MINUTES

STREETS & DRAINAGE
WEDNESDAY – OCTOBER 14, 2026 – 4:30 P.M.
COUNCIL CHAMBERS, MUNICIPAL BUILDING

Members present: Chair Robert Warren and Keith Klimek
Member Joel Ahrens.

Others Attending: Mayor Katie Berman, Clerk-Treasurer Tammy Kasal, and Interim Public Works Director Teal Spellman-Cedar Corp.

Chair Warren called the meeting to order at 4:30 p.m.

Motion by Warren and seconded by Klimek to approve the agenda as presented. Motion carried 2/0.

Minutes:
Motion by Warren and seconded by Klimek to approve the September 22, 2026 meeting minutes. Motion carried 2/0.

Capital Improvement Plan (CIP):
The updated Streets & Drainage CIP was reviewed. The mill and overlay was updated with specific street projects. The City was awarded $20,849.12 from the Local Roads Improvement Program (LRIP) towards pavement replacement on Oak St. between Beebe and Stephenson Aves.

Motion by Warren and seconded by Klimek to forward the proposed Streets & Drainage CIP to the Finance & Claims Committee as discussed. Motion carried 2/0.

2027 Budget:
The proposed Streets & Drainage budget for 2027 was presented and reviewed. Discussion was held.

Motion by Warren and seconded by Klimek to forward the proposed 2027 Streets & Drainage budget to the Finance & Claims Committee. Motion carried 2/0.

Streets & Drainage report:
- Asphalt patching has been completed.
- Leaf collection is in process.
- The salt storage building deficiencies have been fixed and will be reinspected.

Other matters:
West Park Drive Pay Application 4 will be forward to the Common Council meeting.

Set future meeting:
The next Streets & Drainage meeting will be set at a later date.

Motion by Warren and seconded by Klimek to adjourn at 4:55 p.m. Motion carried 2/0.

Tammy Kasal
Clerk-Treasurer

MEMORANDUM

To: Streets and Drainage Committee/ City Common Council

From: Director of Public Works

Date: _____

Re: Commercial Refuse Collection Service Policy – Two Cart Option

Background

The City of Peshtigo currently provides municipal refuse collection services to residential and commercial properties utilizing City-owned collection equipment designed for collection of standard refuse carts. Several commercial properties generate refuse volumes significantly exceeding those of typical residential customers. In some instances, individual commercial establishments utilize six to eight refuse carts per collection cycle while receiving the same level of municipal service as lower-volume customers. The City does not own or operate equipment for commercial dumpster collection. As a result, collection of excessive refuse volumes from certain commercial properties requires disproportionate use of City labor, equipment, fuel, maintenance resources, and collection time.

Purpose

The purpose of this policy is to establish reasonable service limits for commercial refuse collection while ensuring efficient and sustainable operation of the City refuse collection program.

Findings

1) The City refuse collection system was established primarily to provide residential service to City of Peshtigo residents.

2) City collection vehicles are designed to collect standard refuse carts and are not equipped for commercial dumpster collection.

3) Certain commercial properties generate refuse volumes substantially greater than typical residential customers.

4) Collection of excessive numbers of refuse carts increases labor costs, route times, vehicle wear, fuel consumption, and replacement costs.

5) Establishing reasonable service limits is necessary to preserve long-term efficiency and financial sustainability of the City's solid waste collection program.

CITY OF PESHTIGO

Telephone 715-582-3041 331 French Street - Suite A - Peshtigo, WI 54157

Proposed Policy

1) **Standard Service Level**

   a) Commercial properties may receive a maximum of two (2) City-issued refuse carts for municipal collection.

2) **Properties Exceeding Service Limits**

   a) Any commercial property requiring:

      i) More than two (2) refuse carts;
      ii) Additional collection volume beyond the two-cart limit; or
      iii) Collection services inconsistent with standard municipal refuse operations

   shall be required to obtain refuse collection services through a private waste hauler.

3) **Existing Commercial Customers (Grandfather Provision)**

   a) Commercial customers currently utilizing more than two (2) refuse carts as of the policy effective date shall be permitted to continue receiving service on a temporary basis for a transition period of 3 months from policy adoption.

   b) During the implementation period, affected businesses shall have the opportunity to:
      i) Reduce refuse generation to comply with the two-cart maximum; or
      ii) Make arrangements for refuse collection through a private waste hauler.

   c) At the end of the transition period, commercial properties exceeding the two-cart maximum limit shall no longer be eligible for municipal collection service beyond the approved two-cart limit and the City shall discontinue collection of refuse containers exceeding the two-cart maximum.

4) **New Commercial Customers**

   a) Commercial properties requesting refuse collection service after the effective date shall not be eligible for City service if anticipated refuse volumes exceed the two-cart limit.

Administrative Authority

The Director of Public Works shall have authority to determine the number of refuse carts assigned to a commercial property, evaluate compliance, provide written notice to affected property owners, establish implementation procedures, and recommend exceptions to the Common Council.

Exceptions

1) Temporary exceptions may be approved for community events, seasonal activities, emergency situations, or other temporary conditions deemed to be in the public interest. Exceptions exceeding ninety (90) days shall require Common Council approval.

2) **Downtown District Commercial Properties**

   a) Notwithstanding the two (2) cart service limitation and the requirements for private collection services set forth in this policy, a commercial property located within the City's designated Downtown District may be approved for continued municipal refuse collection

   service for more than two (2) City-issued refuse carts when the Director of Public Works determines that the property's lot configuration, property line restrictions, or limited available space prevent the reasonable placement of a private commercial refuse dumpster.

   b) Eligibility shall be determined on a property-by-property basis and shall not automatically apply to all properties within the Downtown District. The first two (2) refuse carts shall remain covered under the City's standard commercial service. Each additional cart authorized under this exception shall be subject to a per-cart fee established by the Common Council and included in the City's fee schedule. The fee shall be intended to recover the additional costs of providing collection service beyond the standard two-cart allowance.

   c) The Director of Public Works shall determine the number of additional carts authorized and administer this exception.

Recommendation

Staff recommends that the Streets and Drainage Committee review and endorse the proposed Commercial Refuse Collection Service Policy establishing a maximum service level of two (2) City-issued refuse carts for commercial properties, with a permanent exception for qualifying Downtown District properties subjust to an additional per-cart fee established by the Common Council.

The proposed policy is intended to improve operational efficiency, reduce disproportionate use of City resources by high-volume commercial refuse generators, and preserve the long-term sustainability of the City's residential refuse collection program.

The proposed policy includes a grandfather provision allowing existing commercial customers currently receiving service above the proposed limit a reasonable transition period to either reduce refuse volumes, or obtain private collection services.

