

Town of Trenton

Minutes of the regular meeting of the Town of Trenton Plan Commission held on Monday, December 11, 2023, at 7:00 PM at the Town Hall, 1071 State Highway 33 East.

Present: Bob Roden, Ray Werhand, Tony Thoma [Present Via Teleconference] Joan Baumgartner, Dennis Kay, Scott Schweizer. Other Town officials present Chairman Mike Lipscomb, Town Administrator Cindy Komro, Clerk Heather Krueger. Other officials present Supervisor Barb Davies and Supervisor Ed Doerr.

Members of the public: 34

Call to order: Chairman Lipscomb called the meeting to order at 7:00 PM

Pledge of Allegiance: Lipscomb invited those in attendance to stand and join in reciting the Pledge of Allegiance.

Affidavit of Posting: Lipscomb confirmed that the meeting notice was properly posted.

Determination of Quorum: Per Lipscomb, quorum is satisfied.

Review and Accept Agenda: **Thoma moved, and Kay seconded to approve the agenda as presented. Motion carried. 6-0.**

Approve Minutes of the November 13, 2023, Plan Commission meeting: **Kay moved, and Thoma seconded to approve the minutes of the November 13, 2023 Plan Commission meeting. Motion carried 6-0.**

Department of Natural Resources: Representative Victoria Ziegler, Agricultural Runoff Management Specialist gave a PowerPoint presentation on DNR CAFO Regulations and Permitting. She addressed questions from the Plan Commission and the Town Board.

Public Comments:

Tim Mueller, 2163 Paradise Dr. Representing the Friends of Trenton UA. Tim read the attached public comment and submitted 750 signatures gathered for the Protest Petition of the Rezoning of the Rob-N-Cin Farms.

Emily Kearns, 5859 HWY Y: Wanted to talk about all the signatures that were gathered for this petition; It was a lot of work going door to door and it was very time-consuming. It is important to know that the people of this community do not want the impact of the farm to get larger than what it already is. Since she moved here six years ago, the farm has doubled in size and if it doubled again, it would have so much impact on our community including our water, our environment, roads, smell, and noise – it affects everyone in our community. This is a protest petition; our attorney was supposed to attend tonight but he had a conflict. A Protest Position changes a lot and how this board will vote.

John Jansen 5939 Wausaukee Rd. Here to talk about a separate issue, it is related but separate from the rezone. You may start getting comments from people on why the State is sampling their wells. While working for a different community in WA Co., he came across special casing zoning related to

the Falk farm which was brought up earlier. In 2011 a child got sick, and people were complaining the wells were tainted, the DNR sampled them, and five wells had bacteria and pathogens from manure spreading. They were able to identify the farm responsible and that farm had a nutrient management plan, certified by the DATCP (Department of Agriculture, Trade and Consumer Protection), similar to the CAFO plan. He spoke with the DNR and received records. The wells need to be constructed especially because of contamination. He went on the DNR website and looked at the available groundwater data from sampled wells, one mile in each direction. He found 20 wells that had nitrate samples, 70% of them had impacts. Six of them were over the drinking water standard, some as high as 30 parts per million which is very bad, and other contaminants are there. Jansen spoke with Lipscomb about this issue and then took it to the State Department of Health Services and they are looking into it. He suspects they will be out sampling wells and people will be very concerned. Jansen has maps and data but will not be making those public because of privacy concerns for the individuals but he is willing to share with the Town Board and Plan Commission. They will not be a public record until the DNR is done investigating. He presented a map with the United States Geological Survey that shows groundwater susceptibility of Washington County which shows areas in Trenton are highly susceptible to groundwater contamination, based on the permeability of the soils and the depth of the water table. This is an area that is vulnerable to contamination as the special casing area indicates. Another thing Jansen has done is he took the CAFO spreading sites and put them on Google Earth to see what areas of the town already have spreading. With only two CAFOs not within Trenton are already spreading 900 acres and there are a lot more farms spreading in the area so it may be much more. There are also a lot of wells in this area that may be at risk. Drinking water with high nitrate, which has bacteria in it is very serious and is a public health concern so don't be blowing this off. This is important and this is going on in the township. He will keep updating the map to show what areas spreading is occurring, and it will be shared on the Friends of Trenton website.

Barb Eckert, 994 Knollwood Opposed to the CAFO rezone for the reasons others have mentioned, which are very important but won't reiterate. Grew up on a dairy farm in Iowa and was very involved in her community of farming. Was recently in Central Iowa and saw large farms along the way, and realized that is where CAFOs belong, in large open areas without neighbors and the risk to the water supply could be minimal. The Town of Trenton is not big AG, it is rural, small AG. Opposing the CAFO does not make you antifarming, there is a place for CAFOs, it is just not here in the Town of Trenton. Opposing the CAFOs does make you in favor of preserving the existing character and charm of our community for all our residents. The 750 residents who signed the petition agree.

