ORDINANCE NO: ____

AN ORDINANCE TO UPDATE SECTION 8.10(5) OF THE MUNICIPAL CODE
REGARDING SIDEWALK MAINTENANCE

The Common Council of Nekoosa, Wisconsin, does ordain as follows:

SECTION I. Subsection 8.10(5) of the Municipal Code is amended to read as follows:

(5) Sidewalks.

(a) Sidewalk standards. The sidewalk shall be located in such places and at such grades as designated by the Council and shall be constructed in accordance with standards established by the Board of Public Works.

(b) New sidewalks. Special assessments for all new sidewalks in new developments shall be levied at 100% of the cost.

(c) Repair and maintenance of existing sidewalks. Pursuant to § 66.0907(6), Wis. Stats., the City hereby declares that sidewalks in the City shall be kept in repair by and at the expense of the City, subject to any provision to the contrary elsewhere in this ordinance, according to the City's sole discretion with regard to necessity and priority, except as follows:

(i) Sidewalks that only serve one property must be maintained by the owner of such property.

(ii) Sidewalks damaged by actions or omissions described in subsection (d) of this section.

(iii) Sidewalks determined to be in need of major repair or replacement pursuant to subsection (e) of this section.

(d) Damage to sidewalks. No person shall propel, drive, drag, or cause to be dropped or placed on any sidewalk in the City any object which will harm the sidewalk to the extent that it would render it hazardous or defective for pedestrian travel. No property owner shall cause or permit damage to occur to a sidewalk through any such acts or through any failure to maintain such owner's property in any manner, including any failure to maintain or control construction or demolition, vehicles, tangible personal property on the property.

(e) Major sidewalk repair or replacement.

(i) Pursuant to § 66.0907, Wis. Stats., the Board of Public Works may order property owners to repair or remove and replace any sidewalk which is unsafe, defective or insufficient. If the property owner shall fail to so repair or remove and replace such sidewalk for a

period of 20 days after service of the notice provided in § 66.0907, Wis. Stats., the Board of Public Works shall repair or construct such sidewalk, and the City Clerk shall enter the total cost thereof upon the tax roll as a special tax against said lot or parcel of land.

(ii) Notwithstanding paragraph (5)(d)(i), the City may make major repair or replacement of any City sidewalk at its own discretion, in which case the City may direct pursuant to § 66.0907(6), Wis. Stats., that the abutting property owner(s) shall pay 50% of the cost of such repair or replacement. If the sidewalk that has been repaired or replaced abuts property owned by more than one property owner, the property owners shall share costs as calculated by the percentage of abutting property owned, as calculated by the City Director of Public Works in the Director's sole discretion. Any costs assessed shall be paid within thirty (30) days, otherwise the City may either enter into a payment plan at the annual statutory interest rate or enter the total cost(s) thereof upon the tax roll as a special tax against the owned lots or parcels, at the sole discretion of the City.

(f) Minor sidewalk repair. If the cost of repair of any sidewalk in front of any lot or parcel of land does not exceed the sum of \$100, the Board of Public Works or the Director of Public Works may immediately repair such sidewalk, without notice or letting the work by contract, and shall charge the cost thereof to the owner of the lot or parcel of land, as provided in § 66.0907, Wis. Stats.

(g) Maintenance defined. Maintenance of a sidewalk shall be defined as the avoidance of damage to the sidewalk and the keeping of a sidewalk clear of all obstructions, and shall include the removal of all ice, snow, grass, and any other obstruction so as to keep the sidewalk clear, including but not limited to responsibilities under Section 8.08 of this Code. Each day any violation of this ordinance continues shall constitute a separate offense. If any obstruction is not cleared by the property owner, the City may remove the obstruction and assess actual costs of removal as permitted by § 66.0907, Wis. Stats.

Adopted this ____ day of _____, 2024.

City of Nekoosa, Wisconsin DRAFT Forestry Ordinance

21 November 2024

INTENT AND PURPOSE; APPLICABILITY

To establish and maintain a safe, healthy, age and species-diverse tree population throughout all portions of Nekoosa, with the intent to increase wellness of the citizenry, reduce stormwater runoff and increase energy conservation while striving for a large canopy cover that will help achieve these and other forestry goals.

