Bart Jensen and Brooks Jones with Jones & Demille brought maps of 2500 South. The maps were laid out on the conference table and everyone gathered to discuss the potential design of 2500 South.

DISCUSSION REGARDING THE DESIGN OF 2500 SOUTH ROAD

The discussions involved 12' shoulders, trying to best fit the road with people's existing improvements and trying not to encroach too much. Justin Parker stated he liked what was discussed at the previous meeting and what the neighbors who live along that road discussed. He said he has been talking with some of his neighbors and they would love a sidewalk on that road.

Mr. Jensen stated they could get the design at least to a stage that the City could take it to a funding agency.

Micheal asked if they could give Jones & DeMille two ideas to play with and then they can bring those back to Council and make a final decision.

With no other business before the Council the work session ended at 6:50.
