Chair report

- Rosholt Record – welcome 2026 in January edition, (need egg hunt poster for February edition)
- F/UP on bldg subcommittee meeting – Jan 26th
 - Lori- Dennis Kramm questioned about the building hard ceiling due to the AC- are we going to have dry wall on the ceiling? Do we want exposed duct work? We could use mini-split? We want the mini split that hangs on the wall as we have in floor heat. David from Bushman electric asked- what kind of lights do we want? We plan on having a 10-foot ceiling height and want fans, do we want wrap around 2x4 feet or can lights out in the back and open area (yes) and towards the ball diamond. LED can lights? We would like whatever lighting give the best light, energy efficient and ensures brightness of the room. When it gets closer to the time of the next meeting we will be in contact with Wayne Bushman. We

would like plenty of plug ins towards the ball diamonds as well as where crockpots would be plugged in. Most efficient.

- Bill Gibbs will work on the Spec book
- First Supply- Ryan Lepak gave a break down for the plumbing.
- F/up on DOA grant, T-Mobile grant & WEDC grant
 - T-Mobile will be done after this first quarter.
 - Lori to call the community parks committee