The provisions of the chapter shall apply to all trees and shrubs presently or hereafter planted in or upon any public area including terraces; and also to all trees and shrubs presently or hereafter planted in or upon any private premises which shall endanger the life, health or safety of persons or property or present a risk of disease or pests.

DEFINITIONS

In this chapter, unless the context clearly requires otherwise, the following words and phrases shall be defined as follows:

City is the City of Nekoosa, Wisconsin.

City Forester shall mean the person designated by the City under this chapter, or his/her duly authorized representative designated to perform inspection or otherwise enforce the provisions of this chapter.

Tree shall mean a woody plant, reaching a height of twelve feet or more.

Shrub shall mean a woody plant usually with multiple stems branched at or near the base, typically reaching a height of less than twelve feet.

Terrace shall mean turf and trees located between the back of curb and sidewalk or the back of curb and the property line – whichever condition exists – and within the street right-of-way

Public Tree All trees located in or upon parks, street rights-of-way, and other lands owned, controlled, or leased by the City of Nekoosa

Private Tree All trees not located in or upon lands owned, controlled, or leased by the City of Nekoosa.

Terrace Tree shall mean any public tree presently or hereafter located in the public way between the curb and public sidewalk, or between the curbs of a median strip, or in the equivalent location with respect to future curb, sidewalk or median strips where such curbs or sidewalk are not installed.

Invasive Plant Species Nonindigenous species whose introduction causes, or is likely to cause, economic or environmental harm or harm to human health. According to Wisconsin DNR's NR40 rule, with certain exceptions, the transport, possession, transfer and introduction of "prohibited"

Commented [KAJD1]: Have match whatever word is used in the definition below.

Commented [WOJD2R1]: Go through again to check and change any "terrace/bld" to Str ROW.

plant species is banned. Restricted plant species are also subject to a ban on transport, transfer and introduction, but possession is allowed.

DBH Diameter at Breast Height – Standard tree measurement of diameter taken at 4.5' above grade that is typically measured with a specialized diameter tape. Not used for nursery stock (see caliper below). DBH is the industry standard for tree measurement.

Caliper Used when purchasing nursery stock. Caliper is the diameter of the trunk, measured at 6" above the soil line, on trees that measure 4" caliper or smaller. Over 4" caliper trees are measured 1' from the soil line.

Permit shall mean written permission from the City Forester to perform maintenance and protection on any public tree or shrub or undertake construction in the vicinity of any public tree or shrub. Permits may contain specifications or provisions imposed by the City Forester to ensure the health of trees and shrubs. Any person performing work pursuant to a permit shall comply with all such specifications and other directives contained in the permit.

Public Nuisance Any tree or shrub or part thereof located upon any public or private, which by reason of its condition interferes with the use of a public area, is infected with an infectious plant disease, is infested with injurious insects or pests, is injurious to public improvements, is dead or cannot substantially support foliage, or endangers the life, health or safety of persons or property due to its physical condition.

Toppling also known as heading, hatracking, dehorning or rounding over shall mean the cutting of large diameter branches at a point between lateral shoots thereby leaving stubs and resulting in substantial size reduction and destruction of the natural form and shape of a mature tree.

Tree Protection Zone shall mean a zone of protected space surrounding any public tree extending from the topmost branch or leader downward to a distance of thirty- six (36) inches below the surrounding ground surface level. The radial dimension from the center of the tree to the outermost horizontal limit of the zone is determined by the diameter of said tree as measured at four and one half (4 ½) feet above ground surface level.

Urban Forest shall mean the aggregate of all trees, shrubs and other woody vegetation within the City of Nekoosa.

AUTHORITY OF CITY FORESTER

Powers and Duties. The City Forester, subject to the direction and supervision of the City of Nekoosa Mayor shall have the following general powers and duties:

To direct, manage, supervise, and control the City's forestry program to include the planting, removal, trimming, maintenance, and protection of all trees and shrubs in or upon all public areas of the City; to supervise private contractors in the planting, removal, trimming, maintenance, and protection of said trees and shrubs.

