

## **Town of Kinnickinnic**

### **Road Committee Meeting - Minutes**

January 21, 2026

Bogdan began the meeting at 4:03 pm. The following Road Committee members were in attendance: Axel Bogdan, Bill Gnatzig, Dave Wittig, Bob LaValley, Josh Leisen, and Erik Henningsgard.

Minutes from the December 17, 2025 meeting were reviewed. Motion by LaValley to approve December minutes, second by Leisen, 5-eyes, motion carried.

#### **Public Comments**

No public were present at the meeting.

#### **Road and Ditch Maintenance**

With the recent weather patterns, Town road driving conditions are poor. It was acknowledged that the County has lots of roads to plow and residents will need to be patient for snow removal after storm events. The County has been very responsive when requests have been made for additional treatment of roads that need attention.

#### **Road Projects**

The 2026 street maintenance treatments were discussed for prioritization of projects. Options were discussed of only completing maintenance in 2026 vs maintenance and a pulverize and pave or reconstruction project. Ultimately it was decided that the current prioritization of capital projects to remain as drafted. The Town can decide to either publicly bid the work to be completed or contract with the County to have it done. The County typically comes out with their pricing sheets in February and the Town can request an estimate to be completed for projects.

Henningsgard will add crack sealing and seal coating to years beyond 2026 for projected costs associated with maintenance.

#### **10-year Street Maintenance Schedule**

No further discussion from what was discussed in Road Projects.

#### **Road Adoption Ordinance**

1989 was the last time the Road Adoption Ordinance was updated. A draft updated ordinance was presented by Bogdan. Committee reviewed the ordinance, provided edits and some questions that will need clarification. The Ordinance will be reviewed at next month's meeting.

### **Next Meeting**

The next Road Committee meeting was scheduled for Wednesday, February 25th at 4:00 pm at the Town Hall (note date change). Topics for the next meeting will include Public Comments, Road and Ditch Maintenance, Road Projects, 10-year Street Maintenance Schedule, and Road Adoption Ordinance.

Motion to adjourn by Gnatzig, second by Wittig. Motion approved unanimously. Meeting adjourned at 5:41 p.m.
