any specific material needed? Are these window graphics or will these be graphics on the actual car?

Will you be installing the graphics or would you need installation provided?

Please let me know.

Thank you,

Stephanie Wrobel
