Re: 2nd Street Reconstruction
Vierbicher Project No. 250054
Nekoosa, WI
Bid Results & Notice of Award

Dear Rick:

We have reviewed the bids received on March 28, 2025, for the above-referenced project. Five (5) bids were received. The bids ranged in price from \$389,903.20 to \$678,098.50. Precision Grading Utilities, Inc was the low bidder. A tabulation of all bids received is attached.

The bid submitted by Precision Grading Utilities, Inc meets the requirements of the bidding documents and is therefore considered responsive. We therefore recommend acceptance of the bid submitted by Precision Grading Utilities, Inc.

Attached, please find the Notice of Award for the above referenced project. Once the contract has been awarded by the City of Nekoosa, please have the Notice of Award signed, then scan and email to our attention. We will then forward the documents onto the Contractor for execution.

If you have any questions, please let us know.

Sincerely,

Gary Blazek, PE

Enclosures Notice of Award

SECTION 00 51 00
NOTICE OF AWARD

Date: April 8, 2025

Project: 2nd Street Reconstruction

Owner: City of Nekoosa

Engineer's Project No.: 250054

Bidder: Precision Grading & Utilities, Inc.

Bidder's Address: PO Box 79, Port Edwards, WI 54469-0079

You are notified that your Bid dated March 28, 2025 for the above Contract has been considered. You are the Successful Bidder and are awarded a Contract for

street and utility construction on 2nd Street including excavation, sanitary sewer, water main, base course, curb & gutter, sidewalk, and restoration of the work area, and other miscellaneous items in conformance with the Contract Documents.

The Contract Price of your Contract is Three hundred eighty-nine thousand, nine hundred three dollars and 20/100 (\$389,903.20).

3 copies of the proposed Contract Documents (except Drawings) accompany this Notice of Award.

3 sets of the Drawings will be delivered separately or otherwise made available to you immediately.

You must comply with the following conditions precedent within 10 days of the date you receive this Notice of Award.

1. Deliver to the Owner 3 fully executed counterparts of the Contract Documents.
2. Deliver with the executed Contract Documents the Contract security [Bonds] as specified in the Instructions to Bidders (Article 20), General Conditions (Paragraph 5.01), and Supplementary Conditions (Paragraph SC-5.01).
3. Other conditions precedent:
Insurance Certificates as indicated by the General Conditions (Paragraph 5.03)

Failure to comply with these conditions within the time specified will entitle Owner to consider you in default, annul this Notice of Award, and declare your Bid security forfeited.

Within ten days after you comply with the above conditions, Owner will return to you one fully executed counterpart of the Contract Documents.

City of Nekoosa

Nekoosa WWTP Heaters

E-Con Electric Inc. is pleased to submit a proposal for the project(s) listed below.

Scope:

1. Supply and install (2) 3KW 240v single phase explosion proof heaters. Included with the heaters are new ceiling mount brackets, internal disconnect and integral thermostat. All wiring and conduit to heater to stay as is.
2. Demo and remove existing heaters. Dispose of heaters or turn them over to owner, whichever owner prefers.
3. Start-up and testing assistance with owner.
4. Tools, taxes, and insurance.

Exclusions:

1. All material pricing is valid for 15 calendar days from the date of this proposal.
2. Premium time is not included in this proposal.

Total Project Cost: \$16,410.00

Thank you for the opportunity to submit this proposal, your business is truly appreciated. I can be reached at 715-697-3509 or e-mail at schollz@econelectric.com with any questions you may have.