Joy Schroeder, 6725 Trenton Rd. Object to the industrialization of animals. Keeping animals in a building with lights on 24 hours a day. The AC that is used to help increase the production of milk also contributes to global warming. You may find a legal way to approve this CAFO coming to our town, but it is still not right. With the help of humans, humanity, animals, and the health of the environment, say no to rezoning for a bigger CAFO. She believes they are a CAFO already. Why should we trust that our groundwater won't be affected? There wouldn't be so many regulations that Victoria and the DNR have to follow if there had not been disasters somewhere else. There are alternative ways to farm which are better for animals, soil, air, and watershed.

Marie Dominguez, 6109 Tuscola Lane Served 30 years in the US Army and chose this area of WI to retire in, is opposed to the rezoning for many reasons that have already been addressed. Would specifically like to address property values and would hate to see her property decrease in value. She is also a physician and the fact that kids are going through puberty much earlier than they were a generation ago, one theory is because of the hormones that are placed particularly in dairy cattle. Grew up on a dairy farm and this is a real concern. Cow urine is where we get hormones from.

Premarin comes from mare urine, the hormones in cow urine that are being spread on our land and going into our groundwater raise a real concern.

Eugenio Dominguez, 6109 Tuscola Lane Oppose CAFO and rezoning for CAFO for this area because we are a densely populated rural area. This rezoning will likely benefit one or two property owners and adversely affect hundreds.

Lipscomb thanks the residents for coming and expressing their feelings, the best asset in this town is the people. Thank you for the effort and work you have put into this.

Resolution Z2023.12.01, Amending the Town of Trenton Zoning Code regarding permitted uses in R-1, R-2, and R-3 Zoning Districts with respect to attached garages. A public hearing was held before this meeting, and there were no comments from the public. **Werhand moved to send Resolution Z2023.12.01 to the Town Board for approval, seconded by Baumgartner. Motion carried 6-0.**

Resolution Z2023.12.02, Approving an amendment to the Comprehensive Plan for the Town of Trenton with an accompanying amendment to the Town of Trenton Zoning Map: Patrick and Dean Groth, Maple Road. A public hearing was held before this meeting, and there were no comments from the public. **Baumgartner moved to send Resolution Z2023.12.02 to the town board for approval, seconded by Werhand. Motion carried 6-0.**

Recommendation to Town Board re: approval of Certified Survey Map, Patrick and Dean Groth, 5440 Maple Road. Town Engineer Burt Naumann submitted his recommendations for approval. Item 1, The location of soil borings does not apply as is an existing septic, and no new septic will be added. **Baumgartner moved to approve the Certified Survey Map for Patrick and Dean Groth with the engineer recommendations, seconded by Thoma. Motion passed 6-0.**

Zoning ordinance amendment regarding ground solar accessory structures Per Komro is wondering if this is something the plan commission would like to discuss as this has come up on different occasions. Ground solar is different from a shed with a different look and height and where they need to be placed for the sun. Some residents would like to have solar panels and the only place available would be in the front yard and that is not an option at this time. The Plan Commission would need to discuss this in-depth and make exceptions on a case-by-case basis. Further discussion in the future.

Zoning ordinance amendment regarding metal accessory structures in residential zoning districts. Per Komro, currently, metal buildings are not allowed unless you are CES zoning. They can be very nice, and we may want to allow them in other zoning. Architectural approval may be an option to allow with specifications. Komro will work on this for a future change to the zoning.

Reports:

Washington County Rep. Thoma: The County voted to put up \$3 million for lead laterals for the City of West Bend., The County put up a bond for 6.2 million for WA Co. Fairgrounds to assist with the Wi-Fi. A \$3.2 Million bond was taken out to assist Kewaskum Industrial Park. There will be a closed session meeting this week regarding Samaritan.

Komro: Working to have the board approve a new fee schedule for zoning to help recover some of the actual costs involved. Does the Plan Commission want to meet in January. Komro will review action items that may be on a January agenda and be in touch with PC members.

Lipscomb: If there is work to do then the Plan Commission should meet, we don't want to be accused of anything. Meeting virtually is an option and there is only one meeting a month so everyone should be able to accommodate even if they are out of town.

Review of Correspondence: All correspondence to Lipscomb has been sent to Komro, nothing to share.

Adjourn: Kay moved, Werhand seconded to adjourn the December Plan Commission meeting at 8:40 p.m.

Respectfully submitted,

A handwritten signature in cursive script, appearing to read "Heather Krueger".

Heather Krueger, Town Clerk

Subject to Approval: These Minutes will be considered for approval by the Plan Commission at its January 8, 2024 meeting.

