

## **SEWER COMMITTEE**

**December 12, 2024**

**4PM**

**In attendance: Irwin Feld, Mike Dvorchak, Steve Bluestone, Bill Sullivan, Les Coon (via video)**

### **Issue at Sewer Plant**

Testing is giving us a picture of how the plant is running. Ammonia and nitrates among others are being tested and we are gaining a clearer picture of what is happening at the plant. Testing is still ongoing and Tim Moot & George Schmitt from CPL will be joining the Town Board Meeting on 1/14/25 to give the Board and the public a better understanding of the situation and how to move forward.

Les mentioned that he is keeping track of the flow volume and will bring the data to the Town Board meeting. He did not see a significant increase during the heavy rains of the previous days.

Mike reported that the Town is moving forward with the purchase of new fabrics and control panel as part of the CREST Grant. These items will go a long way to rehabilitate our system.

The issue of funds in the sewer account came up. Les recommended a steady, slow increase in rates as opposed to a periodic large raise.