To cause the provisions of this ordinance to be enforced, including the authority to issue citations.

To guard all trees and shrubs within the City against the spread of plant diseases, insects or pests; to eliminate conditions which may endanger the life, health, or safety of persons or property.

Authority to Preserve and Remove Public Trees and Shrubs. The City Forester shall have the authority to plant, remove, maintain, and protect all public trees and shrubs or cause such work to be done as may be necessary to preserve the beauty of public areas, and to protect life and property.

Authority to Enter Private Premises. The City Forester or his/her authorized representative shall have the authority to enter upon private real estate, excluding any buildings thereon, at reasonable times for the purpose of examining or taking the necessary samples of any suspected nuisance tree or shrub located upon or over such premises, and enforcing the provisions of this ordinance. All nuisance trees and shrubs to be removed pursuant to this ordinance may be appropriately marked by the City Forester.

PUBLIC NUISANCE, DECLARATION AND ABATEMENT

Public Areas. Whenever the City Forester shall find on examination that a public nuisance as herein defined exists upon any public area, he/she shall immediately cause such nuisance tree, shrub, or part thereof to be treated, trimmed, removed, or otherwise abated in such a manner as to destroy or prevent the spread or continuance of the nuisance. The manner in which the nuisance shall be abated shall be determined by the City Forester.

Private Areas. If the City Forester shall determine with reasonable certainty upon inspection or examination that any nuisance tree or shrub as herein defined exists in or upon any private premises within the City, he/she shall notify the owner of such premises, or the owner's agent, in writing that said nuisance tree or shrub must be treated, trimmed, removed, or otherwise abated. Said written notice shall specify the nature and exact location of the nuisance, the manner in which the nuisance shall be abated, and the time limited in which the nuisance shall be abated which shall not be less than thirty (30) days after issuance of said notice unless the City Forester shall determine that immediate action is necessary for the public safety.

Immediate Hazard or Nuisance. In the event that a tree has fallen from private property onto city property during a private cutting operation, or due to negligence of the property owner, it is the responsibility of the owner of the property from which the tree fell to cause it to be removed in accordance with this ordinance. Should the City Forester determine that the fallen tree is an immediate hazard or nuisance, they shall cause the tree to be removed and shall report the expense thereof to the City Treasurer who shall enter it as a charge against the property upon which the tree was originally located. In the event that such tree has fallen due to a storm or other identifiable act of God, the city shall remove the tree without charge to the property owner.

Tree Partially on Public Property. In the event that a tree, which is partially located on public property needs to be removed, the city and the sharing private property owner will share in the removal costs on the basis of the percentage of the base of the tree on each property.

PROHIBITED ACTS REGARDING PUBLIC TREES AND SHRUBS

Injury to Public Trees and Shrubs Prohibited. No person shall, without written permission from the City Forester, do or cause to be done any of the following:

Secure, fasten, or run any rope, wire, sign, electrical installation or other device or material to, around or through any public tree or shrub except in an emergency such as a storm or accident.

Break, injure, mutilate, deface, kill, or destroy any public tree or shrub.

Top or make topping cuts on any public tree.

Permit any toxic chemical, gas, smoke, oil, or other injurious substance to seep, drain, or be emptied upon or about any public tree or shrub. Except routine winter street maintenance by City Departments.

Excavate any ditch, tunnel, or trench, or lay any drive, sidewalk or other impermeable surface within the tree protection zone of any public tree or shrub.

Erect, alter, repair, raze, or excavate within the tree protection zone of any public tree or shrub without placing suitable guards approved by the City Forester around such trees and shrubs which may be injured by such operations.

Remove any guard, stake, or other device or material intended for the protection or support of any public tree or shrub.

Place any earth fill, rock, trash, other material, or vehicles or equipment within the tree protection zone of any public tree or shrub which may compact or prevent the entry of air and water to the root zone.

Obstruction of Signs, Signals, Travel. All trees and shrubs located upon any public way or upon any private premises adjacent to the public way shall be kept trimmed so that the lowest projecting branches provide a clearance height of not less than thirteen (13) feet above the travel portion of a public street, and not less than eight (8) feet above the public sidewalk. The City Forester may waive the provisions of this section for newly planted or naturally low-profile trees if he/she determines that they do not interfere with public travel, obstruct the light of any street light, obstruct the view of any traffic sign or signal, or endanger public safety.