Good evening.

I am here representing the Friends of Trenton UA. First, I would like to thank all the Plan Commission members and Town Officials, past and present for their time and effort spent to keep our township a safe and healthy place to live and raise a family.

We are filing this petition to help you understand the depth of the community opposition to this rezoning. This petition will force a unanimous vote by the board to rezone the property.

What started as a small group of residents concerned about the negative impacts that this rezoning would have on our rural community, public input has quickly grown to over 750 residents.

Over the past few weeks, this group has gathered over 750 signatures of adult residents that are opposed to the rezoning. We are here to present you with this protest petition this evening.

As we gathered these signatures, we heard several recurring themes from those that were opposed to the rezone of the Rob & Cin Farm. I would like to share these with you.

One of the largest concerns was the negative impact that this CAFO rezoning would ultimately have on the value of their homes. There are multiple studies which have proven that this type of rezoning negatively impacts property values. Values can be reduced up to 80% depending on proximity to the CAFO. In turn this would impact any home sales residents may have as well as tax revenue for the Township. In addition, road maintenance came up as a concern. Maintaining roads in the town is costly (up to \$1 million per mile as mentioned in a previous meeting). The town is already having to be selective to where to allocate funding for road repair. The heavy truck traffic associated with this type of operation will wear and damage the roads much sooner than regular car traffic, compounding the problem and adding future tax burden.

Another reoccurring theme we heard was the detrimental impact that the rezone eventually would have on our environment, especially our local water supply, including both contamination (WI CAFO's and EPA Impaired Waters)(<https://dnr.wisconsin.gov/topic/DrinkingWater/manure.html>) and the depletion of water in local wells. Additionally, there are too many environmentally sensitive areas in and around the Rob & Cindy Farm which haven't been studied as to any current environmental concerns or what future CAFO impact on sensitive sights might be.

Another common theme was the unpleasant smell and mess that large farm and CAFO create. Most residents were already familiar with manure spills on the roads, manure trucks moving through the community at fast speeds on township roads, and the road mess left in their wake. Closing windows and moving outdoor activities indoors was repeated to many times by residents

We have provided you with information on each of these concerns, so I will not go into additional detail this evening. The information can be found on our website – FriendsOfTrentonWI.com. Information is sourced on the website. It's amazing how many people were unaware of the proposed rezoning even as of yesterday. Most people heard about the situation from Friends of Trenton road signage, door to door awareness campaign, and our website, not from information the Town has provided.

The vast majority of residents we spoke with gladly signed the petition. Some opposed the rezoning but were unwilling to sign the petition for personal reasons. A few felt that all farming operations we

good no matter the size. That said, we did reach over 750 people within the township who clearly felt the rezone was not in the best interest of the community, their property values, their safe water, and their quality of neighborhood. Therefore the rezone should not happen.

We reiterate our strong position – as supported by those 750 neighbors, town residents, and the people you as elected and assigned representatives are here to protect. That this rezoning is only serving to benefit of Rob & Cin Farm business. Rezoning of this business would set an unintended negative precedent moving forward for the township. Again, it is not in the best interest of the overall community as required by town regulations, and must not be approved.

WE request that this letter as well as the entire petition be a part of the record and included in town minutes.

PROTEST PETITION TOWN OF TRENTON, WASHINGTON COUNTY WI

We the undersigned are adult residents of the Town of Trenton, Washington County, Wisconsin. We object to the rezoning of parcels, T11-063900Z, T11-064200D, T11-064200Y and T11-065200B owned by Rob N Cin Farms, who have petitioned the Town of Trenton to change the classification for these parcels, which total approximately 141.34 acres, from Exclusive Agricultural (EA) zoning to Agricultural Enterprise (AE) zoning.

Our objection is based on the following factors:

1. The rezone does not meet the requirements under Town Ordinance § 380-120. The rezone is not for public necessity or the general welfare of the Town, but for the convenience of Ron N Cin Farms. The rezone petition indicates that the petitioner seeks to enlarge his current herd of milking cows. This is purely a benefit to the owner and not in the public interest.

2. The rezone constitutes spot zoning. Where a rezone is not in the public interest and is solely for the benefit of the property owner, it qualifies as spot zoning, *Cushman v. Racine*, 39 Wis. 2d 303, 309, 159 N.W.2d 67, 70-71(1968).

3. The rezone would remove the four parcels from the EA zoning district and would be an unreasonable burden on public facilities. The Town will be forced to spend money on road repairs caused by the increased use, and this will result in less money for public facilities. The increased animal units will have an unreasonable effect on air and water pollution as several of the parcels have wetland areas and they are adjacent to wetlands, primary environmental corridors, and state natural areas.

By my signature below, I acknowledge that I am an adult resident of the Town of Trenton, Washington County Wisconsin and that I have signed this petition with full knowledge of its contents.