Staff further recommends that the policy be adopted on a twelve (12) month trial basis to evaluate its effectiveness, operational impacts, administrative practicality, and impacts on affected businesses. During the trial period, staff will monitor implementation, customer compliance, service demand, and any unforeseen operational issues.

At the conclusion of the twelve-month evaluation period, staff shall report back to the Streets and Drainage Committee and Common Council with findings and recommendations regarding:

1. Continuation of the policy as adopted;
2. Modification of the policy based on operational experience;
3. Expansion or reduction of service limitations; and
4. Whether the policy should be formally incorporated into the City of Peshtigo Code of Ordinances.

Should the Committee concur with the proposed policy, staff further recommends that the Committee forward a favorable recommendation to the Common Council for adoption of the policy with an implementation date determined by the Council.

Proposed Committee Motion

"Motion to recommend approval of the Commercial Refuse Collection Service Policy, including the grandfather provision for existing commercial customers, and forward the policy to the Common Council with a recommendation for adoption on a twelve (12) month trial basis, after which staff shall evaluate the effectiveness and practicality of the policy and provide recommendations regarding potential codification into the City Code."

CITY OF PESHTIGO

MEMORANDUM

To: Streets and Drainage Committee/ City Common Council

From: Director of Public Works

Date: _____

Re: Commercial Refuse Collection Service Policy – No Cart Option

Background

The City of Peshtigo provides municipal refuse collection primarily for residential properties using City-owned collection equipment designed for standard refuse carts. The City does not own or operate equipment for commercial dumpster collection. Commercial properties, particularly those outside the Downtown District, are better served through private waste haulers equipped to provide collection services appropriate to commercial refuse volumes. Within the Downtown District, property configurations and limited available space may make private dumpster placement impractical. The City therefore intends to maintain a limited municipal cart collection option for eligible Downtown District businesses, while ensuring that the costs of service beyond the standard allowance are borne by the businesses receiving that service.

Purpose

The purpose of this policy is to establish that commercial properties obtain refuse collection through private waste haulers, except that eligible properties within the Downtown District may receive limited municipal refuse collection service subject to the two-cart allowance and additional-cart fees established by this policy.

Findings

1) The City refuse collection system was established primarily to provide residential service to City of Peshtigo residents.

2) City collection vehicles are designed to collect standard refuse carts and are not equipped for commercial dumpster collection.

3) Commercial properties have refuse collection needs that are appropriately served by private waste haulers, particularly where dumpster or other commercial collection equipment is required.

4) Providing municipal collection to commercial properties beyond a limited Downtown District cart service increases labor costs, route times, vehicle wear, fuel consumption, and replacement costs.

5) Limiting municipal commercial refuse collection to eligible Downtown District properties is necessary to preserve the long-term efficiency and financial sustainability of the City's solid waste collection program.

Proposed Policy

1) **Commercial Refuse Collection Outside the Downtown District**

   a) All commercial properties located outside the City's designated Downtown District shall be responsible for arranging and paying for refuse collection services through a private waste hauler. Such properties shall not be eligible for municipal refuse collection service under the City's two-cart allowance..

2) **Downtown District Commercial Refuse Service**

   a) Eligible commercial properties located within the City's designated Downtown District may receive municipal refuse collection service subject to the following limits:

      i) The first two (2) City-issued refuse carts shall be included in the City's standard service.

      ii) Each additional cart beyond the first two (2) shall be subject to a per-cart fee established by the Common Council and included in the City's fee schedule.

      iii) Additional carts and service levels shall require approval by the Director of Public Works.

      iv) Downtown District eligibility shall be determined on a property-by-property basis. The Director of Public Works shall consider the property's location, lot configuration, property line restrictions, available space, refuse volume, and operational impacts when determining eligibility and the number of carts authorized.

3) **Existing Commercial Customers (Grandfather Provision)**

   a) Commercial properties located outside the Downtown District that are receiving City refuse collection service on the policy effective date may continue receiving that service for a transition period of three (3) months from policy adoption. This transition period is provided to allow affected businesses to arrange for private refuse collection.

   b) During the implementation period, affected businesses shall make arrangements for refuse collection through a private waste hauler.

c) At the end of the transition period, the City shall discontinue municipal refuse collection service to commercial properties located outside the Downtown District. Those properties shall thereafter obtain refuse collection exclusively through a private waste hauler.

4) **New Commercial Customers**

a) New commercial properties located outside the Downtown District shall not be eligible for municipal refuse collection service and shall be responsible for arranging refuse collection through a private waste hauler. New commercial properties within the Downtown District may request service under the Downtown District provisions of this policy.

Administrative Authority

The Director of Public Works shall have authority to determine Downtown District eligibility, approve the number of City-issued refuse carts authorized for each eligible property, administer and evaluate compliance with this policy, provide written notice to affected property owners, and establish implementation procedures. The Director may recommend policy exceptions to the Common Council.

Exceptions

1) Temporary exceptions may be approved for community events, seasonal activities, emergency situations, or other temporary conditions deemed to be in the public interest. Exceptions exceeding ninety (90) days shall require Common Council approval.

Recommendation

Staff recommends that the Streets and Drainage Committee review and endorse the proposed Commercial Refuse Collection Service Policy requiring commercial properties outside the Downtown District to obtain refuse collection through private waste haulers, while allowing eligible Downtown District properties to receive municipal collection service with the first two (2) carts included and an additional per-cart fee established by the Common Council for each additional cart.

The proposed policy is intended to improve operational efficiency, ensure commercial refuse collection costs are borne by the businesses receiving the service, and preserve the long-term sustainability of the City's residential refuse collection program.

The proposed policy includes a three (3) month transition period for existing commercial customers located outside the Downtown District to arrange for private refuse collection services.

Staff further recommends that the policy be adopted on a twelve (12) month trial basis to evaluate its effectiveness, operational impacts, administrative practicality, and impacts on affected businesses. During the trial period, staff will monitor implementation, customer compliance, service demand, and any unforeseen operational issues.

