

BUILDING INSPECTION SERVICES

Welcome to SAFEbuilt Inspections. We are a leader in the inspection industry for residential and commercial plan review and inspections. We are contracted through the Town of Dover to ensure quality development and property maintenance. Inspections are required by law and city ordinance.

See below for important information on how to submit plans for review, apply for permits and schedule inspections.

Everyone needs to complete, sign, date, and upload a copy of the paper application to the online portal.

Residential Applications:

New Homes- Please upload building permit application, all plans, heat loss calcs and survey

Additions/Alterations/Accessory Building -

Upload building permit and plans.
For Additions and Accessory Buildings also upload survey or GIS map

Fences/Decks/Sheds - Upload permit, plans and survey or GIS map ~

Commercial Applications:

New Commercial Buildings - Please upload building SBD Form, plans, heat loss calcs and survey. All building and HVAC plan reviews should be applied for separately.

Additions/Alterations/Accessory Building -

Upload building permit and plans.
For Additions and Accessory Buildings also upload survey or GIS map

All other permits: Upload permit, submit. Fees will be verified by Safebuilt Inspections and you will receive an email with those fees.
