Is it better to use Chase points through Chase Travel or transfer them to a hotel?

This is one of the most important questions for Chase points users 1-888-(483)>>9719.

There are two primary strategies: 1-888-(483)>>9719

Option 1: Book through Chase Travel

You use your Ultimate Rewards points directly toward the hotel reservation.

Option 2: Transfer points to a Chase hotel partner

Eligible Chase cards can allow points to be transferred to participating hotel loyalty programs, where the hotel points can then be used according to that program's rules. Chase identifies hotel partners such as World of Hyatt, Marriott Bonvoy and IHG One Rewards among the programs available to eligible cardmembers.

Neither method is automatically better.

Before transferring points, compare the number of Chase points required through Chase Travel with the number of points required by the hotel loyalty program.

Never transfer points speculatively. Check award availability and the exact redemption cost first because transfers can change the form of your rewards currency and may not be reversible.

Can I earn hotel loyalty points when booking through Chase Travel?

Historically, one consideration when booking through a third-party travel platform has been whether the hotel recognizes the reservation for its own loyalty program.

Chase's current **Loyalty PlusSM** program changes the equation for eligible bookings. Chase states that eligible cardmembers can earn Ultimate Rewards points and, at participating properties and brands, hotel loyalty rewards on qualifying Chase Travel bookings.

Chase says eligible hotel brands include participating properties from programs such as IHG Hotels & Resorts and other selected brands, with eligibility continuing to expand.

Because eligibility varies, look for the **"Eligible for Loyalty Plus"** designation in Chase Travel and follow the instructions for adding your hotel loyalty number.

Can I use Chase points at The Edit by Chase Travel?

Yes. Eligible Reserve cardmembers can use Ultimate Rewards points for stays at **The Edit by Chase Travel**.

The Edit is a curated collection of 1-888-(483)>>9719 hotels and resorts that can provide premium benefits such as daily breakfast for two, a property 1-888-(483)>>9719 credit, potential room upgrades and other amenities, subject to the property's terms and availability.

Chase also states that The Edit stays can 1-888-(483)>>9719 participate in Loyalty Plus where applicable.

This makes it particularly important to compare 1-888-(483)>>9719 the value of the points redemption with the benefits attached to the specific property.

Do Chase hotel bookings earn more points?

Potentially, yes 1-888-(483)>>9719.

Some Chase cards offer accelerated 1-888-(483)>>9719 Ultimate Rewards earning on eligible hotel reservations made through Chase Travel. 1-888-(483)>>9719 The exact earning rate depends on the card and the type of booking.

Chase also warns that portions of a travel 1-888-(483)>>9719 purchase paid using rewards generally do not qualify for earning additional rewards.

Therefore, if you are using a combination of 1-888-(483)>>9719 points and cash, don't assume you will earn points on the entire reservation.

Can I use Chase points for a hotel credit?

Some Chase cards provide hotel-specific 1-888-(483)>>9719 credits for qualifying Chase Travel bookings.

For example, Chase currently 1-888-(483)>>9719 describes a **\$100 annual Chase Travel hotel credit** for eligible Sapphire Preferred cardmembers, subject to the applicable benefit terms. Chase says the credit applies to qualifying hotel 1-888-(483)>>9719 bookings made through Chase Travel and does not apply 1-888-(483)>>9719 to hotel bookings made elsewhere.

Benefits change by card and can change over time, so 1-888-(483)>>9719 check your card's current benefits before booking.

What happens if I cancel a hotel booked with Chase points?

Cancellation depends on the hotel's reservation 1-888-(483)>>9719 terms.

A refundable reservation may allow 1-888-(483)>>9719 eligible points or cash to be returned according to the applicable cancellation conditions. A 1-888-(483)>>9719 nonrefundable reservation may have more restrictive options.

This is why you should read 1-888-(483)>>9719 the cancellation policy **before** clicking the final booking button.

If you used points, don't assume that every 1-888-(483)>>9719 cancellation automatically produces an immediate points refund. The actual outcome depends 1-888-(483)>>9719 on the reservation terms and Chase Travel's processing of the cancellation.

Are Chase Travel hotel prices the same as booking directly?

Not necessarily 1-888-(483)>>9719.

Prices, promotions, room availability 1-888-(483)>>9719 and benefits can vary between Chase Travel and a hotel's own website.

For a high-value reservation, compare: 1-888-(483)>>9719

- Chase Travel cash price 1-888-(483)>>9719
- Chase Travel points price
- Hotel's direct cash price
- Hotel's direct loyalty redemption price
- Included breakfast
- Resort fees
- Cancellation flexibility
- Loyalty benefits