Sincerely

Beige

- › Corrosion-resistant constructions suitable for most applications
 - Welded steel heat exchanger with powder-coated cabinet for dry, non-corrosive areas includes
 - 316 stainless steel for waste water treatment plants
 - Heresite® coating for chemical plants with chlorides
 - IP55 motor and type 4 outdoor rated enclosure for wet locations—meets UL 1004-1 raintight requirements
- › Industry's lowest ignition temperature code rating, T3C, 320°F (160°C)
- › Automatic and manual reset overtemperature cutouts
- › Low 70 PSIG relief valve setting—in an emergency, the initial escaping vapor is below the ignition temperature

Standard Construction Features:

- › Industrial grade, corrosion resistant cabinet/louvers fabricated from beige powder coated 14-gauge galvanized steel with minimum opening safety stops
- › Industrial grade heating elements are treated, to provide freeze protection as low as -49°F (-45°C)
- › The prewired fan motor assembly has double-shielded, permanently lubricated ball bearings and automatic reset line breaking thermal overload protection—separate field wiring to the motor is not required
- › Factory built-in controls include overtemperature cutouts, controlling magnetic contactor, and 24-volt control circuit transformer housed in a NEMA 7, 9 cast aluminum enclosure

COMMISSIONER

DATE: January 13, 2025

TO: Towns, Cities, and Villages

FROM: Wood County Highway Department / John Peckham,
Accounting Supervisor

SUBJECT: Road and Bridge Aid Programs

Cemetery

This packet contains information and forms regarding the Highway Department's Road and Bridge Aid Programs. Please read them over carefully to get an understanding of these programs as they are quite different from each other.

Along with the program descriptions, you will find petitions. In order to participate in the programs, these petitions are required to be on file in the Highway Department office. Due date for the petitions is July 1st.

It is advised that the municipality send in the Road Aid Petition each year in order to have the County Portion set aside. You would only send in the Bridge Aid Petition if you have a qualifying project in mind for the current or following year.

I've enclosed a summary of the amount you have available in the Road Aid Program. If you have any questions on the amounts or about the programs themselves, please send me an e-mail (john.peckham@woodcountywi.gov) or call me at 715-421-8875.

Thank you for your time in this matter.

There is confusion in the use of terms like improvement, construction, maintenance, etc. These terms have legal implications as they relate to town road standards, completion of state cost reports, etc. Therefore, we will avoid the use of these terms. We will adopt general wording for use specifically for our Road Aid Program. The following terminology and definitions will be used:

ELIGIBLE WORK UNDER THE ROAD AID PROGRAM WOULD INCLUDE THE FOLLOWING:

This work will preserve or upgrade roadway facilities resulting in additional life exceeding four years, increase load or traffic volume capacities, or improved safety and traffic operations.

1. Sealcoating – chip seal, slurry seal over paved or gravel surfaces.
2. Overlays – thin overlays (less than 2 inches) for preservation; thick overlays for structural strengthening.
3. Recycling – milling or scarifying surfacing for new base course; cold and hot recycling, and concrete recycling.
4. Reconstruction – strengthening base, patching, and repair as a part of base improvement, final surfacing, major ditching and drainage improvement (including culvert replacement as part of a construction project), localized grading and reconstruction for improvement of alignment, hills and curves, and intersections.
5. New construction – grading, base, and possible surfacing on new alignment, total reconstruction of existing roadway.
6. Shouldering – widening or rebuilding shoulders, addition of shoulder material required as a part of reconstruction or overlay, described above.
7. Drainage – major ditch restructuring.
8. Regraveling – addition of crushed rock to gravel on existing or new un-surfaced road for strengthening and rebuilding roadway (minimum nominal thickness of three inches).
9. Engineering – survey, design, construction administration for reconstruction and new construction.

NON-ELIGIBLE FOR THE ROAD AID PROGRAM WILL INCLUDE THE FOLLOWING:

1. Routine maintenance – ongoing activities repeated on daily or monthly basis.
2. Crackfilling or sealing.
3. Roadside maintenance - including brushing, tree removal, mowing, or spraying.
4. Minor shoulder graveling.
5. Patching and small repairs.
6. Routine grading, ditching, or dust control on un-surfaced roads.
7. Housekeeping items such as cleaning, litter pick-up, opening drains, individual sign replacement, culvert clearing, minor ditching.
8. Winter maintenance: plowing, salting, sanding, or snow loading.
9. Building and equipment maintenance and repair.
10. Miscellaneous: Including administration, supervision, routine patrolling, or general overhead, not associated with acceptable work items.
11. Culvert work as a stand-alone project.
12. Matching other state or federal programs.
