November 20, 2025

Dear Jason and the Town of New Glarus Parks Commission,

Thanks for choosing Quercus for your prairie establishment. Below is the proposed work for 2025-2026.

Seeding - Fall 2025: \$3,800

We will seed 3 acres as designed by the parks commission. Work would be completed prior to December 31, 2025.

Summer Prairie Maintenance - 2026: \$2,000

Weeds targeted could include, but not be limited to, sweet clover, parsnip, teasle, crown vetch, and non-native thistles. We would use a combination of tactics depending on what was most appropriate at that time including spot mowing, spot herbicide application and hand pulling. Work may be completed across multiple visits during the 2026 growing season to target different species at different times.

Quercus is fully insured, equipped, and certified for chainsawing, herbicide application, and conducting prescribed burns. Certificates and references are available upon request. The estimates include all labor, equipment, and materials required to complete the tasks as described. **You will be billed on a time and materials basis for your projects.**

You currently have ~\$3,000 pre-paid. We will send an invoice for the balance once we have this signed proposal.

Thank you for the opportunity to manage your new park. Please let me know if you have any questions.

Sincerely,

Kristina Weld

Client Signature

Date: 12-3-2025

OR

☐ I accept this proposal/quote with the following changes/notes.
-Quercus will contact you if these changes alter the price or scope.

Changes/Notes (Attach another sheet or give us a call if needed!)

X

Client Signature

Date: _____

By signing above I agree to the following terms:

- This work is highly weather dependent and could be completed anytime M-F 7:30-5:00 or weekends if necessary (including prescribed burns). Actual hours worked are at the discretion of Quercus.
- Changes to scope or additional work may be done with approval from both Quercus and the Client.
Major changes may require a separate or revised proposal.
- Estimates are valid for 6 months from estimate date.
- If the Client desires the work to be postponed Quercus cannot guarantee timely completion.
- Either party may cancel this agreement at any time by giving 10 days written notice of termination. Quercus shall be entitled to full payment for services performed prior to the effective date of cancellation (e.g. labor, materials, burn plan/permit fees).
- All estimates/quotes are subject to 5.5% sales tax.
- If you are tax exempt, please fill out the WI Sales and Use Tax Exemption Certificate link and return
- All invoices are due within 30 days of the invoice date.
- A reminder to the client will be made at 30 days. If no arrangements to pay are made, a 10% late fee will be added to invoices past 45 days.

TIMBER HARVESTING &
FOREST MANAGEMENT

Dear Landowner,

We're Jake and Randy Leib, and we manage timber procurement for Leib Logging, Inc. out of Dubuque, IA. We are actively buying timber and believe you may have valuable trees on your property. We're buying mature trees of various hardwood species, with a focus on walnut, white oak, bur oak, and cherry.

As a fifth-generation company with over 47 years of experience buying standing timber, we are proud to continue a family tradition led by Randy (4th generation) and Jake (5th generation), with a strong commitment to forest preservation and respecting landowners and their property. Our goal is to meet your objectives during harvest and to build long-term relationships. When done properly, timber harvesting can enhance habitats for deer, turkey, and other wildlife, as well as improve the quality of timber for future harvests.

We have references available from satisfied landowners upon request.

Please call or text us at 563-599-8010 (Randy) or 563-495-6689 (Jake) for more information or to schedule a free timber consultation. If we're unavailable, feel free to leave a message — we'll get back to you promptly.

Thank you,

Jake & Randy Leib
