Subject: Re: Fee Schedule

Importance: High

Laurie,

Looking at the fee schedule, we will need to add two-line items that will allow us to bill at the AEMT level with our new EMS billing service.

Resolution Language?

Palmyra EMS has been approved by the State of Wisconsin Department of Health and Emergency Services and our Medical Control Physician to operate at the AEMT (Advanced EMT) level under the Flex Staffing provision. This addition allows ALS level of care as needed to the patient per protocol approved by Medical Control when a Wisconsin State Licensed AEMT or higher is available to respond to the incident or is on shift and is currently credentialed with the Palmyra Fire Rescue Department, include shift crew, POC and PSO response. The additional rates are shown below reflect the charges for the higher level of care that may be added to the base BLS rates.

AEMT (Advanced EMS Care Flex) \$900.00
ALS2 (Advanced EMS Care Flex) Intercept \$900.00

Please let me know if this makes sense. I can add this to a Resolution Form if you want me to or you are welcome to as well.

Thanks

Dan Schiller
