

PUBLIC WORKS MONTHLY REPORT

The PFAS Treatment Plant is on the agenda.

The Westfield development bid opening is tomorrow.

We have been working on building a new platform to stand on for inside the Hillcrest lift station wet side, the 72-year-old original one is getting to the point where it's not safe to stand on.

Other things going on this month

- **Reading water meters and try and do 20 meter changes and cross connection inspections**
- **Hydro-excavate water laterals on First St. to see what ones we have to replace before the street project.**
- **Pat and I will be attending the annual WRWA technical conference 24th- 26th .**
