

Town of Spider Lake
Board of Supervisors Meeting
Town Hall, 10896W Town Hall Road
Wednesday, September 9th, 2026
6 p.m.

MINUTES

1. Meeting was called to order by Chairman Johnson at 6 pm. In attendance were Supervisors Delaney, Johns, Thearin and Amery with Treasurer Pagenkopf and Clerk Fogal.
2. Community Participation: Robert Lovely spoke on his frustration with solar panel installation with permitting.
3. **MOTION** to approve agenda for September 9th, 2026 made by Delaney, seconded by Johns. All ayes. Motion carried.
4. Pledge of Allegiance
5. **MOTION** to approve the minutes from August 12th, 2026 Town Board Meeting with corrections made by Johns, seconded by Delaney. All ayes. Motion carried.
6. Treasurer's Report: YTD cash balance: \$58,260
7. Clerk's Report
 - a. **MOTION** to approve vouchers in the amount of \$12,489.34 plus any regular late coming bills made by Delaney, seconded by Thearin. All ayes. Motion carried.
8. Committee Reports
 - a. PR & C (Sarah Delaney)
 - MOTION** to approve the conditional use permit 26-03 for Robert & Charlyn Lovely with the proposed conditions made by Delaney, seconded by Johnson. All ayes. Motion carried.
 - MOTION** to approve the certified survey map proposed by Spider Lake Properties LLC to create Outlot1 of 0.61 acres from existing tax id parcel 45706 made by Delaney, seconded by Johnson. All ayes. Motion carried.
 - MOTION** to approve the proposed consolidation of the two Ramsay parcels (tax ids 31039 & 45980) into a single parcel made by Delaney, seconded by Johnson. All ayes. Motion carried.
9. **MOTION** to adjourn made by Johns, seconded by Thearin. All ayes. Motion carried. Next Regular Town Board meeting will be on 10/14/26 at 6 pm.

Town of Spider Lake
Special Town Meeting
Town Hall, 10896W Town Hall Road
Friday 25th September 2026
4 p.m.

Minutes

1. Meeting called to order at 16:04 by Chairman Johnson. In attendance were Supervisors Delaney, Johns, Amery and Thearin with Clerk Fogal.
2. No Public Participation
3. **Motion** to approve agenda for 9.25.26 with two changes removing extraneous verbiage made by Delaney, seconded by Johns. All ayes. Motion carried.
4. Pledge of Allegiance
5. **Motion** to indicate to von Briesen and Roper that they will be our Town Attorney made by Amery, seconded by Delaney. All ayes. Motion carried.
6. **Motion** to adjourn made by Amery, seconded by Thearin. All ayes. Motion carried.

Subj: Results of Community Response Program for Boating Ordinances

This is a summary of the first set of responses received on boating ordinance issues. Since this is new for us, I wanted to revisit some of the basics of this effort and why we are doing it. First, this is a way for members of the community to respond when they believe there is an ordinance issue. Hopefully, this is more effective than the "community policing" model we have used in the past, which is mostly about standing on a dock and yelling, or attempting to flag someone down on the lake. Second, this program is set up to assist the Board in understanding the location, time and events that may constitute an ordinance infraction. It is intended as an information gathering tool and is not designed to accuse or punish anyone. We are keeping all the data confidential in order to avoid this being used to apply penalties.

In my opinion, the success of this program will depend on good judgment and care in the use of these reports. We have some naysayers that have used this program with emails that express doubt in our abilities to handle this information. I disagree, and I am confident we can process the reports and findings in a way that is useful, productive and accomplishes the many goals and duties we have as Board members. To that end, there are a couple of things that we need to keep in mind. They revolve around accountability and decision making.

Our Town Board is expected to make good decisions. In a perfect world, we would have all the information needed to make these decisions. This almost never happens. Most organizations, especially those that make complex decisions like town governments, find they must work with limited or sketchy data. There is never enough to guarantee the right course of action. That said, the only thing worse than having poor quality data is having no data at all. This is the rationale for collecting community input on our boating ordinances. We know the reports are not perfect, but they can be useful in augmenting our efforts at finding the right balance of governance and leadership in managing the health, safety and recreational opportunities within our community.