Any tree or shrub or part thereof found to be in violation of the provisions of this ordinance shall be declared to be a public nuisance and shall be subject to abatement as set forth in this ordinance.

PLANTING, REMOVAL, MAINTENANCE AND PROTECTION OF PUBLIC TREES AND SHRUBS

Permit Required. No person shall plant, remove, maintain or protect any public tree or shrub, or cause such work to be done without obtaining a written permit from the City Forester.

Application and Approval. Any person desiring to plant, remove, maintain or protect any public tree or shrub shall apply in writing to the City Forester for a permit to do such work. Such application shall specify the location and description of the proposed work. If the City Forester determines that the proposed work is necessary and in accord with the purposes of this ordinance, taking into account

the safety, health, and welfare of the public, location of utilities, public sidewalks, driveways and street lights, general character and aesthetic quality of the area in which the tree or shrub is located or proposed to be located, and the soil conditions and physiological needs of the tree or shrub, he/she shall issue a permit to the applicant.

Permit Form, Expiration, Compliance, Inspection. Permits shall be issued by the City Forester for this purpose and shall include a description of the work to be done and shall specify the genus, species, variety, size, grade, and location of trees or shrubs to be planted, if any. Any work done under such permit shall be performed in strict compliance with the terms thereof and with current arboricultural specifications and standards. The City Forester may inspect all work performed pursuant to this section and require any work deemed by the City Forester to be unsatisfactory to be corrected. Permits issued under this section shall specify an expiration date not to exceed six (6) months after the date of issuance.

Permit Exemptions. No permit shall be required to water or fertilize any public tree or shrub or to take the necessary action to guard the public safety or clear the public way in the event of a storm, accident or other emergency.

Arboricultural Specifications and Standards. The following specifications and standards are hereby established for the planting, pruning, and removal of all public trees and shrubs within the City.

Planting

No tree shall hereafter be planted which is less than one and one half (1½) inches in diameter at six (6) inches above the ground.

No street tree shall be planted closer than two (2) feet from the curb line or the street edge of the sidewalk.

No street tree shall be planted less than ten (10) feet from any driveway or fire hydrant, or within the designated clear-vision triangle or less than thirty (30) feet from any street corner, whichever is greater.

At those street locations where the City forester determines that there is not adequate space between a curb and a sidewalk to properly plant a street tree, the City forester with property owner agreement, select and plant a tree(s) between the street and house. Upon planting, the property owner shall then accept all ownership and all future maintenance of the tree(s).

All street trees hereafter planted shall be spaced not less than twenty-five (25) feet apart except that a tree planted for the purpose of future replacement of an existing declining tree may be planted less than twenty-five (25) feet from the declining tree. The actual spacing, location and alignment of street trees shall be determined by the City Forester based on the mature size of the species to be planted and the specific site limitations.

The City of Nekoosa maintains a list of prohibited tree species. These shall not be planted along public areas.

Pruning

All pruning of public trees and shrubs shall conform with the standards set forth in ANSI A300 Standards for Tree Care Operations parts 1-10 or the most recent version thereof.

Removal

Trees that are removed under this Chapter shall be completely removed from the growing site and disposed of in the proper manner. Any person or firm engaged in the removal of any public tree or shrub shall have the necessary limits of insurance and shall be held liable for any injury or damage to persons or property.

Stumps and roots which elevate sidewalks and/or boulevards shall be removed from the growing site by grinding or other means to a depth suitable for the future planting of trees, shrubs, or turf. The hole created by removal of a stump shall be filled to the level of surrounding grade with mineral topsoil, tamped to prevent settling and seeded with mixture of grass species appropriate for the site.

Spraying, injecting, fertilizing, bracing, cabling or other arboricultural operations or treatments shall be performed in a neat and professional manner according to accepted arboricultural standards and in compliance with all laws governing the use of pesticides.

