Official Press Release

Palmyra Public Safety Responds to Multiple Calls During Extreme Heat

On Monday, July 28, 2025, Palmyra Fire/Rescue – Palmyra Public Safety responded to **four (4) emergency calls** during a period of extreme heat. Each of these calls involved significant medical emergencies, with three (3) of the four patients were **considered high acuity calls**.

Two of the four calls required the combined efforts of our Fire/EMS and police personnel, demonstrating the strength and coordination of our integrated public safety team. Despite the challenging weather conditions, Palmyra Public Safety personnel responded to each emergency call in under **two minutes** from the time of dispatch. For one call, the Kettle Moraine Fire District provided mutual aid while our ambulance was returning from hospital transport. We extend our sincere thanks to the Kettle Moraine Fire District for their quick response and support.

We extend our deepest gratitude to our dedicated Palmyra Public Safety team for their professionalism and commitment, especially under such demanding conditions. Finally, we thank our community leaders and residents for your continued support.

Respectfully,

Paul Blount
Director of Public Safety

Dylan Callas
Deputy Chief / Public Information Officer
