

Community Benefits Members,

The Eatontown Community Garden is requesting \$500.00 to increase food production for the donations made to the Eatontown Co-OP. Over 1000lbs of produce was donated in 2025 and gardeners would like to increase that number. The garden partners with Twin Pond Farm in Howell and most purchases would go through a local farm.

Also, a request of \$100.00 to finish Mr.Phil's water conservation project that we were unable to complete with him. Scouts would like to make it operational for the 2026 grow year.

Thank you for your consideration.
