10. Discussion on an official road map. The map looks at logical places that roads could be extended. The map could be used for when new developments come to the town for approval. This could lead to planned roads to dead end subdivisions or simply better connections through the Town. The board was not interested in an official town map.

11. Discussion on the possible purchase of a new decibel meter for enforcement of the Conditional Use Permit (signed by the Town) for the winery that sets decibels no higher than 75 on Friday thru Sunday. It would be professionally installed and would monitor the levels 24/7. The Town Chair is the one that must enforce this and when using the hand-held device. The chair stated how dependable is this way of monitoring having one person doing all the monitoring. More information was requested and would be brought back at a later date.