At the conclusion of the twelve-month evaluation period, staff shall report back to the Streets and Drainage Committee and Common Council with findings and recommendations regarding:

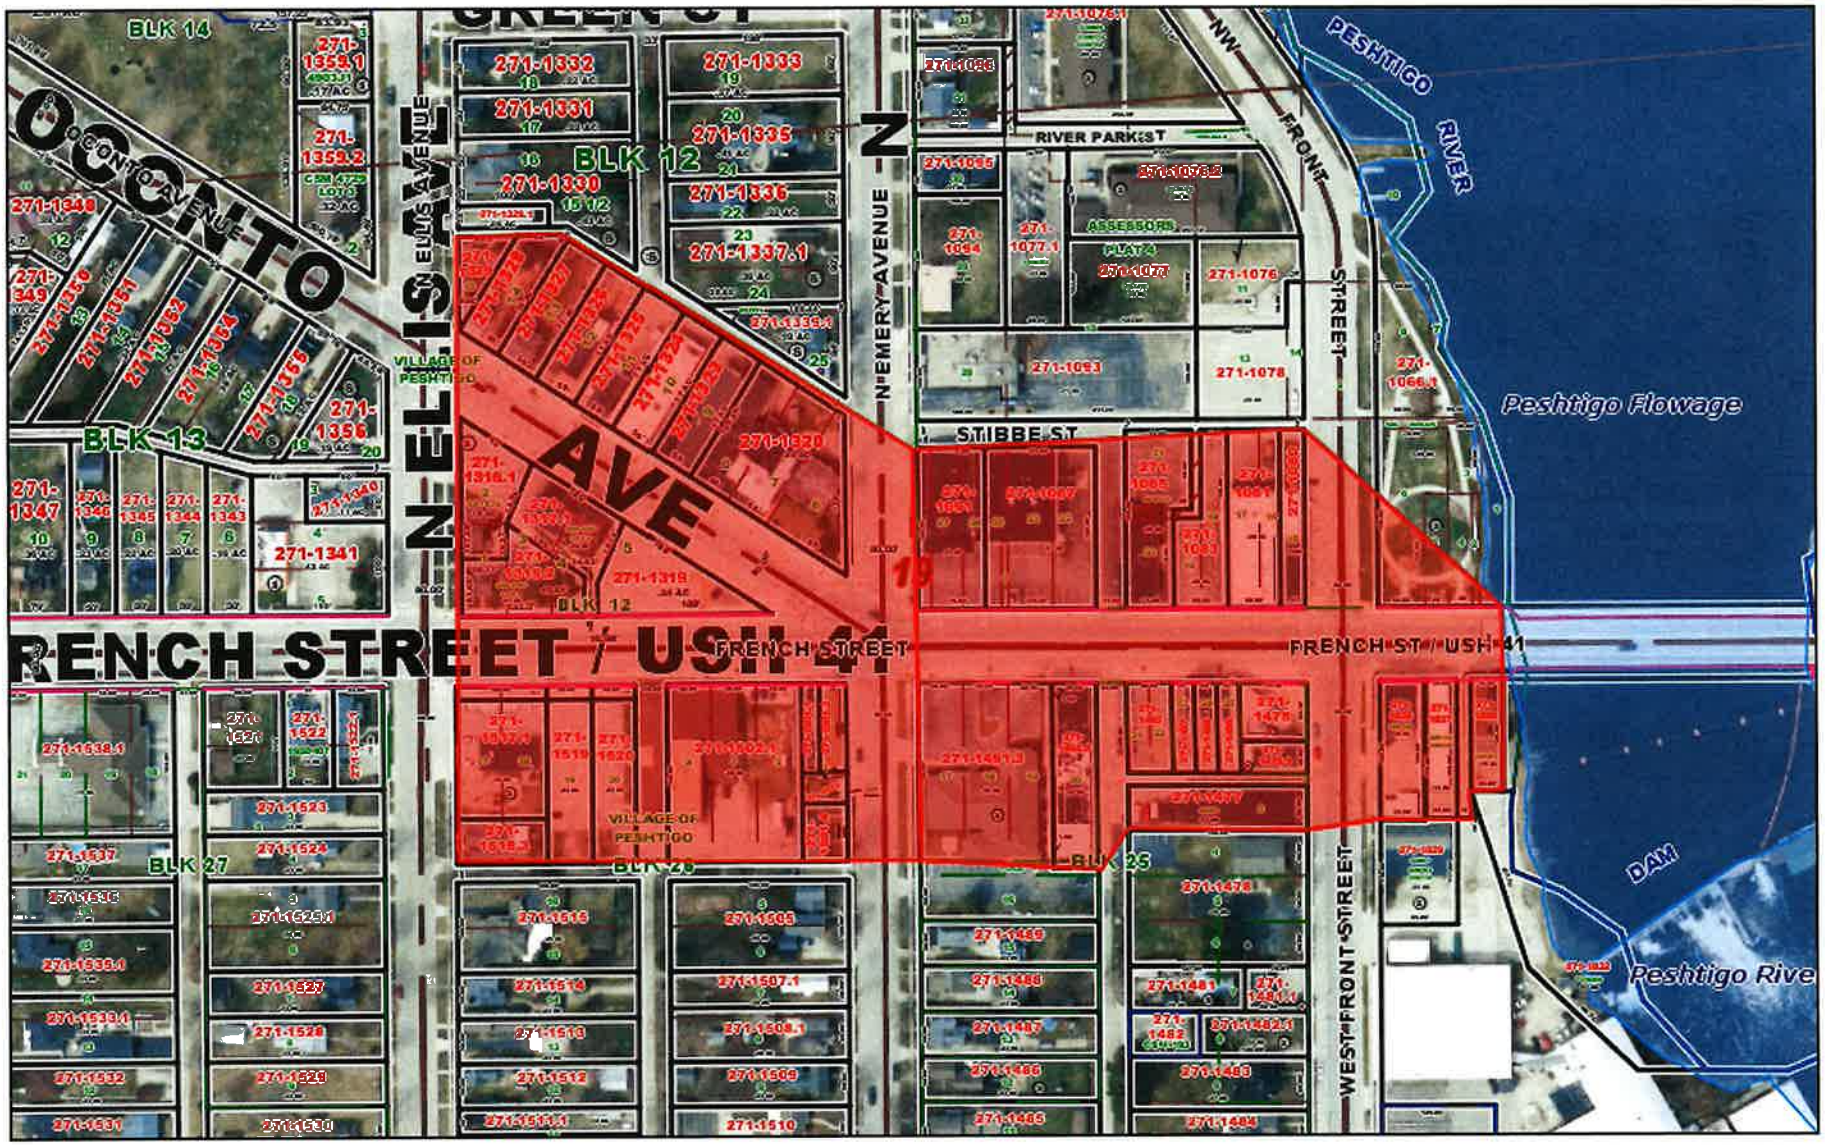

1. Continuation of the policy as adopted;
2. Modification of the policy based on operational experience;
3. Expansion or reduction of service limitations; and
4. Whether the policy should be formally incorporated into the City of Peshtigo Code of Ordinances.