PROTEST PETITION TOWN OF TRENTON, WASHINGTON COUNTY WI

We the undersigned are adult residents of the Town of Trenton, Washington County, Wisconsin. We object to the rezoning of parcels, T11-063900Z, T11-064200D, T11-064200Y and T11-065200B owned by Rob N Cin Farms, who have petitioned the Town of Trenton to change the classification for these parcels, which total approximately 141.34 acres, from Exclusive Agricultural (EA) zoning to Agricultural Enterprise (AE) zoning.

Our objection is based on the following factors:

1. The rezone does not meet the requirements under Town Ordinance § 380-120. The rezone is not for public necessity or the general welfare of the Town, but for the convenience of Ron N Cin Farms. The rezone petition indicates that the petitioner seeks to enlarge his current herd of milking cows. This is purely a benefit to the owner and not in the public interest.

2. The rezone constitutes spot zoning. Where a rezone is not in the public interest and is solely for the benefit of the property owner, it qualifies as spot zoning. *Cushman v. Racine*, 39 Wis. 2d 303, 309, 159 N.W.2d 67, 70-71(1968).

3. The rezone would remove the four parcels from the EA zoning district and would be an unreasonable burden on public facilities. The Town will be forced to spend money on road repairs caused by the increased use, and this will result in less money for public facilities. The increased animal units will have an unreasonable effect on air and water pollution as several of the parcels have wetland areas and they are adjacent to wetlands, primary environmental corridors, and state natural areas.

By my signature below, I acknowledge that I am an adult resident of the Town of Trenton, Washington County Wisconsin and that I have signed this petition with full knowledge of its contents.

PROTEST PETITION TOWN OF TRENTON, WASHINGTON COUNTY WI

We the undersigned are adult residents of the Town of Trenton, Washington County, Wisconsin. We object to the rezoning of parcels, T11-063900Z, T11-064200D, T11-064200Y and T11-065200B owned by Rob N Cin Farms, who have petitioned the Town of Trenton to change the classification for these parcels, which total approximately 141.34 acres, from Exclusive Agricultural (EA) zoning to Agricultural Enterprise (AE) zoning.

Our objection is based on the following factors:

1. The rezone does not meet the requirements under Town Ordinance § 380-120. The rezone is not for public necessity or the general welfare of the Town, but for the convenience of Ron N Cin Farms. The rezone petition indicates that the petitioner seeks to enlarge his current herd of milking cows. This is purely a benefit to the owner and not in the public interest.

2. The rezone constitutes spot zoning. Where a rezone is not in the public interest and is solely for the benefit of the property owner, it qualifies as spot zoning. *Cushman v. Racine*, 39 Wis. 2d 303, 309, 159 N.W.2d 67, 70-71(1968).

3. The rezone would remove the four parcels from the EA zoning district and would be an unreasonable burden on public facilities. The Town will be forced to spend money on road repairs caused by the increased use, and this will result in less money for public facilities. The increased animal units will have an unreasonable effect on air and water pollution as several of the parcels have wetland areas and they are adjacent to wetlands, primary environmental corridors, and state natural areas.

By my signature below, I acknowledge that I am an adult resident of the Town of Trenton, Washington County Wisconsin and that I have signed this petition with full knowledge of its contents.

TOWN OF TRENTON, WASHINGTON COUNTY WI**

We the undersigned are adult residents of the Town of Trenton, Washington County, Wisconsin. We object to the rezoning of parcels, T11-063900Z, T11-064200D, T11-064200Y and T11-065200B owned by Rob N Cin Farms, who have petitioned the Town of Trenton to change the classification for these parcels, which total approximately 141.34 acres, from Exclusive Agricultural (EA) zoning to Agricultural Enterprise (AE) zoning.

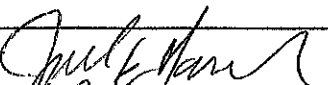

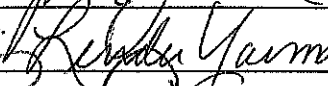

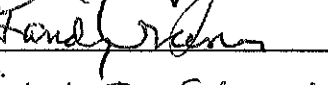

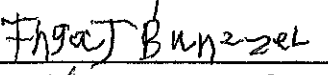

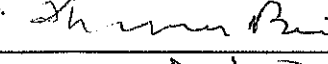

Our objection is based on the following factors:

1. The rezone does not meet the requirements under Town Ordinance § 380-120. The rezone is not for public necessity or the general welfare of the Town, but for the convenience of Ron N Cin Farms. The rezone petition indicates that the petitioner seeks to enlarge his current herd of milking cows. This is purely a benefit to the owner and not in the public interest.

