To whom it may concern,

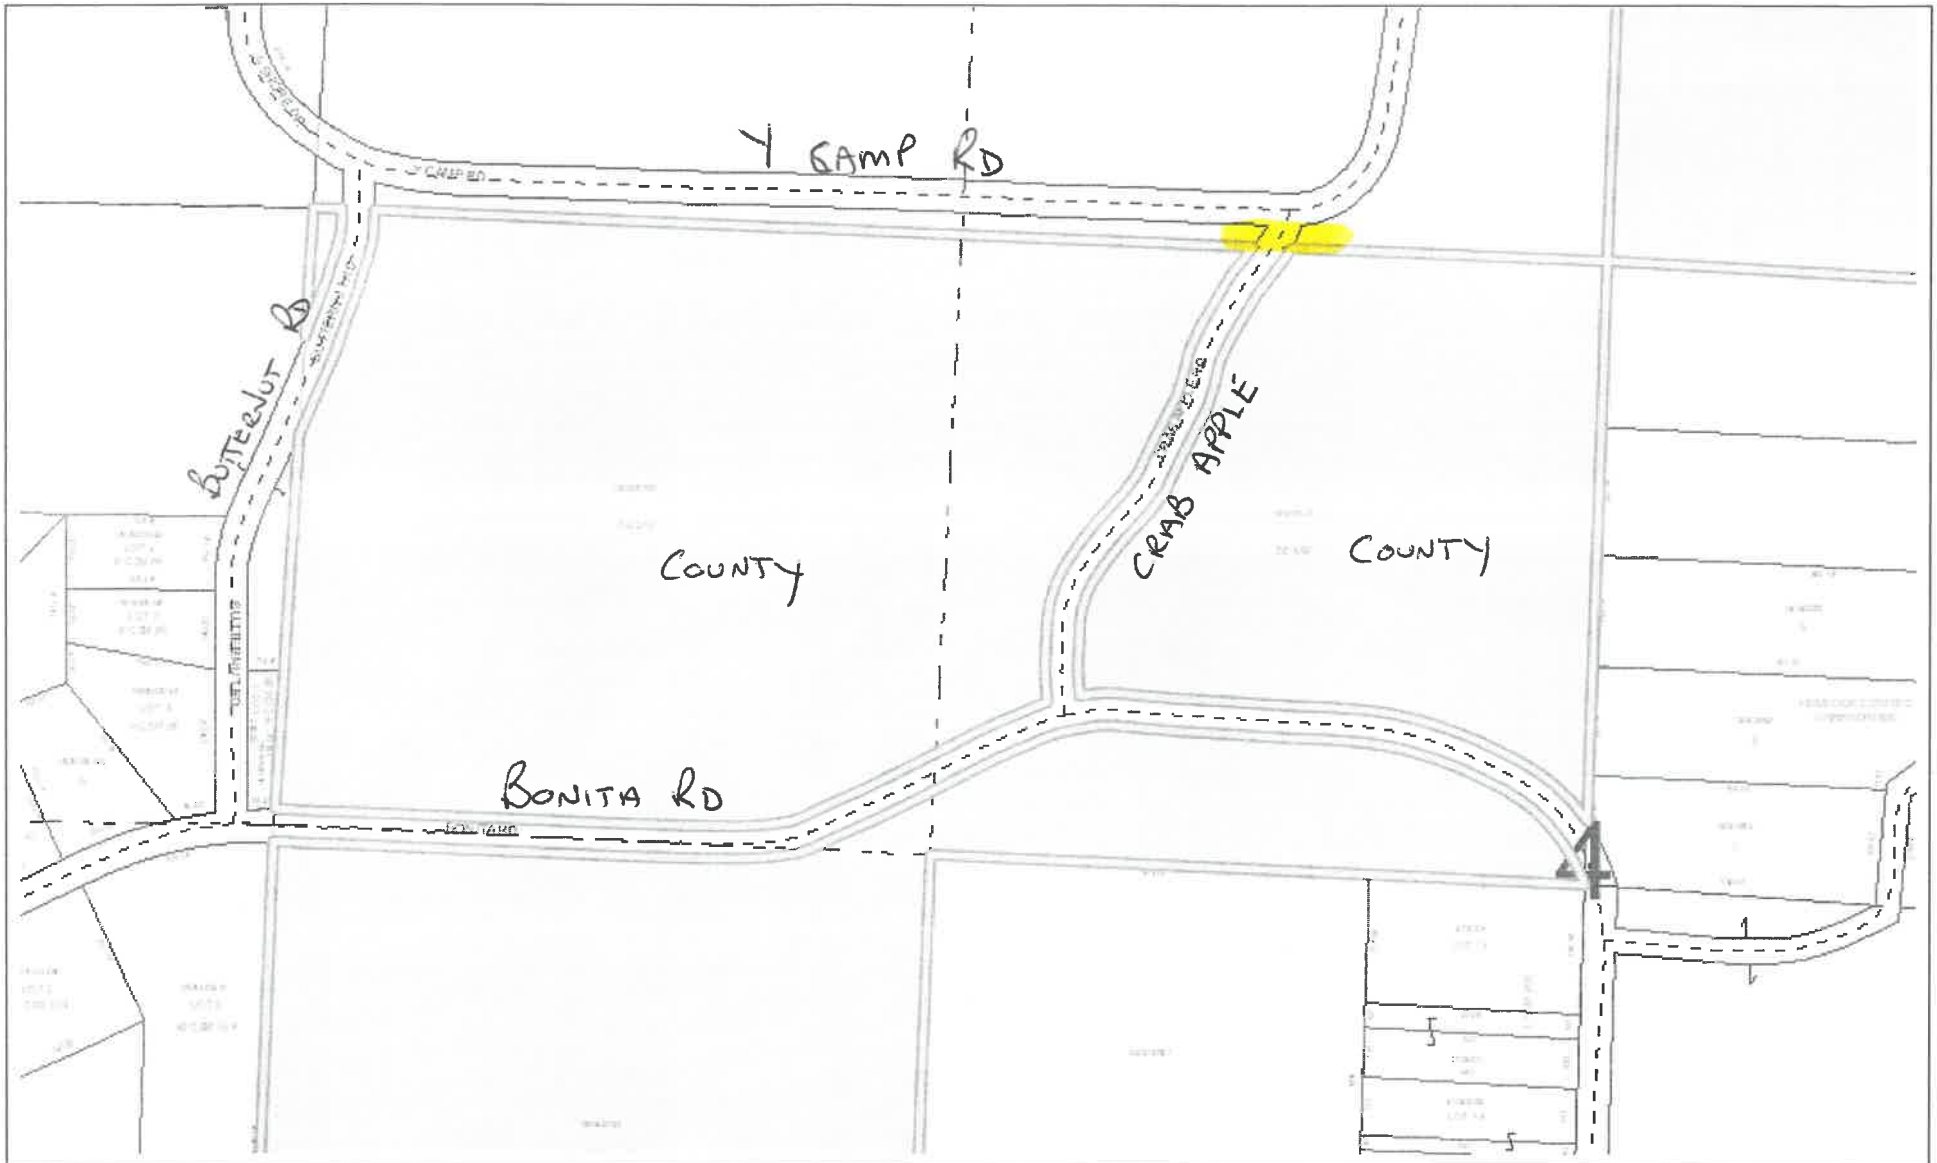

On behalf of our association I would like to inform you that we are strongly in favor of discontinuing public use of Crab Apple Road. We have several reasons for supporting the discontinuation of the road. First, it has a negative effect on our business operations. Most of the visitors to our camp property rely on GPS technology to navigate here. Modern GPS devices gather previous data to formulate the "most efficient" route to the destination. This route setting frequently directs people to use Crab Apple Road to access the camp. As you may know, Crab Apple road requires AWD/4x4 capability and high clearance. We frequently are required to pull out the stuck cars and minivans of our guests who followed their GPS down Crab Apple.

Secondly, it is an unfortunate reality that Crab Apple Rd has become a dumping ground of trash and organic debris. The route is littered with old appliances, furniture, and other miscellaneous items. Folks dump their leaves and slash cuttings along the road. Closing the road will prevent further littering and pollution of this natural area.

Lastly, closing this road will not have a negative impact regarding access to any house or business along Y Camp Rd and Bonita. Butternut Rd effectively connects Bonita and Y Camp Rd and using Butternut does not pose an unnecessary inconvenience or hinderance to people traveling through.

Sincerely,

Max Clark