Should the Committee concur with the proposed policy, staff further recommends that the Committee forward a favorable recommendation to the Common Council for adoption of the policy with an implementation date determined by the Council.

Proposed Committee Motion

"Motion to recommend approval of the Commercial Refuse Collection Service Policy requiring commercial properties outside the Downtown District to obtain refuse collection through private waste haulers, providing a three (3) month transition period for existing customers, and allowing eligible Downtown District properties to receive municipal refuse collection service subject to the two-cart allowance and additional per-cart fees established by the Common Council; and forward the policy to the Common Council with a recommendation for adoption on a twelve (12) month trial basis."

Outlook

RE: safety program

From Roxane Frank <Roxane.Frank@fehrgraham.com>
Date Thu 11/5/2026 1:36 PM
To Erik Schutzius <eriks@ci.peshtigo.wi.gov>

Good afternoon Erik. I have run some rough budgetary numbers and the cost for the following would fall around $25,000. That cost would include the following:

Complete development of written programs

- Bloodborne pathogens
- Emergency Action Plan
- Hearing Conservation
- Respiratory Protection
- Hazard Communication
- Confined Space – with the inclusion of 35 evaluations
- Control of Hazardous Energy (LOTO) – with the inclusion of 50 procedures
- Fall Protection
- Forklift and Boom/Scissors Lift
- Excavation
- Silica

Development for all these programs consists of information gathering and employee participation to ensure all the programs are specific to the team and tasks. With that goal in mind we will also assist with

- PPE/Hazard Assessments
- Facility walkthrough to identify work area improvements
- PPE and equipment recommendations
- Assistance with inspection schedules
- Noise area samples to identify tasks or equipment with hazardous noise exposure

A full day of Training consisting of 2 sessions. Initial training on all topics

- Initial training on all topics – Only those topics determined to be necessary by job role
- Confined Space Entry Exercise
- Certification for Forklift and/ or lift operators
- Respirator Fit tests if required

Please let me know if you have any questions or if anything in this scope needs to be adjusted for needs or budgetary purposed.

Proposal For Attached Services.

Confidentiality Agreement
It is understood and agreed to that the below identified discloser of confidential information may provide certain information that is and must be kept confidential. To ensure the protection of such information, and to preserve any confidentiality necessary under patent and/or trade secret laws, it is agreed that

1. The Confidential Information to be disclosed can be described as and includes: Invention description(s), technical and business information relating to proprietary ideas and inventions, ideas, patentable ideas, trade secrets, drawings and/or illustrations, patent searches, existing and/or contemplated products and services, research and development, production, costs, profit and margin information, finances and financial projections, customers, clients, marketing, and current or future business plans and models, regardless of whether such information is designated as "Confidential Information" at the time of its disclosure.

2. The Recipient agrees not to disclose the confidential information obtained from the discloser to anyone unless required to do so by law.

3. This Agreement states the entire agreement between the parties concerning the disclosure of Confidential Information. Any addition or modification to this Agreement must be made in writing and signed by the parties.

4. If any of the provisions of this Agreement are found to be unenforceable, the remainder shall be enforced as fully as possible and the unenforceable provision(s) shall be deemed modified to the limited extent required to permit enforcement of the Agreement as a whole.

The Recipient shall limit disclosure of Confidential Information within its own organization to its directors, officers, partners, members, employees and/or independent contractors (collectively referred to as "affiliates") having a need to know. The Recipient and affiliates will not disclose the confidential information obtained from the discloser unless required to do so by law.

SAFETY AND HEALTH PROCEDURES PROGRAM AGREEMENT

Client:
City of Peshtigo
331 French St., Ste A
Peshtigo, WI 54157

Contact:
Erik Schutzius, Director of Public Works

Advanced Safety Technology, Inc. will furnish the following:

SITE-SPECIFIC PROGRAM ASSESSMENTS/EVALUATIONS REQUIRED BY STATE OF WISCONSIN, DEPARTMENT OF SAFETY & PROFESSIONAL SERVICES (DSPS), SPS 332

1. Bloodborne Pathogens (Exposure Control Plan) 29 CFR 1910.1030
   - Exposure Determination
2. Control of Hazardous Energy 29 CFR 1910.147
   - Equipment evaluation
3. Hearing Conservation 29 CFR 1910.95
   - Machine and Equipment Monitoring
4. Permit-Required Confined Space Entry 29 CFR 1910.146
   - Confined Space Evaluation
5. Personal Protective Equipment (PPE) 29 CFR 1910.132
   - PPE Hazard Assessment Certifications
6. Respiratory Protection 29 CFR 1910.134
   - Hazard Evaluation

SAFETY AND HEALTH PROGRAMS

1. Write applicable safety and health procedures as per DSPS CODE SPS 332 requirements.
   - Site-Specific Safety & Health Programs will include:
     a. General Safety and Health Procedures
     b. Exposure Control Plan
     c. Permit-required Confined Space Entry Program
     d. Hazard Communication Program
     e. Hazardous Energy Control Plan
     f. Personal Protective Equipment Program (includes: Hearing Conservation and Respiratory Program)
   - The Safety & Health Programs will include DSPS 2015 SPS 332 update.
2. Provide 1 - Supervisor Safety & Health Procedure Manual, 3-ring sleeved binder with client's name on front of binder.
3. Provide 5 - Employee Safety and Health Handbooks (5" x 7", spiral binded hand books).
4. Provide DSPS safety poster, hazard communication employer and other employer hazard communication poster.

The following schedule will be provided:

Phase 1 - The required assessments, evaluations and determinations will be scheduled.

1. Bloodborne pathogens exposure determination
2. Control of hazardous energy equipment evaluation
3. Hearing conservation machine and equipment monitoring
4. Confined space evaluation
5. Personal protective equipment hazard assessment certifications
6. Respiratory protection hazard evaluation

Note: If the above is not completed on the scheduled date because the client is not prepared or departments do not cooperate, there will be additional charges for time and expenses.

Phase 2 - Develop site-specific written programs.

1. Site-specific written safety and health procedures will be developed.
2. The client safety coordinator will receive a draft copy of the procedures for review (review must be completed within 14 days).
3. Supervisor manual (1 ea.) employee handbooks (5 ea.) and additional manuals/posters will be developed and distributed.
4. Required posters will be distributed.

SAFETY & HEALTH PROGRAM COST:

PHASE 1 & 2 FEE

This fee includes the above services for Phase 1 and Phase 2, 1 - Supervisor Manual and 5 - Employee Handbooks.