2. The rezone constitutes spot zoning. Where a rezone is not in the public interest and is solely for the benefit of the property owner, it qualifies as spot zoning. *Cushman v. Racine*, 39 Wis. 2d 303, 309, 159 N.W.2d 67, 70-71(1968).

3. The rezone would remove the four parcels from the EA zoning district and would be an unreasonable burden on public facilities. The Town will be forced to spend money on road repairs caused by the increased use, and this will result in less money for public facilities. The increased animal units will have an unreasonable effect on air and water pollution as several of the parcels have wetland areas and they are adjacent to wetlands, primary environmental corridors, and state natural areas.

By my signature below, I acknowledge that I am an adult resident of the Town of Trenton, Washington County Wisconsin and that I have signed this petition with full knowledge of its contents.

P OTEST PETITION TOWN OF T ENTON, WASHINGTON COUNTY WI

We the undersigned are adult residents of the Town of Trenton, Washington County, Wisconsin. We object to the rezoning of parcels, T11-063900Z, T11-064200D, T11-064200Y and T11-065200B owned by Rob N Cin Farms, who have petitioned the Town of Trenton to change the classification for these parcels, which total approximately 141.34 acres, from Exclusive Agricultural (EA) zoning to Agricultural Enterprise (AE) zoning.

Our objection is based on the following factors:

1. The rezone does not meet the requirements under Town Ordinance § 380-120. The rezone is not for public necessity or the general welfare of the Town, but for the convenience of Ron N Cin Farms. The rezone petition indicates that the petitioner seeks to enlarge his current herd of milking cows. This is purely a benefit to the owner and not in the public interest.

2. The rezone constitutes spot zoning. Where a rezone is not in the public interest and is solely for the benefit of the property owner, it qualifies as spot zoning. *Cushman v. Racine*, 39 Wis. 2d 303, 309, 159 N.W.2d 67, 70-71(1968).

3. The rezone would remove the four parcels from the EA zoning district and would be an unreasonable burden on public facilities. The Town will be forced to spend money on road repairs caused by the increased use, and this will result in less money for public facilities. The increased animal units will have an unreasonable effect on air and water pollution as several of the parcels have wetland areas and they are adjacent to wetlands, primary environmental corridors, and state natural areas.

By my signature below, I acknowledge that I am an adult resident of the Town of Trenton, Washington County Wisconsin and that I have signed this petition with full knowledge of its contents.

PROTEST PETITION TOWN OF TRENTON, WASHINGTON COUNTY WI

We the undersigned are adult residents of the Town of Trenton, Washington County, Wisconsin. We object to the rezoning of parcels, T11-063900Z, T11-064200D, T11-064200Y and T11-065200B owned by Rob N Cin Farms, who have petitioned the Town of Trenton to change the classification for these parcels, which total approximately 141.34 acres, from Exclusive Agricultural (EA) zoning to Agricultural Enterprise (AE) zoning.

Our objection is based on the following factors:

1. The rezone does not meet the requirements under Town Ordinance § 380-120. The rezone is not for public necessity or the general welfare of the Town, but for the convenience of Ron N Cin Farms. The rezone petition indicates that the petitioner seeks to enlarge his current herd of milking cows. This is purely a benefit to the owner and not in the public interest.

2. The rezone constitutes spot zoning. Where a rezone is not in the public interest and is solely for the benefit of the property owner, it qualifies as spot zoning. *Cushman v. Racine*, 39 Wis. 2d 303, 309, 159 N.W.2d 67, 70-71(1968).

3. The rezone would remove the four parcels from the EA zoning district and would be an unreasonable burden on public facilities. The Town will be forced to spend money on road repairs caused by the increased use, and this will result in less money for public facilities. The increased animal units will have an unreasonable effect on air and water pollution as several of the parcels have wetland areas and they are adjacent to wetlands, primary environmental corridors, and state natural areas.

By my signature below, I acknowledge that I am an adult resident of the Town of Trenton, Washington County Wisconsin and that I have signed this petition with full knowledge of its contents.

**PROTEST PETITION
TOWN OF TRENTON, WASHINGTON COUNTY WI**

We the undersigned are adult residents of the Town of Trenton, Washington County, Wisconsin. We object to the rezoning of parcels, T11-063900Z, T11-064200D, T11-064200Y and T11-065200B owned by Rob N Cin Farms, who have petitioned the Town of Trenton to change the classification for these parcels, which total approximately 141.34 acres, from Exclusive Agricultural (EA) zoning to Agricultural Enterprise (AE) zoning.

Our objection is based on the following factors:

1. The rezone does not meet the requirements under Town Ordinance § 380-120. The rezone is not for public necessity or the general welfare of the Town, but for the convenience of Ron N Cin Farms. The rezone petition indicates that the petitioner seeks to enlarge his current herd of milking cows. This is purely a benefit to the owner and not in the public interest.

