|-------------------------|---|
| 1 Chair – Louise Howson | Staff Representative(s): |
| 2 Paula Anschutz | Village Admin Assistant – Sarah Bertges |
| 3 Jill Wiebe | Village Administrator – Benjamin Andrews (as needed) |
| 4 Lisa O’Hearn | Public Works Supervisor – Erik Linczmaier (as needed) |
| 5 Mary Smythe | |

1. Call to Order & Roll Call
2. Approval of the Agenda
3. Approval of the Minutes
 - a. March 4, 2026
4. Comments, Correspondence, and Concerns from the Public
5. Discussion/Action Items:
 - a. Works Session; Annual GTLC Report due March 31, 2026
 - b. Earth Day Activities; Door County Big Plant Planning
 - c. Composting Facility Discussion
 - d. Sustainability Policies Discussion
6. Matters to be Placed on Future Agenda, Referred to a Committee, Official or Employee
7. Schedule Next Meeting
8. Adjournment

Public Notice

Questions regarding the nature of the agenda items above or more detail on the agenda items scheduled to be considered by the governmental body can be directed to Sarah Bertges, Administrative Assistant, at adminassist@sisterbaywi.gov. It is possible that members of and possibly a quorum of members of other governmental bodies may attend the meeting to gather information; no action will be taken by any governmental body other than the body specifically referred to above in this notice. Upon reasonable notice, a good faith effort will be made to accommodate the needs of disabled individuals through sign language interpreters or other auxiliary aid at no cost to the individual. Due to the difficulty in finding interpreters, requests should be made as far in advance as possible, preferably a minimum of 48 hours. For additional information or to request this service, contact the Sister Bay Village Administration Office at 854-4118, (FAX) 854-9637, or by writing to the Village Administration Building, 2383 Maple Drive, PO Box 769, Sister Bay, WI 54234. Copies of reports and other supporting documentation are available for review at the Village Administration Building during operating hours (8 a.m. – 4 p.m. Mondays through Thursdays, 8 a.m. to noon on Fridays).

The Village of Sister Bay is an Equal Opportunity Employer and Provider

AD HOC GREEN TIER LEGACY COMMUNITY COMMITTEE MEETING MINUTES**Thursday, MARCH 04, 2026****(Unapproved)****1. Call to Order & Roll Call**

The March 04, 2026 meeting of the Green Tier Legacy Community Committee was called to order by Chairperson Louise Howson at 1:01 P.M.

Present: Louise Howson, Mary Smythe, Lisa O'Hearn, and Jill Wiebe. Paula Anschutz was absent.

Staff: Benjamin Andrews Village Administrator, Sarah Bertges Administrative Assistant

2. Approval of the Agenda

Motion to approve the agenda by Wiebe, second by Howson. Motion carried – all ayes.

3. Approval of the Minutes February 19, 2026

Wiebe requested an amendment to add target dates of November 2026 for the reusable tote project mentioned in items 5c and 6 of the February 19, 2026 minutes.

Motion to approve the minutes as amended by Wiebe, second by O'Hearn. Motion carried – all ayes.

4. Comments, Correspondence, and Concerns from the Public

No public comments were received and no members of the public were present online.

5. Discussion/Action Items**a. Work Session; Annual GTLC Report due March 31, 2026**

Andrews presented the draft Green Tier Legacy Committee annual report, sharing his screen to display the comprehensive document organized in spreadsheet format with multiple tabs. Andrews explained that he and Howson had met with the DNR to discuss submission requirements and gather additional information. Various sections of the report had been assigned to staff members for review and updates with 2025 data.

Andrews noted that committee members had received a link to review the document and could add comments. He recommended establishing a deadline of March 18th for all comments to be submitted, allowing staff to finalize the document during the week of March 16th for final review at the March 25th meeting prior to the March 31st submission deadline.

The committee conducted a comprehensive review of each section of the report:

Narrative Tab: Howson inquired about proper timing for including early 2026 activities. Andrews clarified that activities occurring before the report submission could be included. Howson noted her involvement with the shuttle bus program and confirmed its continued operation in 2025 with improved fuel efficiency from the new vehicle.

Transportation (TS) Narrative: The committee reviewed trail study updates from the Door County Trail Group and noted the addition of e-bikes at the beach for summer 2026. The shuttle bus program was appropriately included in multiple relevant sections.

Land Use (LU) Narrative: Discussion covered connections between the comprehensive plan and Green Tier requirements. Howson suggested future consideration of the ice rink project, noting water usage reduction from eliminating flooding methods but increased electricity usage from chillers. Andrews noted plans to update lighting around the facility to be more efficient and night sky compliant. Wiebe recommended removing negative language about volunteer event attendance. O'Hearn identified a typographical error that needed correction.

Water Quality and Conservation (WQC) Narrative: Andrews confirmed that Utilities Director Megan had reviewed and updated relevant sections. Discussion covered the street sweeping program, with clarification that the village contracts with the county for twice-yearly sweeping. Wiebe inquired whether snow plowing could be considered street cleaning, but Andrews indicated the intent was specifically for removing hazardous materials and toxins.