City of Peshtigo $4,400.00

Safety Consultant Traveling Expenses (Phase 1 and 2) (office to training site and back):

$150.00/night
$40.00/diem
$.76/mile

Advanced Safety Technology, Inc. is not responsible for inventorying chemicals, collecting or requesting material safety data sheets. Manuals, handbooks and written procedures were developed for Client only and not for any other employers. Neither the manual or handbook or any part of the manual or handbook may be reproduced or transmitted in any form or by any means, electronic or mechanical, including photocopying, recording, or by any information storage and retrieval system, without permission in writing from Advanced Safety Technology, Inc.

Additional Supervisor Manuals
3-Ring Binders $55.00 ea.

Additional Employee Handbooks
5"x7" Handbooks $6.50 ea.

Client will be invoiced separately for Phase 1 and Phase 2. Phase 1 cost will be 60% of initial program cost. Phase 2 invoice will be 40% of initial program cost plus the additional Supervisor Manual and Employee Hand Book cost if client request additional manuals and handbooks.

ACCEPTANCE: Please Read And Fill In The Bottom And Return Agreement To AST
The client agrees to pay all invoices within thirty days from invoice date and agree that any unpaid balances is subject to interest at an annual rate of eighteen percent (18%), as computed on a monthly basis or the minimum rate permitted by applicable law, whichever is greater. Client also agrees to pay all costs of collection, including costs of litigation and reasonable attorneys' fees, if client does not pay invoice when due. The Client also agrees that suggestions or recommendations from Advanced Safety Technology, Inc. ("AST") are from general guidelines and we are not responsible or liable for any claims for personal injury, death, property damage or attorney's fees, regardless against whom the claimant or claimants may institute action. The Client agrees to comply with all Federal OSHA regulations, State regulations and laws, and local ordinances that AST might not have covered.

CITY OF PESHTIGO

Telephone 715-582-3041 331 French Street - Suite A - Peshtigo, WI 54157

Office of the Mayor

To: Personnel Committee
From: Mayor Katie Berman
Date: November 16, 2026
Subject: CDL Tuition Reimbursement Program

The City may benefit from helping employees obtain a commercial driver's license when it is needed for their position. Having more CDL-qualified employees could give departments added flexibility in maintaining operations.

I recommend the Committee consider establishing a program to pay approved CDL training costs for employees. Eligibility would be determined at the time of hire by the Mayor, the department head, and the Personnel Committee. The policy should identify eligible costs and any payment limits.

Employees whose training is paid for by the City would be required to remain employed with the City for three years. If an employee leaves before completing that period, the employee would repay a prorated portion of the costs paid by the City, with the amount decreasing over the three years. After completing three years, the repayment requirement would be satisfied.

If the Committee supports the idea, staff can prepare a policy for review and a recommendation to Council.

FROM Mayor Katie Berman

DATE November 13, 2026

RE Parks & Recreation Workload Review and Proposed DPW Reorganization

As we continue discussing the proposed changes to our Public Works and Parks departments, I wanted to share a summary of the information Lori provided regarding the Parks & Recreation workload. I think this gives us a good starting point as we look at how we can better organize our departments and make the best use of our staff and resources.

The Parks Department is currently responsible for more than 114 acres of park and recreation space, including Badger Park and our 42-site campground. Lori provided a breakdown of the work performed throughout the year, including mowing, cleaning, general maintenance, campground operations, seasonal staffing, reservations, recreation programs, special events, budgeting and planning.

Her information identifies 64 tasks throughout the annual planning schedule, along with eight additional project items. There is also a considerable amount of daily maintenance and campground work during the busy season. For example, campground booth coverage alone accounts for eight (8) staff-hours each week on Thursdays and Fridays, before including any additional campground responsibilities.

I do want to point out that the information provided is more of a breakdown of responsibilities than an actual time study. While it gives us a good idea of everything the department is responsible for, it doesn't tell us how much time is being spent on each task or how much of that time involves management and supervision versus general maintenance.

Looking at the information we have, I believe there are opportunities to incorporate some of the routine Parks maintenance, repairs and seasonal work into the Public Works Department. We would still need someone responsible for overseeing the campground, coordinating recreation programs and events, supervising seasonal employees and handling the overall planning for Parks. I also think some of the reservations, scheduling and general office responsibilities could eventually be handled through City Hall.

As we've discussed, I would like us to continue considering a Parks Superintendent position under the Public Works Director. I think this could provide better coordination between the departments while still having someone responsible for Parks operations. However, I would like us to have a better understanding of the actual workload and staffing needs before making any final decisions on positions or compensation.

My hope is that both committees can use this information as a starting point for further discussion. I would like us to look at which responsibilities can reasonably be shared with Public Works, which duties require dedicated Parks staff, and where we may be able to make adjustments without affecting the services we provide.

Ultimately, I want to make sure we're putting together a structure that makes sense for the City, is manageable for our employees and allows us to use our resources as efficiently as possible.

City of Peshtigo
Job Position Description

Park and Recreation
Position Title: Seasonal Park Assistant
Seasonal: (April – November- flexible dates)
Part-time/seasonal 20-25 a week (varies, including nights and weekends)
Starting Wage $13.00
Reports to: Park and Recreation Director/Park Supervisor
Date: Edited 2026

Position Summary

The Summer Park Assistant supports the daily operation and upkeep of park facilities during the summer season. This role helps ensure the park is clean, safe, and welcoming for the public while assisting with maintenance, events, and general visitor needs.

Key Responsibilities
- Maintain park cleanliness including daily trash removal, restroom cleaning and grounds upkeep
- Assist with basic grounds keeping including mowing, weeding, watering, landscaping
- Set up and take down equipment for park programs, events, or rentals
- Perform basic maintenance and minor repairs on park amenities (benches, signs, fences, playground borders).
- Monitor park areas and report safety or maintenance issues
- Greet and assist park visitors as needed
- Follow safety procedures and park rules at all times
- Work cooperatively with park staff and supervisors

Qualifications
- Must be at least 16 years of age
- Must possess a valid driver's license
- Ability to work outdoors in varying weather conditions
- Ability to perform physical tasks such as lifting, walking, and standing
- Dependable, responsible, and able to follow instructions
- Positive attitude and willingness to learn
- Previous outdoor or maintenance experience a plus, but not required

Skills & Abilities
- Basic hand tool operation
- Good communication and teamwork skills
- Time management and attention to detail
- Customer service mindset

Working Conditions
- Outdoor work in heat, sun, and occasional rain
- Physical activity including lifting up to [weight, e.g., 40 lbs.]
- Flexible schedule including weekends and holidays

Disclaimer: This description summarizes primary duties and does not include every task. Duties may be assigned by the Park Director as needed.