As elected officials we are accountable to the community to perform our duties effectively. We promise to do our best when taking an oath as we are sworn in, and this oath includes our duty to implement and administer Town ordinances (laws). Part of this duty is to ensure that ordinances are both designed to be **enforceable**, and that they are properly **enforced**. The boating ordinance reports you will review are mostly about improving enforceability, and have very little to do with actual enforcement. For example, we are not using these reports to hand out citations and fines. We are not imposing penalties in any way. And, we are keeping all identifying information confidential. Our goal with this program is to help us identify problem areas and use these findings to improve

communication and education for users of the Town lakes. Further, as regards enforcing the Town ordinances, we may use the reports to help us understand if, when and how more active enforcement is needed. If the reports prove to be useful in this way, it will improve the effectiveness and efficiency with which we employ more active enforcement. We will target our efforts and thereby avoid the heavy-handed enforcement some of our community members are concerned about.

All this involves good judgment. Using limited information to support effective leadership is the hallmark of an effective board. It is the job we signed up for, and a duty we took an oath to protect. A summary of reports is attached. I will provide more detail at the meeting. I look forward to our discussion.

TOSL Community Response Program for Boating Ordinances

Summary of Reports through 9/8/2026

Date	Time	Location	Description	Notes
Saturday, July 18, 2026	NA	Big Spider	Appears to be wake boat that is pulling wakeboarder	Not clear if this was wakeboarding, which is OK, or if it is wake surfing, which is contrary to the ordinance
Monday, August 3, 2026	5:30 PM	Picnic Island, Big Spider	Boat pulling kids tubing. After salutation, boat continued tubing at a speed under 10mph	Operator said they were renters and where unaware of ordinance
Monday, August 3, 2026	5:30 PM	Big Spider	Boat pulling tube, ignored salutation and eventually pulled into shore

Town of Spider Lake
10896 W Town Hall Rd.
Hayward, WI 54843

Dear Town Chair and Members of the Town Board,

The Sherman & Ruth Weiss Community Library is proud to serve residents of more than 28 municipalities, including the Town of Spider Lake. As the heart of Sawyer County, the library connects people of all ages to learning, creativity, and community life. Beyond its traditional role as a lending library, it has become a vibrant community gathering place where residents come together to participate in educational, cultural, and recreational programs that enrich the quality of life throughout the region.

In 2025, library patrons realized an estimated \$4.1 million in cost savings through borrowing materials, accessing technology and digital resources, and participating in library programs and services. A summary of these savings, along with other measures of the library's community impact, is enclosed with this letter. Residents of the Town of Spider Lake alone borrowed 3,852 items and participated in our programs and services throughout the year, demonstrating the value the library provides to your community.

Our programming created for all age groups is made possible through partnerships with local organizations, agencies, and volunteers. During the summer, children and families enjoy the Summer Reading Program, featuring educational entertainers and engaging learning experiences. The library also serves as a trusted source of information and support by assisting patrons with technology, online resources, and digital services; offering educational programs on topics such as fraud and scam prevention; and partnering with organizations that provide healthcare education and enrollment assistance. The library also provides meeting space for organizations and community groups including Girl Scouts, Boy Scouts, crafting groups, woodturners, book clubs, and many others. In July 2026, thanks to a grant from The Huelsmann Foundation, three private study pods were installed to provide dedicated space for studying, virtual meetings, tutoring, telehealth appointments, and quiet work.

The Hayward Public Library is unique in that it is the only library in Wisconsin that is not financially supported by its fiscal municipality, the City of Hayward. While the City serves as our fiduciary agent, it does not provide operational funding for the library. When the City was no longer able to fund library operations in 1996, Sawyer County stepped in and assumed approximately 90% of the library's operating expenses. Today, county funding covers approximately 55% of the library's total operating budget, while the costs of operating and maintaining our 14,000 square-foot facility continue to rise.

In July 2026, the Sawyer County Board passed a resolution increasing the library's funding to at least 2.5% above the previous year's allocation of \$245,000. We are grateful for this increase, which exceeds

Wisconsin's statutory county library funding requirement. Even so, county funding alone is not sufficient to meet the library's operating expenses. As a result, the library must continue to rely on its donor fund to support daily operations as well as essential building maintenance and repairs.

Since relocating from our 5,000-square-foot building to our current facility in 2007, the generosity of our community has helped bridge this funding gap. The Hayward Library Foundation and the Friends of the Library continue to provide invaluable support through fundraising and volunteer efforts. However, in recent years, the library has been forced to draw from its capital reserve fund which is money intended for major repairs and long-term facility needs, to cover operating expenses and necessary maintenance. At the current rate of spending, those reserves could be exhausted within the next three to five years, underscoring the need for sustainable funding to ensure the library's long-term future.