TREE PROTECTION DURING CONSTRUCTION IN PUBLIC AREA

Definitions as used in this section, the following terms shall have the meanings indicated:

Construction The installation, alteration, repair, replacement or relocation of any of the following:

Any street, curb, sidewalk, trail, pavement, streetlight, traffic signal or other surface structure.

Any underground utility distribution and service facility, including water pipe, sanitary and storm sewer, gas pipeline, electric power and communication wire, cable, conduit, duct and associated vaults, manholes, pull boxes; and any irrigation facilities.

Any overhead wire, cable and associated support structure.

Public Tree as defined in this chapter shall be extended to include any tree located on private property adjacent to a public area, with any part of the tree protection zone of such tree extending into the public area. 11

Permit required. No individual person, firm, partnership, association, corporation or government entity, except as provided in this ordinance, shall do or cause to be done, any construction as herein defined, within the tree protection zone of any public tree in the City prior to issuance by the City Forester of a valid Right of Way/Easement Permit.

Permit application; plan review; approval. Any person proposing to do construction work in the tree protection zone of a public tree shall apply in writing to the City Forester for a permit to do such work. Such an application shall specify the location and description of the proposed work, and the estimated start and completion dates. A complete copy of the construction plans shall be provided along with said application. If, upon review of the construction plans and any supplemental information provided by the applicant, the City Forester determines that the work is necessary and can reasonably be expected to progress in compliance with all forestry specifications and conditions, he/she shall issue the permit.

Permit form; expiration; compliance; inspection. Permits shall be issued by the City Forester and shall specify the forestry specifications and any special conditions or requirements to be satisfied in

connection with the work. Permits issued under this section shall specify an expiration date not to exceed 6 months after the date of issuance. The City Forester shall inspect the work in progress on a regular basis to ensure compliance with the terms of the permit.

Permit exemption. No permit shall be required for construction proposed by any department or division of City government; however, all other provisions of this section shall apply. Any contract entered into between any City department or division and a contractor for hire shall adhere to this ordinance. Any City employee performing construction work under this subsection shall also comply with the provisions of this ordinance.

COST OF PLANTING, REMOVAL, MAINTENANCE AND PROTECTION OF PUBLIC TREES AND SHRUBS

The entire cost of planting, removal, maintenance, and protection of trees and shrubs in all public areas of the City when performed by department employees or their contractors at the direction of the City Forester shall be borne by the City out of the department budgets, or from funds donated or otherwise acquired for this purpose. When a private party other than the City plants, removes, maintains, or protects public trees or shrubs pursuant to this ordinance, said party shall incur all expenses connected therewith.

VIOLATIONS AND PENALTIES

Any person who violates this chapter shall, upon conviction, be subject to the forfeiture amount in the Forfeiture Schedule of the City of Nekoosa §1-16. In addition, if as a result of the violation of any provisions of this chapter, the injury, mutilation or death of a tree, shrub or other plant located on City property is caused, the cost of repair or replacement of such tree, shrub or other plant shall be borne by the party in violation. The replacement value of trees and shrubs shall be determined in accordance with the most recent edition of A Guide to Plant Appraisal by the International Society of Arboriculture.

APPEALS

A person who receives an order from the City Forester and objects to all or part thereof may, within 10 days of receipt of order, notify the City Forester in writing of the nature of the objection and request to be placed on the agenda of the next scheduled Public Works Board meeting. The Public Works Board may elect to schedule a meeting sooner than the next scheduled meeting if it deems necessary. The Public Works Board may affirm, cancel, or modify the order, in its discretion, to best conform such order to the intent of this chapter. The decision of the Public Works Board shall become final after it is reviewed by the City Council.

SEVERABILITY

If any section, subsection, sentence, clause or phrase of this chapter is for any reason held to be invalid or unconstitutional by reason of any decision of any court of competent jurisdiction, such decision will not affect the validity of any other section, subsection, sentence, clause, phrase or portion thereof irrespective of the fact that any one or more sections, subsections, sentences, clauses, phrases or portions thereof may be declared invalid or unconstitutional.

Interference Prohibited. No person shall interfere with the City Forester or his/her authorized representative while engaged in the execution or enforcement of this ordinance.