Job Position Description

Park and Recreation
Position Title: Lawn and Grounds Caretaker
Seasonal: (April – November- flexible dates)
Part-time/seasonal 20-25 a week (varies, including nights and weekends)
Starting Wage $13.00
Reports to: Park and Recreation Director/Park Supervisor
Date: Edited 2026

Position Summary

The seasonal Lawn and Grounds Maintenance Worker is responsible for maintaining the appearance, safety, and usability of public parks and green spaces. This position performs routine grounds keeping duties including mowing, trimming, landscaping, litter removal, and basic maintenance to ensure parks are clean, attractive, and safe for public use.

Key Responsibilities

- Mow lawns, trim grass, edge walkways, and maintain turf areas using hand and power equipment.
- Prune trees, shrubs, and hedges according to seasonal and safety standards.
- Plant, water, fertilize, and maintain flowers, trees, and landscaped areas.
- Remove litter, debris, and fallen branches from park grounds, trails, and facilities.
- Operate and maintain equipment such as lawn mowers, trimmers, blowers, chainsaws, and small tractors.
- Perform basic maintenance and minor repairs on park amenities (benches, signs, fences, playground borders).
- Assist with setup and takedown for park events and recreational activities.
- Apply fertilizers, herbicides, and pesticides in accordance with safety guidelines and regulations.
- Monitor park areas for hazards or damage and report issues to supervisors.
- Follow all safety procedures and use personal protective equipment (PPE) as required.

Qualifications

- Must be at least 16 years of age.
- Must possess a valid driver's license.
- High school diploma or equivalent preferred.
- Previous experience in lawn care, landscaping, grounds keeping, or maintenance is an asset.
- Basic knowledge of landscaping tools, equipment, and safe work practices.
- Ability to operate power equipment safely and efficiently.

Skills and Abilities

- Physical ability to perform manual labor in outdoor environments and varying weather conditions.
- Ability to lift, carry, and move materials up to 50 lbs.
- Attention to detail and pride in maintaining clean, well-kept grounds.
- Ability to work independently or as part of a team.
- Good communication skills and ability to follow instructions.

Working Conditions

- Outdoor work in various weather conditions (heat, cold, rain).
- Exposure to noise, dust, pollen, and landscaping chemicals.
- May require early mornings, weekends, or seasonal hours.

Disclaimer: This description summarizes primary duties and does not include every task. Duties may be assigned by the Park Director as needed.

Job Position Description

Park and Recreation
Position Title: Parks Beautification Worker
Seasonal: (April – November- flexible dates)
Part-time/seasonal 20-25 a week (varies, including nights and weekends)
Starting Wage $13.00
Reports to: Park and Recreation Director/Park Supervisor
Date: Edited 2026

Position Summary

The Seasonal Parks Beautification Worker is responsible for enhancing and maintaining the visual appeal, cleanliness, and overall presentation of public parks and green spaces during peak seasons. This seasonal position focuses on landscaping, planting, seasonal displays, litter control, and minor maintenance to ensure parks are welcoming, attractive, and safe for the public parks and green spaces.

Key Responsibilities

- Perform landscaping and beautification tasks including planting flowers, shrubs, and trees.
- Maintain flower beds, planters, and landscaped areas through weeding, mulching, watering, and edging.
- Assist with seasonal decorations, displays, and special beautification projects.
- Remove litter, debris, and graffiti from park grounds, trails, and facilities.
- Mow lawns, trim grass, and maintain turf areas as needed.
- Prune shrubs and small trees to promote healthy growth and appearance.
- Apply fertilizers, soil amendments, and other treatments according to guidelines.
- Assist with installation and maintenance of benches, signage, and decorative features.
- Operate hand and power tools such as mowers, trimmers, blowers, and hand tools safely.
- Monitor park areas for maintenance needs or safety concerns and report issues to supervisors.
- Follow all safety procedures and use personal protective equipment (PPE).

Qualifications

- Must be at least 16 years of age.
- Must possess a valid driver's license.
- No prior experience required; training will be provided.
- Previous experience in landscaping, horticulture, grounds keeping, or outdoor work is an asset.
- Basic knowledge of plants, landscaping practices, and tools.

Skills and Abilities

- Ability to perform physical labor outdoors in various weather conditions.
- Ability to lift and carry up to 50 lbs.
- Attention to detail and pride in maintaining attractive public spaces.
- Ability to work independently or as part of a team.
- Good communication and time-management skills.

Working Conditions

- Outdoor work in heat, cold, rain, and varying weather conditions.
- Exposure to pollen, dust, insects, and landscaping materials.
- May require early mornings, evenings, weekends, or seasonal schedules.

Disclaimer: This description summarizes primary duties and does not include every task. Duties may be assigned by the Park Director as needed.

Job Position Description

Park and Recreation
Position Title: Campground Caretaker/Host
Seasonal: (April – November- flexible dates)
Part-time/seasonal 10-15 a week (varies, including nights and weekends)
Starting Wage $13.00
Reports to: Park and Recreation Director/Park Supervisor
Date: Edited 2026

Position Summary

The Campground Caretaker is responsible for the daily upkeep, cleanliness, safety, and overall operation of campground facilities. This role ensures campers have a positive experience by maintaining campsites, restrooms, common areas, and grounds while enforcing campground rules and providing basic visitor assistance.

Key Responsibilities

- Maintain cleanliness of campsites, restrooms, showers, picnic areas, and common facilities daily.
- Perform routine grounds keeping duties including mowing, trimming, raking, leaf removal, and trail upkeep.
- Empty trash and recycling receptacles and properly dispose of waste.
- Inspect campsites and facilities for safety hazards, damage, or maintenance needs and report issues promptly.
- Perform minor maintenance and repairs (e.g., replacing fixtures, fixing signs, repairing fire rings or picnic tables).
- Greet campers, provide information about campground rules, amenities, and local attractions.
- Monitor campground activity to ensure compliance with rules, quiet hours, and safety regulations.
- Assist with campsite reservations, check-ins, or fee collection if required.
- Prepare campsites for new arrivals and close sites as needed.
- Respond appropriately to visitor concerns, complaints, or minor emergencies and notify supervisors when necessary.
- Operate and maintain basic tools and equipment safely.

Qualifications

- High school diploma or equivalent preferred.
- Previous experience in maintenance, grounds keeping, custodial work, or customer service is an asset.
- Basic knowledge of tools, equipment, and safe work practices.
- Valid driver's license may be required.
- Ability to pass a background check if required.

Skills and Abilities

- Strong customer service and communication skills.
- Ability to work independently with minimal supervision.
- Physical ability to perform manual labor, including lifting up to 50 lbs.
- Ability to work outdoors in varying weather conditions.
- Problem-solving skills and attention to detail.

