Utility Committee

Friday, April 25, 2025, at 10:17 a.m.

Mayor Brady Weiss called the meeting to order at 10:17 a.m. with Committee Members present: Greg Bauer and Gary Stanton. Also in attendance was Director of Public Works Corey Dregney, Street Superintendent Jim Rud, City Administrator Michelle Loken and resident Ginny Gunderson.

DISCUSSION OF WWTP

Dregney gave an update on the WWTP process and ongoing phosphorus limit requirements. Since the modifications that were made, the numbers have been getting better but he will need to do chemical treatments and possible water quality trading to meet the WIDNR requirements. Discussion of needed maintenance on Well #4's pumps. He is getting quotes from a few companies to see the best option. Dregney also stated that the lift station on the north side of the city is having some issues. It is approximately 25+ years old and needs some repairs. He will be receiving competitive quotes on that repair as well. Mayor Weiss inquired how the Cross Connection Inspections were going and Dregney will be taking a class so he can preform them when meter changes are being made.

DISCONTINUING SALE OF DEDUCT METERS

Loken advised that per our Tariffs with the Wisconsin Public Service Commission, deduct meters that are installed in residences should be billed a monthly charge. A motion by Stanton and seconded by Weiss to charge the quarterly amount to accounts that have a deduct meter installed and provide the residence a credit in the amount originally paid for the meter. G. Bauer abstained. Motion carried.

OTHER UTILITY COMMITTEE MATTERS

Mrs. Ginny Gunderson was in attendance regarding her last water/sewer bill. Her outside spicket was running for an unknown amount of time while they were out of town. Gunderson's average usage per quarter is 12,000 gallons and she had went through 108,000 gallons in the last billing. Motion by G. Bauer and seconded by Stanton to allow Gunderson to be credited with the difference of 96,000 gallons that went through her meter. Motion carried.

ADJOURNMENT:

At 10:40 a.m. motion by Stanton and seconded by G. Bauer to adjourn. Motion carried.

Michelle Loken, City Administrator
