VILLAGE OF HORTONVILLE
MINUTES OF THE PUBLIC WORKS COMMITTEE
June 18, 2026, 5:00 P.M.
Municipal Service Center
531 N Nash St.

MEETING MINUTES

Chairperson Jim Moeller called the meeting to order at 4:59 p.m. in the Community Center at 531 N. Nash St., Hortonville, Wisconsin.
Members present: President Jeanne Bellile, Trustees Jim Moeller, Julie Arendt Vanden Heuvel, Dalton Davis, and Therese Abitz
Members excused:
Officials/Staff present: Administrator Nathan Treadwell, Director of Public Works Aaron Steber and Utility Clerk Kaytlin Hooyman

1. Call to Order

2. Preregistered Citizens to be heard. – LIMIT 5 MINUTES
   A. State name and address
   B. Comments to be limited to 5 minutes
   C. Pursuant to WI Statutes 19.83(2) and 19.84(2), The Board's role is to listen to public comments, and not to ask questions, discuss, or take action regarding pre-registered citizens' comments.

3. Approval of 3-5-26 minutes Public Works Meeting Minutes
   a. Trustee Arendt Vanden Heuvel asked to change wench to wrench
   b. Motion Trustee Moeller & Trustee Arendt Vanden Heuvel to approve March 5, 2026, minutes. Unanimous voice vote motion carried.

4. Discussion on Snow Removal Operations
   a. Trustee Arendt Vanden Heuvel requested that they update everyone since the board had acquired new members since March 2026. Trustee Moeller stated that we would have the trail and Administrator Treadwell stated that it would be an excellent opportunity to test our equipment. Trustee Arendt Vanden Heuvel stated that Veteran's Park is included as well. Administrator Treadwell agreed but defined that it was not a large part of the Veteran's Park. Trustee Arendt Vanden Heuvel asked what the priority of snow removal was. Director of Public Works Steber answered with downtown being the priority with the trail being the second. Trustee Moeller inquired that it was about 40-50 ft stretch and is questioning if it is warranted to buy for such a short stretch. Trustee Arendt Vanden Heuvel pointed out that the equipment would have multiple uses and moved the conversation to looking at the snow removal processes of surrounding municipalities such as Greenville. She would like Hortonville to put in place a snow removal policy in the future as well. Director Steber stated that with the East side of town being pushed back with construction timelines, we can table this and wait until 2027 budget. Trustee Arendt Vanden Heuvel asked about a gator versus a UTV, and which would have more uses. Public Works Employee Hunter Gruenwald informed everyone that they currently hand salt and time is getting to be a concern. If they had a gator, it would have the attachment option of a larger salter.

Trustee Arendt Vanden Heuvel added that a gator would be safer as well than what is currently being used and hand salting. Hunter Gruenwald agreed, adding that gator's have better lighting. Trustee Arendt Vanden Heuvel asked where the money for this purchase was coming from again and Director Steber stated that $60,000 was dedicated from the Public Works for this year 2026.

5. Discussion on Public Works 2006 F150
    a. Director of Public Works Steber started out by saying that they received an additional quote for the truck and it costs roughly the same amount as the previous quote to fix the transmission. This has moved up in priority as if an additional truck broke down the Public Works Department would be in trouble equipment wise. He went on to state that the sale of the 2006 Ford and bucket truck would assist in the purchase of a new vehicle with a new plow. This would help the Public Works Department be more efficient as we are down to 2 trucks with 7 guys. The new truck would also assist with locates and we could get rid of other equipment that is no longer needed. Eventually a lift trailer would be a good purchase as well. Trustee Arendt Vanden Heuvel asked if the last truck purchase was that of a Dodge. Public Works Employee Hunter Gruenwald stated that the quote they received was for a Dodge due to it being historically easier to fix and maintain. Trustee Arendt Vanden Heuvel asked why the quote was for a red Dodge to which Hunter Gruenwald replied that was just for image purposes and a different color is available in stock. Trustee Moeller asked if we could get multiple quotes instead of just the one for the Dodge. Trustee Arendt Vanden Heuvel also asked for a quote on a white vehicle for identification purchase as the Village could stay uniform. Trustee Moeller asked about the benefits of a UTV versus a new F150 versus a new Chevy Silverado. Plows exist for light duty trucks as well. Administrator Treadwell pointed out that Public Works would not be taking a vehicle down the sidewalks of Main Street. Trustee Moeller questioned the size of an UTV versus a vehicle as they are similar in widths. He also questioned whether this would leave the Public Works Employees still having to hand salt multiple locations. Director Steber stated that they would be salting with the gator. Trustee Arendt Vanden Heuvel asked for additional quotes besides the single quote on the Dodge. Hunter Gruenwald replied that he would take care of that request. Trustee Arendt Vanden Heuvel questioned how the spreadsheet worked that they were pulling the vehicle information from. Administrator Treadwell stated that it is a spreadsheet that lists all vehicles available for purchase. Trustee Moeller asked again about a lighter truck than an F150 or Dodge. Director Steber reminded everyone that we need a plow, reason being if we are down to one truck with a plow this would cause a huge workload. Trustee Arendt Vanden Heuvel asked for access to the spreadsheet to view it herself. Director Steber said he would send it over. Administrator Treadwell advised that they followed the same process as they did for the Police Department. President Bellile asked if we currently use all the trucks we already have in inventory. Trustee Moeller added in asking if we utilize them everyday as well. Hunter Gruenwald informed both that all current vehicles in inventory are used daily except the old squad car, as it is left up by the Municipal Building for Administration use and the bucket truck. We in fact have one employee without a truck. Trustee Arendt Vanden Heuvel stated that the bucket truck is in fact unsafe as well. Trustee Davis inquired about how many plows we currently have in inventory and Director Steber stated that we currently have two. Trustee Moeller asked what time frame in hours it currently

