

Beach Nourishment Committee Meeting February 18, 2025

Meeting called to order by Sandy Boyer 6:35 P.M. at the Town Hall Office Conference Room

Attendees: Sandy Boyer, Bruce Boyer, John Lawicki, Peter Mavrelis, Paul Panther, Al Halline , David Snyder(remote),Michele Bonneau, Scott Kingan, CJ Jackson, Peter Mavrelis

Minutes of the January meeting were approved.

Beach Preservation Project: Sandy

Bruce presented the cost estimates for beach preservation rock placement for all homes and accessways involved in the central section. He explained that G.E. Marshall of Valparaiso will be the contractor for the project. Sandy explained that further documents will be presented to participating homeowners for signature. All monies will be collected and placed with the title company before the project begins. As the project progresses, the contractor will receive payment once the engineer inspects and approves the work. There will be a 10% hold on all work until the project ends. If other homeowners want to participate after the project starts, they can be added to the project when they pay their share of the project. We discussed that the stairs at accessway 14 will be removed to allow work at that location. Hopefully further donations will be collected for a new stairway to be placed at that location. Much discussion followed and all questions were answered to the satisfaction of members of the committee. Thanks was given to Sandy and Bruce for their time and expertise in bringing this project forward.

Meeting adjourned 7:50

Respectfully submitted

Peter Mavrelis
