| Date of Village Board<br>Action (if required): | Aug. 18, 2025            |

### Information

**Subject:** 8 year old Ipads that are no longer functioning properly

**Background Information/Rationale:** The Ipads the board is using are from 2017. Our IT person was in to update them and deal with any issues they are having. He is unable to upgrade them or get updates because they are 8 years old.

**Key Issues for Consideration:** Apple Ipads for \$299 each (\$2100), Surface Pro \$1800 each (\$12,600) or laptops \$1200 each (\$8400). Plus, IT time to get Agenda notes and email set up on them. Do you want to purchase these now or budget for them in the 2026 budget.

**Fiscal Impact (If any):** This was not budgeted for. While this is not an emergency, the board can continue to use the old Ipads until Jan. 2026, I have no idea how much the price will change from now to Jan. 2026

**Requested Action by Committee/Board:** Decide if you want to purchase these now and get started with working equipment or wait until Jan. 2026 and put in the budget

### IPADS

<https://a.co/d/5yVuorC>

The existing village board iPads are 7 years old and do not support iOS 17 which is required to download/use modern business productivity apps such as Office 365. Continuing to use older and non supported apps to access the Office 365 environment will result in increased connectivity issues, instability and loss of functionality.

### Network Link Upgrade

The existing network link between the Public Safety building and Village Hall is no longer meeting the bandwidth demands of the Village due to recent implementation of live streaming and recording of village committee meetings to the Office 365 cloud. The existing wireless network link between both facilities is capable of approximately 150mbs of bandwidth. The Public Safety building currently resides on a 1gbs network backbone and the Village internet service is 400mbs. In an effort to meet the new bandwidth demands of Village Hall, I am recommending this link upgraded to a 60 GHz like cable of 2gbs.

About this item

- **WHY IPAD** — The 11-inch iPad is now more capable than ever with the superfast A16 chip, a stunning Liquid Retina display, advanced cameras, fast Wi-Fi, USB-C connector, and four gorgeous colors.\* iPad delivers a powerful way to create, stay connected, and get things done.
- **PERFORMANCE AND STORAGE** — The superfast A16 chip delivers a boost in performance for your favorite activities. And with all-day battery life, iPad is perfect for playing immersive games and editing photos and videos.\* Storage starts at 128GB and goes up to 512GB.\*
- **11-INCH LIQUID RETINA DISPLAY** — The gorgeous Liquid Retina display is an amazing way to watch movies or draw your next masterpiece.\* True Tone adjusts the display to the color temperature of the room to make viewing comfortable in any light.
- **IPADOS + APPS** — iPadOS makes iPad more productive, intuitive, and versatile. With iPadOS, run multiple apps at once, use Apple Pencil to write in any text field with Scribble, and edit and share photos.\* iPad comes with essential apps like Safari, Messages, and Keynote, with over a million more apps designed specifically for iPad available on the App Store.
- **FAST WI-FI CONNECTIVITY** — Wi-Fi 6 gives you fast access to your files, uploads, and downloads, and lets you seamlessly stream your favorite shows.
- **APPLE PENCIL AND MAGIC KEYBOARD FOLIO** — With Apple Pencil (USB-C), iPad transforms into an immersive drawing canvas and the world's best note-taking device.\* The Magic Keyboard Folio features a versatile two-piece design with a detachable keyboard and a protective back panel that both attach magnetically to iPad.\* Apple Pencil (1st generation) is also compatible with iPad.\*
- **UNLOCK AND PAY WITH TOUCH ID** — Touch ID is built into the top button, so you can use your fingerprint to unlock your iPad, sign in to apps, and make payments securely with Apple Pay.