Working Conditions

- Primarily outdoor work with some indoor facility maintenance.
- Exposure to weather, insects, wildlife, cleaning chemicals, and noise.
- May require evenings, weekends, holidays, and on-call availability.

Job Position Description

Park and Recreation
Position Title: Seasonal Park Assistant / Community Event Assistant
Seasonal: April – November (flexible dates)
Employment Status: Part-Time / Seasonal (20–25 hours per week; schedule varies and may include evenings and weekends)
Starting Wage: $13.00 per hour
Reports To: Park and Recreation Director / Park Supervisor
Date Revised: 2026

Position Summary

The Seasonal Park Assistant / Community Event Assistant supports the Parks and Recreation Department in delivering community programs, recreational activities, and special events. This position assists with planning and implementing family events, recreation programming, and park activities while also supporting facility operations and event setup.The position works closely with department staff, volunteers, and community partners to ensure programs and events run safely, efficiently, and provide a positive experience for community members and visitors.

Essential Duties and Responsibilities/Community Events

- Assist with planning and coordinating community events such as Easter Egg Hunt, Trunk or Treat, National Night Out, Movies in the Park, and other seasonal programs.
- Assist with event setup, participant registration, activity coordination, and cleanup.
- Prepare event materials including decorations, prizes, supplies, and equipment.
- Assist with youth and adult recreation programs including Pee Wee Baseball, Men's Softball, and open recreation opportunities.
- Help prepare recreation areas and athletic fields for games and activities.
- Assist with equipment setup, organization, and storage.
- Assist with wellness and fitness programs such as exercise classes, Tai Chi, and other community activities.
- Support outdoor recreation opportunities including kayak floats and other seasonal outdoor events.
- Assist with decorating parks and public areas for holidays and seasonal displays.
- Help maintain community flower pots, banners, and decorative elements.
- Assist with pavilion rentals and event space preparation.
- Help maintain clean, safe, and welcoming park facilities.
- Assist with basic park maintenance and equipment setup as directed.
- Assist with distributing flyers, brochures, and promotional materials for programs and events.
- Support outreach efforts and assist with donor or sponsor recognition.

Qualifications:

- Must be at least 16 years of age (preferred).
- Ability to work evenings, weekends, and occasional holidays.
- Strong communication and customer service skills.
- Ability to work independently and as part of a team.
- Ability to perform light physical work, including lifting and event setup.

Working Conditions

- Primarily outdoor work with some indoor facility maintenance.
- Exposure to weather, insects, wildlife, cleaning chemicals, and noise.
- May require evenings, weekends, holidays, and on-call availability.

Disclaimer: This description summarizes primary duties and does not include every task. Duties may be assigned by the Park Director as needed.

Peshtigo Parks Grass Cutting Schedule

Badger Park

Badger Park occupies 60 acres in the northern portion of the City. Approximately 3,000 feet of the park fronts on the Peshtigo River. A 42 site campground is located in the southwest portion of Badger Park. The park can be divided into four areas, the trail system, wooded area, disc golf and the northern picnicking playground, Badger Campground, and the Badger Swimming/Volleyball area.

- **1) Badger Park/Large Pavilion**
- **2) Badger Park/Beach/Small Pavilion/Skate Ramp**
- **3) Badger Park Pump Station 1 and Aubin Street**

Pavilions and Shelters

The City of Peshtigo maintains two pavilions at Badger Park: The large pavilion is located in Badger Park and the small pavilion is located on the river by the beach. The Band shell is located in the park as well. All shelters are available for rent. Tracy at City Hall schedules reservations for these as well and they are posted in the information booths in the park.

4) Riverfront Park

This parcel of land is located on the west side of the river extending from French Street to North Emery Avenue. Currently the area incorporates a boat launching facility. This area received a major facelift in 2012-13 with a total renovation. The landscaping of the area now includes a 1/4 mile concrete interior walkway which flows along the riverbank and through the park. 20 lighted bollards provide lighted assistance to the designated paths. Flowering trees and shrubs accent the area. A covered gazebo is a centerpiece for those wishing to use the area.

5) Northeast Front St.

This parcel runs along the river from the boat launch to Emery Ave.

6) Harper Park (One Acre)

Harper Park is located at the corner of Thompson Street and Ellis Avenue in the west central portion of the City. This park includes:

- (1) Swing Set, Merry Go Round, Game Time Tot Lot Play apparatus,(2) Permanent Park Benches,(1) Park Bench/Planter Combination

7) Triangle Park (.2 Acre)

Triangle Park is located adjacent to Hwy 41 on the east side of the main bridge. No recreational facilities are available at the park. A concrete monument, flower area, and landscaping make it an attractive addition to the park system. Underground electrical service allows for Christmas displays to be erected by service clubs and businesses. Ten (10) locations are installed with timers.

Pine View Park (23.2 Acres)

- **8) PYB Field (Field 1) includes:** large concession stand/restroom/storage facility (2012), covered seating area with picnic tables, relocation of outfield fencing (2009), announcers tower with speaker system (2011), new LED scoreboard (2011), three bleacher sections.
- **9) Multi Use Middle Field (Field 2) includes:** storage building with concession stand availability, announcers tower with speaker system (2011), new LED scoreboard (PYB donation 2012), and lighted diamond (1997), three bleacher sections.
- **10) North Baseball Diamond (Field 3) includes:** batting cage/and netting, lighted field and fencing completed in 1988, small concession stand, new LED scoreboard (BPM donation 2011), announcer tower with speaker system (2011), restroom facility, underground irrigation system (installed 1997), five bleacher sections.

Little League Field (2.6 acres)

- **11) GSA youth (Field 4)** The Little League Baseball Field is in the eastern portion of the city. A Little League size ball diamond, rest rooms, concession stand, storage area, and one (1) section of bleachers are located on site. The Park and Recreation Department personnel does all field maintenance during the summer season. The field has had recent improvements which include a new backstop, fencing, electrical scoreboard, batting cage and announcer/scorer area above one dugout.

12) Florist Park (0.8 Acre)

Florist Park on Pine Street is in the east central part of the City. Facilities include off street parking for twelve (12) cars (alley access), merry go round, and baby swing. A 1991 donation by the Marinette Jaycees includes a Lexan

circular slide, a modular system with deck, cargo net, arch climber, and a horizontal ladder. In 1997 ADA accessibility was accomplished by blacktopping from parking lot to equipment.

13) Rainbow Park (1 Acre)
Rainbow Park is located on Poplar Drive in the southeastern part of the City. Facilities include a volleyball court, swing set, slide, climbing bars, teeter totter, merry go round and two (2) spring riding toys. New slide installed in 1997.