2. The rezone constitutes spot zoning. Where a rezone is not in the public interest and is solely for the benefit of the property owner, it qualifies as spot zoning. *Cushman v. Racine*, 39 Wis. 2d 303, 309, 159 N.W.2d 67, 70-71(1968).

3. The rezone would remove the four parcels from the EA zoning district and would be an unreasonable burden on public facilities. The Town will be forced to spend money on road repairs caused by the increased use, and this will result in less money for public facilities. The increased animal units will have an unreasonable effect on air and water pollution as several of the parcels have wetland areas and they are adjacent to wetlands, primary environmental corridors, and state natural areas.

PROTEST PETITION TOWN OF TRENTON, WASHINGTON COUNTY WI

We the undersigned are adult residents of the Town of Trenton, Washington County, Wisconsin. We object to the rezoning of parcels, T11-063900Z, T11-064200D, T11-064200Y and T11-065200B owned by Rob N Cin Farms, who have petitioned the Town of Trenton to change the classification for these parcels, which total approximately 141.34 acres, from Exclusive Agricultural (EA) zoning to Agricultural Enterprise (AE) zoning.

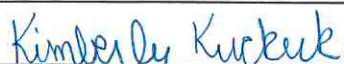

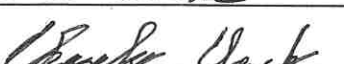

Our objection is based on the following factors:

1. The rezone does not meet the requirements under Town Ordinance § 380-120. The rezone is not for public necessity or the general welfare of the Town, but for the convenience of Ron N Cin Farms. The rezone petition indicates that the petitioner seeks to enlarge his current herd of milking cows. This is purely a benefit to the owner and not in the public interest.

2. The rezone constitutes spot zoning. Where a rezone is not in the public interest and is solely for the benefit of the property owner, it qualifies as spot zoning. *Cushman v. Racine*, 39 Wis. 2d 303, 309, 159 N.W.2d 67, 70-71(1968).

3. The rezone would remove the four parcels from the EA zoning district and would be an unreasonable burden on public facilities. The Town will be forced to spend money on road repairs caused by the increased use, and this will result in less money for public facilities. The increased animal units will have an unreasonable effect on air and water pollution as several of the parcels have wetland areas and they are adjacent to wetlands, primary environmental corridors, and state natural areas.

By my signature below, I acknowledge that I am an adult resident of the Town of Trenton, Washington County Wisconsin and that I have signed this petition with full knowledge of its contents.

PROTEST PETITION TOWN OF TRENTON, WASHINGTON COUNTY WI

We the undersigned are adult residents of the Town of Trenton, Washington County, Wisconsin. We object to the rezoning of parcels, T11-063900Z, T11-064200D, T11-064200Y and T11-065200B owned by Rob N Cin Farms, who have petitioned the Town of Trenton to change the classification for these parcels, which total approximately 141.34 acres, from Exclusive Agricultural (EA) zoning to Agricultural Enterprise (AE) zoning.

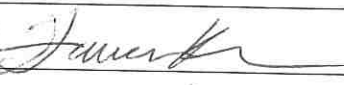

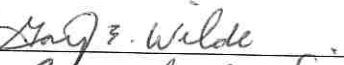

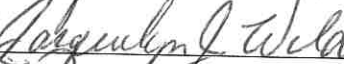

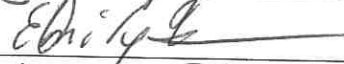

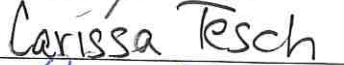

Our objection is based on the following factors:

1. The rezone does not meet the requirements under Town Ordinance § 380-120. The rezone is not for public necessity or the general welfare of the Town, but for the convenience of Ron N Cin Farms. The rezone petition indicates that the petitioner seeks to enlarge his current herd of milking cows. This is purely a benefit to the owner and not in the public interest.

2. The rezone constitutes spot zoning. Where a rezone is not in the public interest and is solely for the benefit of the property owner, it qualifies as spot zoning. *Cushman v. Racine*, 39 Wis. 2d 303, 309, 159 N.W.2d 67, 70-71(1968).

3. The rezone would remove the four parcels from the EA zoning district and would be an unreasonable burden on public facilities. The Town will be forced to spend money on road repairs caused by the increased use, and this will result in less money for public facilities. The increased animal units will have an unreasonable effect on air and water pollution as several of the parcels have wetland areas and they are adjacent to wetlands, primary environmental corridors, and state natural areas.

By my signature below, I acknowledge that I am an adult resident of the Town of Trenton, Washington County Wisconsin and that I have signed this petition with full knowledge of its contents.

