

Attending: Dvorchak, Ward, Schmitt, Bluestone, Coon, Ziegler (for infrastructure)

SEWER:

1. Update from Les on operations
 1. Seeing a lot of flow – 26.4 gallons a minute
 1. 242 Anthony Street – Les visited, Baldwin is pumping so that H2O can clean out. Les could hear an inflow into the tank.
 1. Lee to inspect the Ice Pond Apartment pump and report back
 2. Reprogramming of panel - Les to detail and send to Julie B.
 1. Les has talked to Orenco, who needs to set up 3 pods and 2 dosing pumps
 2. Can we increase the size of the pumps? Les to investigate.
 3. Can the panel act as simplex and duplex?
 4. Les will write an email on what needs to happen during the reprogramming.
 3. 47 Coldwater Street
 1. Les stopped in last week. The pipes are unfrozen.
 2. We need to find buried depth and remediate. We will continue to discuss.
 4. Baffles for Tanks
 1. George and Les discussed different possibilities. Need to hold back the solids from the new leach fields. To be continued.
-
1. Primary settling tank needs to be pumped – Baldwin on notice.
 6. Final Documentation of Rehab project from DEC
 1. George needs to review before sending it to DEC.

INFRASTRUCTURE

1. Hamlet Park
 1. Bandshell - going out to bid
 1. We are hoping to go out to bid shortly
 2. Robina to investigate state- approved distributors, George to send websites to research.
 2. Fast Chargers - going out to bid
 1. NYSERDA Paperwork due 6/30/26
 2. George is working on the proposal
 3. We should reach out to Copake for the make and model they use
2. Light Poles – Status
 1. George to follow up with MacGreggor Construction
 2. Are the lights dimmable?
3. Anthony Street
 1. Application for Grant is due today. – Justin will submit.