14) Lower Boat Launch
This boat launch is located on North West Front Street. The launch provides boat access to the Peshtigo River. The ramp is on the west side of the river. There is a municipal parking lot directly across the street from the boat ramp.

15) Drees Community Center
The Community Center is located at 600 Pine St. and is available to rent by individuals well as groups and organizations. Tracy at all Schedules these and will keep Park staff abreast of rentals and when they will be there.

16) Peshtigo Museum and Fire Cemetery
The Peshtigo Fire Museum preserves the heritage of the Peshtigo Fire, which destroyed the city of Peshtigo, Wisconsin and surrounding area on October 8, 1871, killing over 2,000 people. The memorial at the cemetery was the first official state historical marker authorized by the State Historical Society of Wisconsin.

17) Peshtigo City Hall and Police Department
Peshtigo City hall is located at 331 French St. and serves as both administration building as well as police station and library.

18) Chamber of Commerce Information Booth
Located at the North end of Peshtigo. The structure houses the Chamber of Commerce information.

19) Bundy Park (0.2 Acre)
Bundy Park is at the corner of Oconto Avenue and Wood Street in the northwestern part of the City. Facilities include an open green area, merry go round, one (1) spring riding toy and an infant swing. This park is privately owned and leased to the City for public recreational use.

20) Berth Park (O.6 Acre)
Berth Park, located at MLCG Street and Brown Avenue in the west central part of the City, contains a swing set an infant swing, and a slide (1998). A volleyball court was also constructed. This park is privately owned

21) Peshtigo Fire Station 2
Fire Station 2 – 800 Pine St.

22) Pump station #2 by Fire station #2

23) Lift Station by Acer

24) East Front Street: Along East Front St. is a strip of property that goes along East Front St to the City garage.

25) Frontage Road Ditch

26) Pump station #3 off of Wood Ave in Alley

27) Water Tower Park

28) Park Manor

29) Lion's Park

30) New Unnamed Park

31) Campground

Campground and Park Staff Daily Duties 2026

MONDAY:

Garbage: (*ask Matt to schedule the park/campground for after 10 a.m. if possible.)*

- Garbage emptied and prepared for pick up from both pavilions, all three bathrooms, all campground and playground.

- Fill gas cans and fill up all vehicles
- Schedule the cutting week (Cutters and Weed Eaters)
- String and gas up all weed eaters
- Review any fixing or major issues to be dealt with this week.
- Check over equipment before use for any oil, gas, string or fixing.
- Garage area cleaned up so campers don't have to see the disarray

Rules and Expectations for Park Staff

Professional Conduct

Wherever your duties take you, **every community member you encounter is your boss**. Always treat the public with courtesy, professionalism, and respect—even if the same is not offered in return.

- If a community member raises a concern and you are unsure how to address it, respond politely: > "I'm sorry, I can't help with that directly, but I will let Lori know and she will get back to you."
- When appropriate, ask for the person's name and phone number.
- If they choose not to provide contact information, or if the issue does not require follow-up, let them know: > "I will let Lori know and we will take care of it."
- Thank them for bringing the issue to your attention and remind them they are always welcome to call with concerns.

Remember: **community members fund our work and expect professionalism**. Our goal is to give them every reason to share positive feedback.

Phone Use

While phones are an important communication tool, staff should limit personal use during work hours.

- Phones may be kept accessible for work-related communication.
- Checking phones periodically is acceptable when staff are working in different locations.
- Excessive or inappropriate phone use during work hours is not permitted.

Dress Code & Safety Gear

Staff are expected to dress appropriately for outdoor work and safety.

- Shorts must be an appropriate length.
- No tank tops at this time (subject to future review).
- **Shoes must be worn at all times**—no bare feet unless entering the water is required for work.
- Tennis shoes are acceptable; however, work boots or long pants are recommended when mowing or weed eating.
- Sweatpants are acceptable and help protect legs from debris.
- **Eye protection is required** when operating equipment.
- Gloves are recommended for weeding and general grounds work to prevent blisters and dirt exposure.

Scheduling & Attendance

- Work schedules are designed to provide variety in duties and allow time off for sports, vacations, and personal needs when possible.
- Work hours are based on operational needs and budget constraints.
- If you need to call in, notify your supervisor **as soon as possible**.
- Occasional emergencies are understood; however, frequent call-ins create hardship for coworkers and should be avoided.
- Switching shifts is allowed **only with approval from the Park and Recreation Director**.

Final Notes

- Staff are expected to work as a team and support one another.
- Additional duties, expectations, or information may be added as needed throughout the season.

Our mission is simple: keep Peshtigo clean, safe, and looking its best—so the community notices the care we put into our parks.

Peshtigo Parks & Recreation Projects

Project Activity Dates: January 10, 2026 – December 3, 2026

Facility & Infrastructure Improvements

- Install new or replacement bricks for fire pits.
- Pre-season inspection of all electrical systems.
    - Contractor: Marquardt Electrical Services | 920-599-0959
- Clean and power wash park cabins (Electric breaker #32).
- Power wash the Drees Community Center.
- Install locks at shower facilities.
- Install plexiglass in bathrooms under hand dryers.
- Install blowers in shower areas.
- Cap and tee water line by playground bathrooms to supply water to garage.
- Install new mattresses and spacers for bunk beds.
- Clean and organize bathroom storage areas near the beach.
- Clean garages and remove unused or excess materials.

Grounds, Trails & Environmental Projects

- Groom and resurface hiking trails throughout Badger Park
- Groom and resurface hiking trails along East River
- Install and maintain buoys.
- Install docks.
- Install goose deterrent devices.
- Ongoing pond upkeep, including garbage removal and grass cutting.

Park Enhancements & Signage

- Compile list of painters and schedule pavilion flower painting.
- Paint crosswalk near beach area (pending approval).
- Install golf course signage.
- Install stop signs at park entrance drive.
- Design and install welcome sign at campground registration.
- Identify and designate a shelter for park and campground use.

Athletic Field Improvements

- Baseball fields: eliminate weeds, complete bleach project, and paint dugouts.
- Verify and repair baseball field irrigation and watering systems as needed.
- Obtain tarps for Gator utility vehicles.

Maintenance & Repairs

- Inspect and repair girls' restroom toilet (middle unit – possible flush valve replacement).
- Inspect and repair men's and women's shower #1 (water not running).
- Fix slide at Florist Park.

Operations & Supplies

- Obtain and maintain change for park store and registration.
- *This project list serves as a working document and may be updated as priorities, funding, or conditions change.*