The Town will be forced to spend money on road repairs caused by the increased use, and this will result in less money for public facilities. The increased animal units will have an unreasonable effect on air and water pollution as several of the parcels have wetland areas and they are adjacent to wetlands, primary environmental corridors, and state natural areas.

By my signature below, I acknowledge that I am an adult resident of the Town of Trenton, Washington County Wisconsin and that I have signed this petition with full knowledge of its contents.

PROTEST PETITION

TOWN OF TRENTON, WASHINGTON COUNTY WI

We the undersigned are adult residents of the Town of Trenton, Washington County, Wisconsin. We object to the rezoning of parcels, T11-063900Z, T11-064200D, T11-064200Y and T11-065200B owned by Rob N Cin Farms, who have petitioned the Town of Trenton to change the classification for these parcels, which total approximately 141.34 acres, from Exclusive Agricultural (EA) zoning to Agricultural Enterprise (AE) zoning.

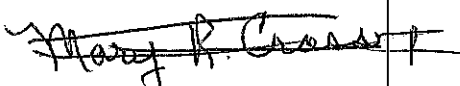

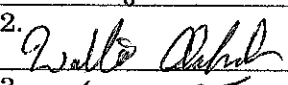

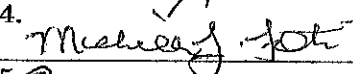

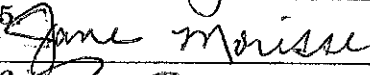

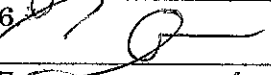

Our objection is based on the following factors:

1. The rezone does not meet the requirements under Town Ordinance § 380-120. The rezone is not for public necessity or the general welfare of the Town, but for the convenience of Ron N Cin Farms. The rezone petition indicates that the petitioner seeks to enlarge his current herd of milking cows. This is purely a benefit to the owner and not in the public interest.

2. The rezone constitutes spot zoning. Where a rezone is not in the public interest and is solely for the benefit of the property owner, it qualifies as spot zoning. *Cushman v. Racine*, 39 Wis. 2d 303, 309, 159 N.W.2d 67, 70-71(1968).

3. The rezone would remove the four parcels from the EA zoning district and would be an unreasonable burden on public facilities. The Town will be forced to spend money on road repairs caused by the increased use, and this will result in less money for public facilities. The increased animal units will have an unreasonable effect on air and water pollution as several of the parcels have wetland areas and they are adjacent to wetlands, primary environmental corridors, and state natural areas.

By my signature below, I acknowledge that I am an adult resident of the Town of Trenton, Washington County Wisconsin and that I have signed this petition with full knowledge of its contents.

PROTEST PETITION TOWN OF TRENTON, WASHINGTON COUNTY WISCONSIN

We the undersigned are adult residents of the Town of Trenton, Washington County, Wisconsin. We object to the rezoning of parcels, T11-063900Z, T11-064200D, T11-064200Y and T11-065200B owned by Rob N Cin Farms, who have petitioned the Town of Trenton to change the classification for these parcels, which total approximately 141.34 acres, from Exclusive Agricultural (EA) zoning to Agricultural Enterprise (AE) zoning.

Our objection is based on the following factors:

1. The rezone does not meet the requirements under Town Ordinance § 380-120. The rezone is not for public necessity or the general welfare of the Town, but for the convenience of Rob N Cin Farms. The rezone petition indicates that the petitioner seeks to enlarge his current herd of milking cows. This is purely a benefit to the owner and not in the public interest.

2. The rezone constitutes spot zoning. Where a rezone is not in the public interest and is solely for the benefit of the property owner, it qualifies as spot zoning. *Cushman v. Racine*, 39 Wis. 2d 303, 309, 159 N.W.2d 67, 70-71(1968).

3. The rezone would remove the four parcels from the EA zoning district and would be an unreasonable burden on public facilities. The Town will be forced to spend money on road repairs caused by the increased use, and this will result in less money for public facilities. The increased animal units will have an unreasonable effect on air and water pollution as several of the parcels have wetland areas and they are adjacent to wetlands, primary environmental corridors, and state natural areas.

By my signature below, I acknowledge that I am an adult resident of the Town of Trenton, Washington County Wisconsin and that I have signed this petition with full knowledge of its contents.

3. The rezone would remove the four parcels from the EA zoning district and would be an unreasonable burden on public facilities. The Town will be forced to spend money on road repairs caused by the increased use, and this will result in less money for public facilities. The increased animal units will have an unreasonable effect on air and water pollution as several of the parcels have wetland areas and they are adjacent to wetlands, primary environmental corridors, and state natural areas.

By my signature below, I acknowledge that I am an adult resident of the Town of Trenton, Washington County Wisconsin and that I have signed this petition with full knowledge of its contents.

