   Jess Calia, DPW supervisor, explain that there is an ongoing dispute of a water/sewer bill at 3 Mountain Ave. At a previous BOT meeting it was suggested that the water meter be calibrated. The Village sent the meter to the manufacturer and it came back almost 100% accurate. Jesse spoke to the plumbing contractor, Ken Muthig, who stated that they fixed a frozen toilet at the property in December and suggested that they leave it run at their discretion to prevent the issue again. A leaking toilet can produce 200 gallons of water per day. The water meter profile data shows this large consumption as a leak. The trustees agreed that this bill should be paid. Trustee Curley made a motion to approve a year long payment plan and for this bill, including keeping current on water sewer account each quarter. Trustee Snyder seconded.
