RE: 2027 South Main Street (CTH N) Project Information Meeting (PIM)

Dear Resident or Business Owner,

This letter is to notify you that the Village of Cottage Grove is in the design phase for the reconstruction of South Main Street from E. Reynolds St. to the Village limits. Planning and design are continuing through the fall and winter with construction beginning in Spring 2027.

This project will incorporate replacing the undersized 6-inch water main as well as replace the aging, old concrete sanitary sewer pipe beneath the street. While the utilities are being replaced, the street, curb and gutter, and sidewalk will be reconstructed due to the aging and failing pavement along the corridor.

A Public Information Meeting (PIM) will be held on Thursday, November 5th from 4-6pm at Village Hall, 221 E. Cottage Grove Road. The PIM will include a brief presentation on both planned reconstruction projects for 2027 (South Main Street and Ollie Street) and then be an open house format to ask the Village Engineers questions or provide feedback.

View detailed project updates on the Village's Project Page here: https://www.vi.cottagegrove.wi.gov/645/Village-Projects.

The Village recognizes that making the needed improvements will be an inconvenience for homeowners and business owners. The Village will take measures to minimize the impact as much as logistically and financially possible. Please do not hesitate to reach out to me with any additional questions before, during, or after the project.

Regards,

Kyela R Oloughlin