PROTEST PETITION TOWN OF TRENTON, WASHINGTON COUNTY WI

We the undersigned are adult residents of the Town of Trenton, Washington County, Wisconsin. We object to the rezoning of parcels, T11-063900Z, T11-064200D, T11-064200Y and T11-065200B owned by Rob N Cin Farms, who have petitioned the Town of Trenton to change the classification for these parcels, which total approximately 141.34 acres, from Exclusive Agricultural (EA) zoning to Agricultural Enterprise (AE) zoning.

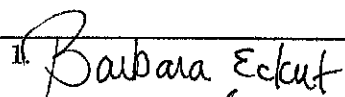

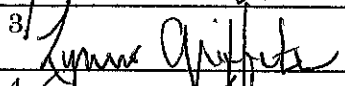

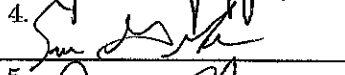

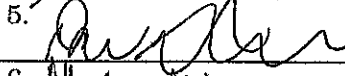

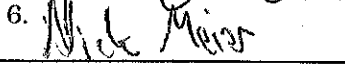

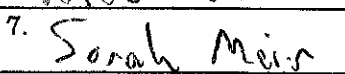

Our objection is based on the following factors:

1. The rezone does not meet the requirements under Town Ordinance § 380-120. The rezone is not for public necessity or the general welfare of the Town, but for the convenience of Ron N Cin Farms. The rezone petition indicates that the petitioner seeks to enlarge his current herd of milking cows. This is purely a benefit to the owner and not in the public interest.

2. The rezone constitutes spot zoning. Where a rezone is not in the public interest and is solely for the benefit of the property owner, it qualifies as spot zoning. *Cushman v. Racine*, 39 Wis. 2d 303, 309, 159 N.W.2d 67, 70-71(1968).

3. The rezone would remove the four parcels from the EA zoning district and would be an unreasonable burden on public facilities. The Town will be forced to spend money on road repairs caused by the increased use, and this will result in less money for public facilities. The increased animal units will have an unreasonable effect on air and water pollution as several of the parcels have wetland areas and they are adjacent to wetlands, primary environmental corridors, and state natural areas.

PROTEST PETITION TOWN OF TRENTON, WASHINGTON COUNTY WI

We the undersigned are adult residents of the Town of Trenton, Washington County, Wisconsin. We object to the rezoning of parcels, T11-063900Z, T11-064200D, T11-064200Y and T11-065200B owned by Rob N Cin Farms, who have petitioned the Town of Trenton to change the classification for these parcels, which total approximately 141.34 acres, from Exclusive Agricultural (EA) zoning to Agricultural Enterprise (AE) zoning.

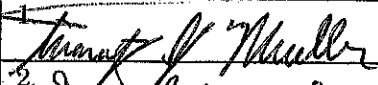

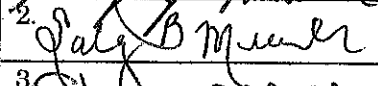

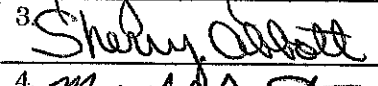

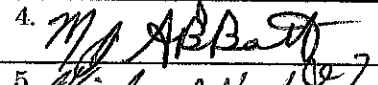

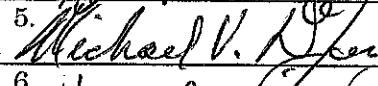

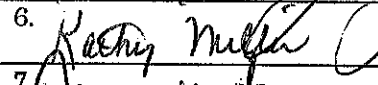

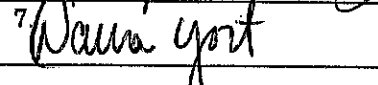

Our objection is based on the following factors:

1. The rezone does not meet the requirements under Town Ordinance § 380-120. The rezone is not for public necessity or the general welfare of the Town, but for the convenience of Ron N Cin Farms. The rezone petition indicates that the petitioner seeks to enlarge his current herd of milking cows. This is purely a benefit to the owner and not in the public interest.

2. The rezone constitutes spot zoning. Where a rezone is not in the public interest and is solely for the benefit of the property owner, it qualifies as spot zoning. *Cushman v. Racine*, 39 Wis. 2d 303, 309, 159 N.W.2d 67, 70-71(1968).

3. The rezone would remove the four parcels from the EA zoning district and would be an unreasonable burden on public facilities. The Town will be forced to spend money on road repairs caused by the increased use, and this will result in less money for public facilities. The increased animal units will have an unreasonable effect on air and water pollution as several of the parcels have wetland areas and they are adjacent to wetlands, primary environmental corridors, and state natural areas.

By my signature below, I acknowledge that I am an adult resident of the Town of Trenton, Washington County Wisconsin and that I have signed this petition with full knowledge of its contents.