takes the Public Works to plow now, Hunter Gruenwald said 4-5 hours. Trustee Abitz stated that in the past business owners on Main Street have shoveled their section of the sidewalk and salted as well. Trustee Arendt Vanden Heuvel questioned if she was suggesting that business owners do their own shoveling and salting by a designated time. Administrator Treadwell said that we are unable to set a designated time due to when businesses have their opening hours set. Trustee Arendt Vanden Heuvel asked which option was easier for everyone, business owners or Public Works Employees? Hunter Gruenwald stated that our current process is a good process but that they currently clear the areas early to avoid traffic abundance. Trustee Abitz stated that business owners still are taking care of it and inquired about having salt buckets placed on Main Street and Hunter Gruenwald reminded that the salt clumps when left out. Trustee Abitz asked if when the construction is finished if the sidewalks would be scraped better. Hunter Gruenwald replied with hopes of improvement. Trustee Arendt Vanden Heuvel stated that she would like DPW Employees to continue to take care of snow removal. Trustee Abitz asked if DPW Employees would be circling back if business owners chose to shovel after Main Street had been cleared the first time as it is not being completed as good as it has been in the past requiring business owners to shovel after DPW Employees. Director Steber informed everyone that we have had warm winters which cause freezing then thawing and refreezing making it difficult for DPW Employees to scrape down to the sidewalk entirely. President Bellile encouraged to make it through this winter and hopefully next will be better with the new construction completion. Trustee Arendt Vanden Heuvel added that we can learn from this next year and downtown as well. Administrator Treadwell also added saying that different types of snowfall require different efforts of clean-up. Trustee Moeller switched the topic and stated that all the information was confusing and he would like to see additional quotes requesting that vehicles be grouped by use or by season. Trustee Arendt Vanden Heuvel reminded that all the data was there but that it may just be in a different format and suggested that it could be sent digitally so Trustee Moeller could alter it to fit his personal needs. Director Steber asked if everyone was in favor of selling the surplus and the bucket truck as well. Trustee Arendt Vanden Heuvel stated if it was not posted to Facebook on a personal page due to it causing confusion in the Village. Trustee Davis inquired if the bucket truck was worth fixing and Administrator Treadwell stated that it had been fixed multiple times and it is now past repair with cost effectiveness. Trustee Arendt Vanden Heuvel also added that it has been on the repair list for over 10 years and has been red tagged for some time now. Trustee Arendt Vanden Heuvel then started to wrap up the conversation by requesting a snow removal policy. Trustee Abitz asked if we could just photocopy Greenville's and Trustee Arendt Vanden Heuvel stated no but that it was a great starting point.

6. <u>Discussion on Public Works/Utility Truck Replacement</u>
    a. Included in the above conversation

7. <u>Discussion on purchase of Trail Snow Removal Equipment</u>
    a. Included in the above conversation

8. <u>Any other topics for future discussion</u>
    a. May revisit all topics discussed above

b. Trustee Arendt Vanden Heuvel asked to discuss a potential snow removal process

9. Comments and suggestions from citizens present
    a. Public Works Employee Hunter Gruenwald added that a bigger truck would help support a larger salter as well if need be. Trustee Moeller stated that he was not opposed to any of the discussion but that he would rather have some time to better understand everything. Administrator Treadwell offered the opportunity for anyone to tour/visit the Public Works Department/Water Treatment Plant for further understanding and use/view of all equipment in inventory. Administrator Treadwell further encouraged everyone to take the time to tour/visit at least once. If interested, reach out to Director of Public Works Steber to set up a time.

10. Adjourn
    a. Motion Trustee Davis & Trustee Arendt Vanden Heuvel to adjourn. Unanimous voice vote, motion carried. The Public Works Committee adjourned at 5:50 p.m.