Solid Waste (SW) Narrative: Extended discussion occurred regarding recycling and composting initiatives. The committee learned that no shredding event was held in 2025 due to cost concerns, with the Sunshine House providing alternative services. Administrator Assistant Bertges reported difficulty scheduling electronics recycling events, with availability not until August 2026. Discussion covered exploring earlier scheduling and alternative providers for future events.

Significant discussion focused on composting initiatives coordinated by the Climate Change Coalition. A participant noted that Mike Schneider had volunteered to conduct pickups in Sister Bay, working with Mighty Wind Farm for processing. O'Hearn mentioned ongoing discussions with the Sister Bay Historical Society about expanding composting at the farmer's market for 2026.

Wiebe suggested adding the composting site map to the village website, noting that the current Green Tier webpage information was outdated. The committee agreed to update website content with current information.

Health Equity and Social Action (HESA) Narrative: Review identified potential misplaced comments between sections and discussed the Blue Zones program research that has been ongoing. Several typographical corrections were identified for the farmer's market description, including updating to the new "Open Air Market" name.

Andrews explained that the document's "past data" tab contained information exported from previous submissions, providing baseline information for comparison and ensuring continuity with prior reports.

The committee agreed to the proposed timeline with March 18th deadline for comments and March 25th meeting for final review before submission.

6. Matters to be Placed on Future Agenda, Referred to a Committee, Official or Employee

The committee identified several items for future consideration:

- Finalization of the 2025 Green Tier report narrative
- Continued discussions about Earth Day activities and plant giveaway planning
- Composting facility exploration, including potential field trip to Egg Harbor to study their municipal composting operations
- Discussion of village property on Woodcrest Road for potential composting site adjacent to community garden
- Development of sustainability policies for village landscaping projects, particularly for the new administration building, with emphasis on native plantings and environmental considerations

7. Schedule Next Meeting

The next meeting was scheduled for March 25, 2026 at 1:00 PM. O'Hearn noted she would be absent from that meeting but had provided Sarah with draft Earth Day recycling poster materials for committee review.

8. Adjournment

A motion was made by Smythe, second by Wiebe to adjourn the March 04, 2026 meeting of the Green Tier Legacy Community Committee at 1:53 P.M. Motion carried – all ayes.

Respectfully submitted by Sarah Bertges, Administrative Assistant

Big Plant Impact *through 2025*

Restoring habitats, reducing carbon, and planting a more resilient future for Door County.

Planting trees is effective community climate action. In 5 years, volunteers, families, and partners have transformed our landscape and made a measurable difference.

The Door County Big Plant is a whole-community event that is bigger than all of us. It was inspired by the Climate Change Coalition and it is executed each year by hundreds of Door County individuals, families, businesses, churches, and non-profit leaders and partners. We act as a community to plant over 10,000 trees each year, in both the Spring (April/May) and Fall (Sept/Oct).

We plant trees to help our ecosystems thrive, sequester carbon, clean the air, protect groundwater and streams, provide shade to reduce air conditioning, and beautify our homes and landscape. Our mission is to inspire as many people as possible to plant and grow as many trees as possible!

Community Plantings

Where have we been planting?

LOTS OF AMAZING PLACES!

Working with partners all around Door County, we have offering free, public community plantings over the County, including 30 plantings over the last 4 years. Most tree-plantings are at conservation hero-friend-partners Crossroads, DC Land Trust, The Nature Conservancy, and The Ridges.

We've also planted trees at town property, county property, childcare centers, and affordable housing land along the highway.

Hello Sarah! And - Thank you Mary, for your help in making this connection!
 We are so excited to include our map on your site!

Attached is the most current map. We do have some sites that change from time to time, so maybe it would be wise to include a disclaimer, that says, "For the most up-to-date map, please visit the Climate Change Coalition of Door County's Website" and then the link that jumps right to the locations is: <https://climatechangedoorcounty.org/compost#compost-sites>

Thank you so much, please let us know if you need anything else!

Subject: Sister Bay GTLC Committee and the Compost Poster

Hi Jess and Jeff,

Here is the contact info I said I would send to you.

Ben Andrews Administrator, Village of Sister Bay

administrator@sisterbaywi.gov

(O) (920) 854-4118

Louise Howson Chair, Sister Bay GTLC Committee, Board Trustee, Village of Sister Bay

louise.howson@sisterbaywi.gov

Sarah Bertges Administrative Assistant, Village of Sister Bay

sarah.bertges@sisterbaywi.gov

(O) (920) 854-4118

At our last Sister Bay GTLC meeting there was agreement that we would like to post on the Sister Bay GTLC website and on the Village website the Door Community Composting Initiative map of composting sites. I volunteered to let you know of our interest in hopes that you and the above listed will work out the best protocol.

Thanks!!

Mary

AD HOC GREEN TIER LEGACY COMMUNITY COMMITTEE MEETING MINUTES**Thursday, MARCH 04, 2026****(Unapproved)****6. Matters to be Placed on Future Agenda, Referred to a Committee, Official or Employee**

The committee identified several items for future consideration:

- Finalization of the 2025 Green Tier report narrative
- Continued discussions about Earth Day activities and plant giveaway planning
- Composting facility exploration, including potential field trip to Egg Harbor to study their municipal composting operations
- Discussion of village property on Woodcrest Road for potential composting site adjacent to community garden
- Development of sustainability policies for village landscaping projects, particularly for the new administration building, with emphasis on native plantings and environmental considerations
