Variance hearing for septic system design opened for 15 Kreuzer Rd.

Ms Derosier gave a brief history of the property, and issues obtaining a perc test when property was built on several years ago.

The proposed Septic Design is comprised of a reduction in distance to refusal using an I/A system. Valerie Bird explained several holes were dug and there was a lack of adequate material to meet state requirements of four feet naturally occurring soil. There is no alternative on this property.

An I/A system was designed by Michael Wall, Engineering that meets 310 CMR 15.00.

The board was given a pdf copy of the septic design proposed. Discussion on how it works, and what the finished field would like ensued.

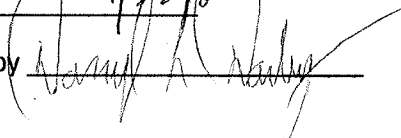

Daryl made motion to accept the design, Nannette seconded.
