## Additional Guidance

**Hair and Grinder Pump Maintenance:** Hair can also be detrimental to the grinder pump. Although it is impossible to prevent all hair from entering the system, we recommend using an inexpensive trap in your tub, shower, or sink to catch most of the hair. Hair can wrap around a valve, preventing it from closing properly and causing the pump to wear out faster.

Use common sense when disposing of items. Anything hard or fibrous can bind the grinder and cause damage.

Items processed by garbage disposals can also be gritty and cause damage to the grinder system.

**Liability Notice**

***Any damage caused to the grinder pump by improper disposal of prohibited items will result in repair costs being charged to the homeowner.***