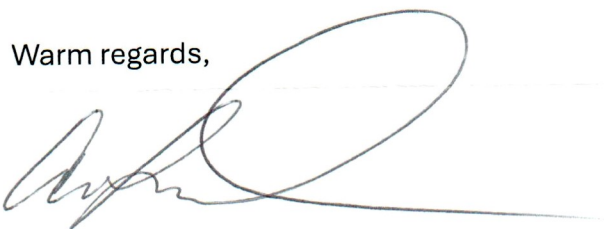

To help ensure continued access to these essential services, we respectfully invite the Town of Spider Lake to consider a voluntary annual contribution to support library operations. Your investment will help sustain the collections, programs, technology, facilities, and services that benefit your residents and communities throughout Sawyer County.

We also wish to express our sincere appreciation to the municipalities that have supported the library over the years. We are especially grateful to the Town of Hunter for its longstanding commitment (\$500 to \$800 per year) and to the Town of Lenroot for its generous 2026 contribution of \$1,000. Their support demonstrates a shared investment in providing high-quality library services for residents across the region.

Thank you for your consideration and for your commitment to the well-being of your community. We hope you will join us in ensuring that the Sherman & Ruth Weiss Community Library remains a welcoming, accessible, and vibrant resource for generations to come.

We would be pleased to provide additional information or attend a Town Board meeting to discuss this request and answer any questions you may have.

Warm regards,

A handwritten signature in blue ink, appearing to read 'Ann Larson', with a large, looping flourish extending to the right.