Minutes Submitted by,

Kaytlin Hooyman
Public Works Clerk

Village of Hortonville | Public Works Department

IMPORTANT INFORMATION

Caring for Your New Concrete Sidewalk This Winter

Dear Property Owner,

The Village of Hortonville recently completed concrete sidewalk improvements in your neighborhood. To help protect your new sidewalk during its first winter, please follow the recommendations below. Proper care will help prevent damage and extend the life of your investment.

1. Snow Removal Recommendations

- Use a plastic shovel whenever possible.
- Avoid metal shovel edges, snow blowers, and sharp ice choppers.
- Remove snow promptly before it turns to ice.
- Use care with snowblowers and other equipment.

2. Deicing Products – Please Use Caution

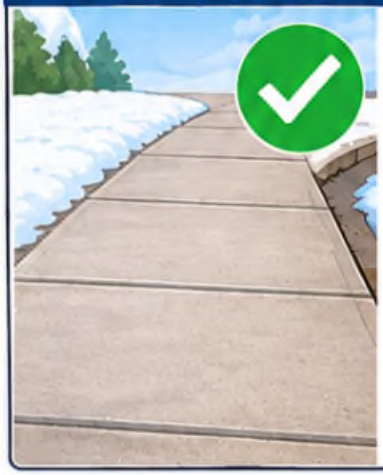

- Avoid using sodium chloride (rock salt) during the first winter.
- Avoid calcium chloride and other aggressive deicers.
- CMA is a preferred alternative if a chemical deicer is necessary.
- Sand may be used for traction.

3. Preventing Surface Damage

- Do not allow large amounts of snow, ice, or standing water to accumulate.
- Avoid piling snow that contains road salt or other chemicals onto your new sidewalk.
- Do not park vehicles or heavy equipment on the sidewalk.

4. What to Expect During the First Winter

- Some minor color variations and hairline cracks can occur in new concrete.
- Avoiding excessive deicing chemicals and promptly removing snow will help minimize surface deterioration, scaling and cracking.

Thank You for Your Cooperation

The Village appreciates your help in protecting the newly installed sidewalks. Proper winter maintenance is important to ensure these improvements remain safe, attractive, and serviceable for many years.

If you have questions regarding sidewalk maintenance, please contact the Village of Hortonville Public Works Department at (920-779-6011.

Read this contract before you sign it.

- You are entitled to an exact and completely filled in copy of this contract. Keep it to protect your rights.
- Purchaser acknowledges receipt of a fully completed copy of this contract and purchaser waives notice of the acceptance or rejection of this order by the seller.
- Seller and Manufacturer make no representations or warranties express including the implied Warranties or merchantability except as provided.
- In the event of dealer's price is changed prior to delivery, the purchase price shall be adjusted accordingly. If such price change results in an increase, purchaser has the option of canceling this order in writing immediately on being notified thereof.
- Purchaser hereby bargains, sells and conveys unto Seller the above described Trade-in Equipment and warrants and certifies it to be free and clear of liens, encumbrance, and security interest, except to the extent shown on this Purchase Order.
- Used Equipment covered by this Purchase Order is sold AS IS, WHERE IS, with no representations or warranties, unless otherwise specified in writing.
- This deal is null and void if any or all of the following deviations exist related to unit being traded in; (1) Substantial changes in use (> than 100 hours from agreement date) or (2) Equipment is not as represented by customer at time of agreement date or as originally evaluated by Service Motor Company.

Description ** Q U O T E ** EXPIRY DATE: 11/30/2026 Amount

WARRANTY TERMS & CONDITIONS
This is an overview of warranty & conditions provided with the purchase of the equipment. For details regarding the warranty on your machine, please refer to the manufacturer Certificate of Warranty Coverage (printed in the user's manual). Warranty term defines expiration, whichever comes first.
****
FACTORY WARRANTY
Full-The factory warranty provided to the customer at no additional cost for a specific period of time covering the complete machine from manufacturer craftsmanship/defects.**
**Excludes: Customer abuse/neglect, Regular Maintenance/Wear Items, Freight, Service Calls, Hauling Charges, Shop Supplies. Variable-An extension of the factory base warranty coverage on specific components (ie: powertrain, paint, etc.) provided to the customer at no additional cost.
****
Prices reflected on this quote are valid only on items that are in stock as of the quote date. Otherwise this quote must be considered an estimate. Final pricing will be determined at the time the items on the estimate/quote are received into stock and allocated to the corresponding sales order. However prices are subject to change if the programs or promotions are no longer in effect.
****
****
PURCHASED EXTENDED WARRANTY (An extension of factory base warranty coverage on specific components)
Provider: KUBOTA
Terms/Hrs: ADDITIONAL 12 MONTHS FOR A TOTA OF 36 MONTHS
****
DELIVERY:DATE:TBD
