

MEETING NOTES

JULY 9, 2026

Attendance: Mike Dvorchak, Nico Hernandez, Robina Ward, Steve Bluestone

SEWER:

Les reported that things are status quo at the plant. He is waiting for an update on the programming of the panel.

Cleaning of Tank at Plant - scheduled for June 28

Dan from Baldwin will be performing the cleaning. Les will try to be there also to oversee.

Dosing over all the pods has improved the water quality. Les suggests a quarterly schedule for grease trap cleaning.

Baffles

We need to run the concept by Jamie at the DEC. We will send the concept drawing that George provided.

Grease Traps – Robina to schedule cleaning.

Schedule of cleaning tanks

Robina has a schedule of tanks that we will rotate for cleaning. The three properties next to Town Hall will be cleaned next.

Reprogramming of panel – update

Robina is contacting Orenco to reprogram the panel

Passiflora – the alarms were going off.

Passiflora is currently dismantled. We will contact the owners to clear out the brush surrounding the panel.

47 Coldwater – freezing issues.

Les reported that Red Hook is trying heat tape and we should wait to see it works.

DEC Grant – pending

New Safety Regulations – Robina is ordering safety harnesses for tank inspection.

INFRASTRUCTURE

Attendance: Mike Dvorchak, Bart Ziegler, Robina Ward, Steve Bluestone

Bandshell

We need to create an RFP for the cement work for the bandshell. Bart will work with Mike to create

Flagpole – Mike to talk to Tucker and follow up with Bill Sullivan.

North entrance sign – Irwin is working on this. Mike will get the status

Hamlet Park

Plantings – we have settled on Arrowood Viburnum. Bart will measure the distance and work on ordering the plants.
