Upcoming Events:

- The Burlington Youth Library group will be touring Station 2 as part of their summer program. The kids will get to see our trucks and have some fun events to participate in. The Burlington Library will also have their book bike on site for the kids to check out books while at the firehouse. This will be on Wednesday, July 29th.
- Annual pancake breakfast on Sunday, August 2nd from 7am to noon at Station 3 in Browns Lake. Raffle winners will be drawn at noon. The Auxiliary will also have their raffle tent again this year.

Training:

- July training will focus on FFL (Flight for Life) landing zone set up and safety. The group will also review past calls and any new policies and procedures that FFL has implemented.
- Last month we had water rescue and diving operations with the Marine Division and Medix as part of our summer preparedness effort.

Racine County Radio Project: Nothing new to report.

Membership:

As part of the department's ongoing recruitment and retention initiatives, the membership has been in discussions with the leadership of the City of Burlington Fire Department Explorer Post and Rochester Fire and Rescue's Explorer Post to gather information on establishing an Explorer Post for the Town of Burlington Fire Department. The current concept is to operate as a sub-post under the City of Burlington's existing Explorer Post, like the successful model utilized by Rochester.

Department members are currently researching insurance requirements, Boy Scouts of America's Exploring program guidelines, any required online training for advisors, and other administrative requirements associated with starting the program. This initiative has been discussed previously by the membership, and there is strong support for moving forward to engage with area youth, promote interest in the fire service, and the potential to develop future volunteer firefighters for the department.

Once all necessary information has been gathered and reviewed, the department will request placement on a future Town Board agenda to formally present the proposal and seek the Board's approval to establish an Explorer Post.

The membership continues to move forward with the 501(c)(3) organization. Current efforts are focused on obtaining nonprofit status, establishing the organization's banking account, and developing the organization's bylaws, policies, and operating procedures to support future fundraising and operations.

Equipment:

- New engine 922 since being placed into service has responded to multiple calls. The members continue to train with the new truck.
- The new UTV skid has been delivered. Power will need to be run to the unit. We are still waiting for preliminary graphics for the UTV.
- Engine 923 had produced a code for "contaminated DEF", the truck is currently up at Cummins Oak Creek for replacement of the DEF header. The DEF had a 5-year warranty that expired in March of this year.
- Kelmann Restoration, as part of the company's cancer initiative, completed our annual SCBA facepiece and truck decontamination. This comes at no cost to the township. The service included contaminant extraction from all permeable seats and wiping down all surfaces that may encounter carcinogens. The TOBFD has been part of this annual service for many years now. It's just another way to help protect our volunteers.

Respectfully submitted,

Fire Chief
