In attendance: Les Coon, Robina Ward, Bart Ziegler, Mike Dvorchak

1. Report from the Plant (Les)
    1. Things are good. The installation is done, and space heaters have been set up. Thanks to Victor for the great job on the installation.

2. Lids to order - use another supplier? We have a lid at Town Hall.

3. Safety Equipment - to be purchased in 2027

4. Pump Schedule – Robina
    1. Need to schedule grease traps, Town Hall, and Neighbors.

5. Pumping out of Main Facility - 3rd Week in November.

    1. Baldwin is coordinating with Les for a pump-out. Sometime in the next two weeks. Tentative date: November 23rd. We will need a pump to fill the frac tank. Mike is checking with the Highway Department first before chasing.

6. 47 Coldwater Freezing Issue – still waiting to see the efficacy of the heat tape.

7. Wi-Fi Alarms – waiting on Red Hook trial. Les will keep us posted.

8. Old Tank Rerouting –

9. Pipe Detection - Coldwater Street for signage
    1. Les has talked to Richard, and the signage placement is OK from the sewer lines.

10. Design Grant (we did not receive)

11. Need to fix the thermistor. Les did turn the heater on today just in case.
