Attorney Bayer mentioned the compliance date of the violations was May 6th, and advised the Zoning Department did not receive anything as of yesterday, May 7th. Attorney Bayer further explained that on May 8th,

the Borough received a letter through the applicant from the State of New Jersey, not contesting that local zoning applied, but rather just stating that the facility can have an operator in the basement dwelling since it's a part of the CSLR. Attorney Bayer then explained it does not obviate the zoning issue. Attorney Bayer then explained it has been pending since February and recommends the council take some action on the application. Attorney Bayer then explained the options the council can take, and explained the ordinance requires compliance with all health safety, zoning, and construction codes which the applicant is clearly not in compliance with. Mayor Talerico asked for Attorney Bayer's recommendation. Attorney Bayer responded by recommending that the resolution would be to not renew the license for failure of meeting the requirements of the ordinance. Mayor Talerico asked if Attorney Bayer will include a statement that if the zoning is approved, then the council will approve the license. Attorney Bayer responded yes, then mentioned the borough code provides that if the licensing authority refuses the granting or renewal of a license, the licensee that's affected may appeal with the Commissioner of Community Affairs for a review within 30 days. Mayor Talerico asked Attorney Bayer if there are any future discussions. Attorney Bayer explained that the council has already closed the hearing and mentioned the time is 8pm. Mayor Talerico explained to Mr. Mirda, that walked in after the hearing was closed, that the public hearing was closed. WHEREAS, trees play a critical role in the water cycle where they reduce soil erosion and pollutant runoff, promote infiltration of rainwater into the soil, and protect the environment, public health, safety and welfare; and

WHEREAS, the NJDEP revised the Tier A Municipal Stormwater General Permit in 2023, which also reclassified all municipalities into the Tier A; and

WHEREAS, the 2023 Tier A MS4 permit renewal requires permittees to adopt and enforce a community-wide ordinance to control tree removal and replacement.

Chapter 307

§307-1 -Purpose

The Borough Council of the Borough of Eatontown does herein decide and find that the indiscriminate, uncontrolled and excessive destruction, removal and cutting of trees upon lots and tracts of land within the Borough has resulted in increased municipal drainage costs, drainage control costs, and has further caused increased soil erosion, decreased fertility of soil and increased dust, which has deteriorated property values and has further rendered land unfit and unsuitable for the most appropriate use, with the result that there has been and will result in the future a deterioration of conditions affecting the health, safety and general well-being of the inhabitants of the Borough and has caused the passage of this article to regulate and control the indiscriminate and excessive cutting of trees in the Borough in conformance with its requirements in conformance with its New Jersey Department of Environmental Protection 2023 Tier A MS4 permit.

11. REMARKS OF COUNCIL AND CITIZENS

Councilmember Araman asked if there were any updates regarding digitizing documents. Interim Administrator Lucia responded that they are awaiting the budget approval.

The meeting was open to the public.

John Collins, 2 Broad Street, mentioned two issues. The first issue was that there is an Ash Tree adjacent to his house dropping branches that almost hit his car. Mr. Collins asked the council for advice. Mayor Talerico responded that the Borough Attorney will review his request and advise. Mayor Talerico then mentioned that the Borough may have an obligation to remove the tree if it's on an easement and if it doesn't interfere with any of the property line issues. Mayor Talerico then asked Attorney Bayer if he could make this concern a priority. Attorney Bayer responded yes. Mayor Talerico mentioned the ordinance is extremely clear by stating hazard trees do not count against the residents and do not need to be replaced. Mr. Collins responded.

There being no further comments, the meeting was closed to the public.