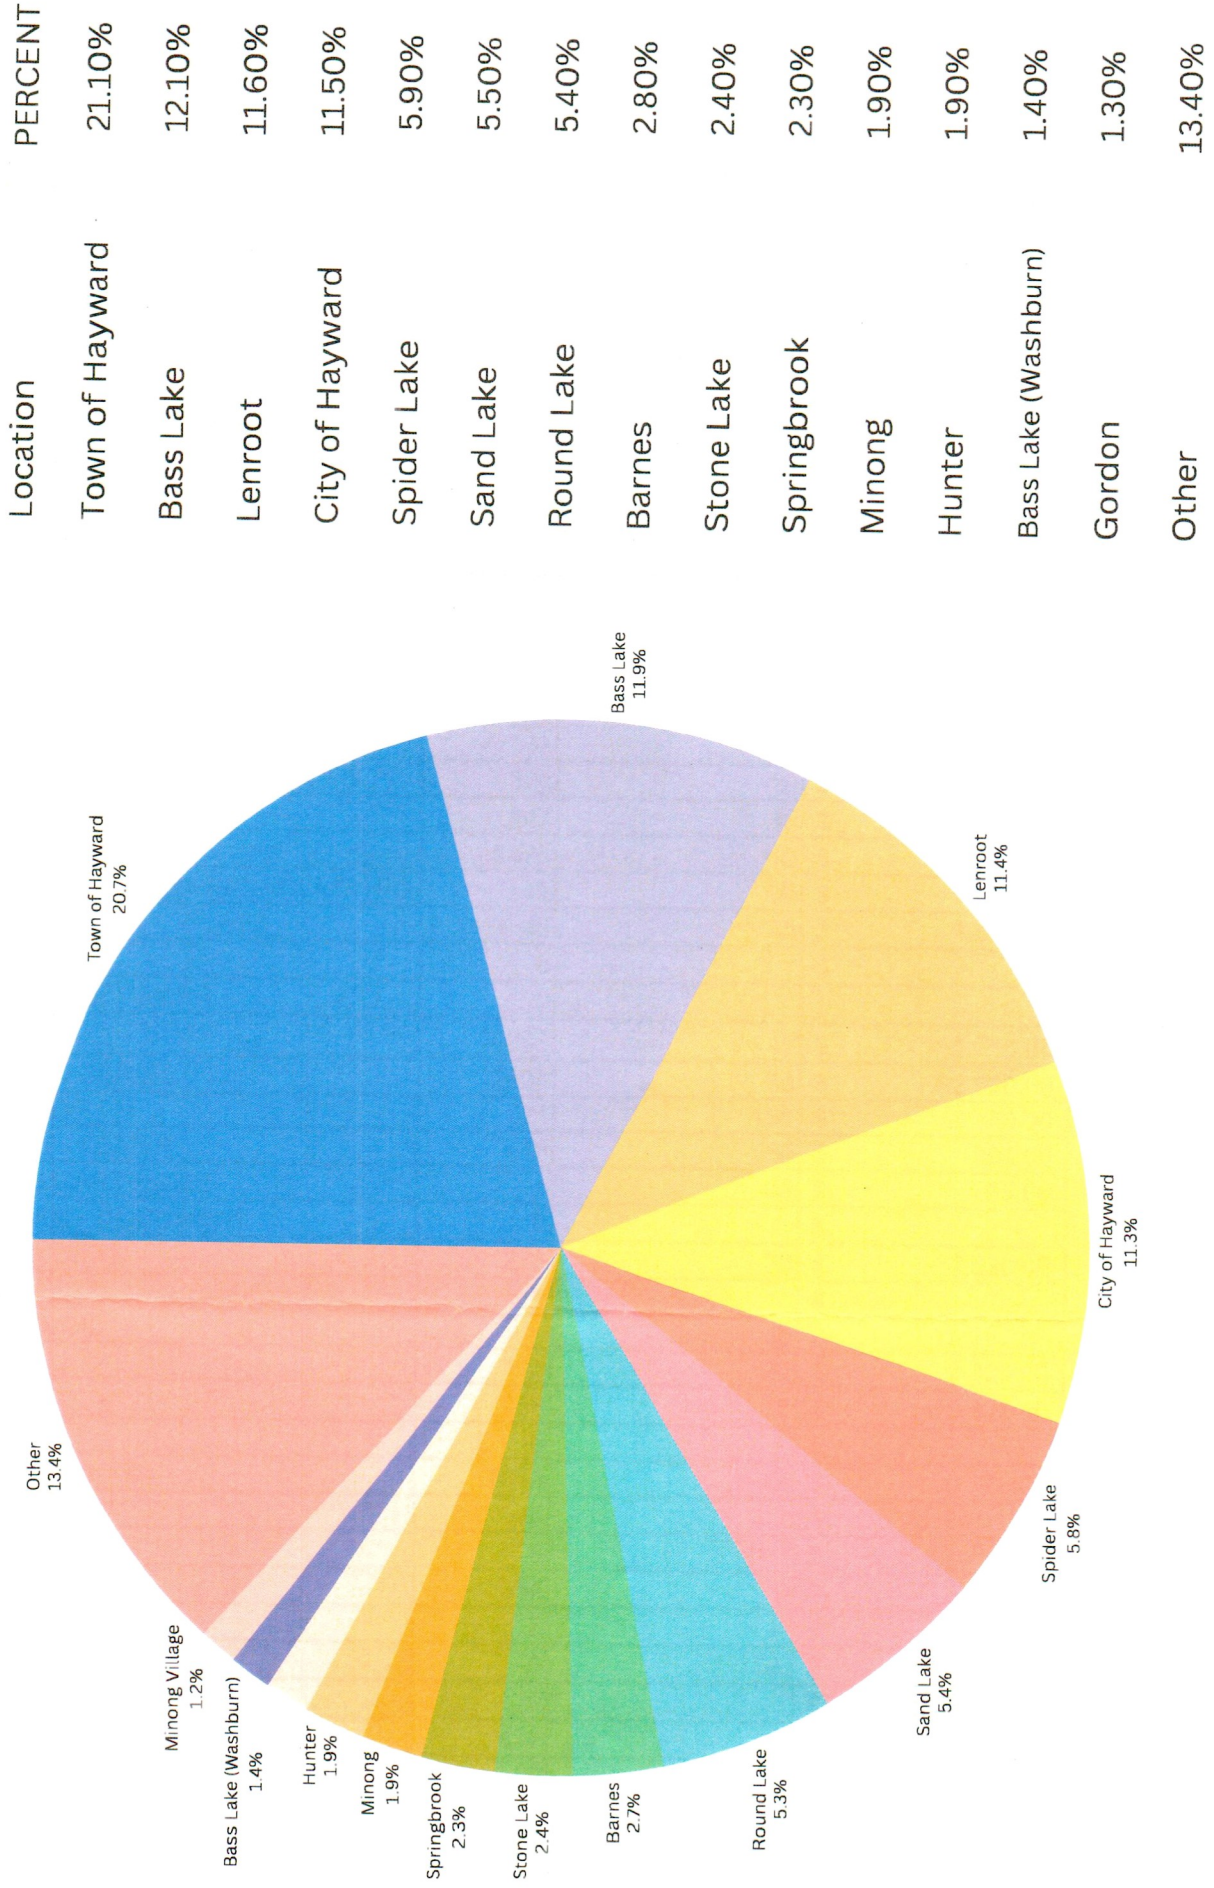

Ann Larson
