Regular Meeting of the Village of Somerset Board of Trustees
Village Hall, 110 Spring Street Somerset, WI 54025 | Tuesday, February 17, 2026

President Donald Kerm called the regular meeting to order at 6:00 p.m. Present at the Village Hall were, Chris Dubak, Caleb Garn, Donald Kern, Brandon Krohn, Chris Moreno, Jessica Plourde, and Janna Stewart. Also in attendance at the village hall were Public Works Director, Bob Gunther; Village Engineer, Chuck Schwartz-MSA; and Village Attorney, Paul Mahler-Bakke Norman.

<u>Approval of Agenda</u>
Motion by Garn, second by Plourde to approve the agenda as presented and motion carried.

<u>Public Comment</u>
No one from the public spoke.

<u>Consent Agenda</u>
Motion by Garn, second by Dubak to approve the Consent Agenda including the following:

- *Minutes of Regular Board meeting on 01/20/2026*
- *Village, Water, and Sewer Bills*
- *Library Request to use Library Impact Fees on AV upgrades*
- *Anderson Heating Proposal for furnace at village hall*
- TID #5 Lift Station Pay App #5
- *Fire/Rescue Report*

Motion carried unanimously.

<u>New Business</u>
Resolution 2026-01 – Providing for the Issuance, Sale and Delivery of $2,070,000 General Obligation Promissory Notes, Series 2026A, of the Village of Somerset, Wisconsin; Established the Terms and Conditions Therefor; Directing the Execution and Delivery; Creating a Debt Service Account Therefor; and Awarding the Sale Thereof
Motion by Krohn, second by Garn to approve Resolution 2026-01 – Providing for the Issuance, Sale and Delivery of $2,070,000 General Obligation Promissory Notes, Series 2026A, of the Village of Somerset, Wisconsin; Established the Terms and Conditions Therefor; Directing the Execution and Delivery; Creating a Debt Service Account Therefor; and Awarding the Sale Thereof. Motion passed on a roll call vote of 7-0 (Dubak-aye, Garn-aye, Krohn-aye, Moreno-aye, Plourde-aye, Stewart-aye, Kern-aye).

Multi-Use Trail Construction Observation & TAP Grant Administration Consultant Selection
Gunther stated that three (3) proposals were received and the selection committee (Lane Belter, Deb Kohler, and Brad Nemec) chose the submittal from MSA for the administration and construction of the project. SCH had previously done the design.

Weld Riley Invoices
Motion by Garn, second by Krohn to approve allowing two (2) trustees to have a conversation with Weld Riley regarding the outstanding invoices. Motion carried unanimously.

Water Tower – Colors & Logo
Motion by Kern, second by Garn to include painting the logo and Somerset on 2 sides of the Water Tower #2 when the bid package is submitted for the reconditioning of the water tower. Motion carried unanimously.

Adjourn
Motion by Krohn, second by Plourde to adjourn and motion carried unanimously. Meeting adjourned at 6:35 p.m.

Jessica Lehman, Village Clerk/Deputy Treasurer
(Minutes are not official until approved at next meeting)

Somerset Fire/Rescue

from the office of Chief Belisle

March 2nd, 2026

Dear Board Members –

This is the update for February 2026. This month we responded to 32 calls for service. The breakdown is as follows: 22 calls in the Village consisting of 19 medicals and 3 Fire/Rescue calls; 8 in the Township consisting of 6 medicals and 2 fire/rescue calls; and 2 auto aid calls all in St. Joe. This brings us to a total of 80 runs for the year compared to 85 for the same time in 2025.

The month of February slowed down compared to January but as you can see not much less than the same time in 2025. We had no calls of significance in February in our district.

We are getting closer to having our strategic plan complete. We've met with Bruce and gone over a rough draft. We are in the process of getting feedback to him so that he can clean it up and get us another draft. The goal is to have this done and be ready for the joint meeting in April for everyone to look over. Again, thanks to those that took the time to meet and or speak with him to get this plan put together.

We are currently operating with 29 personnel, 18 full members, 7 probationary members, 1 honorary member, 2 High School Cadets and our secretary. We are getting close to having all members "fully" trained in both EMS and fire. As always you are more than welcome to stop in and say hi at the station when you see someone there. We welcome visitors and are more than willing to give you a tour and show you our trucks and equipment!

Sincerely,

Travis Belisle

DATE: MARCH 5, 2026

NEUMANN FARMS ATHLETIC COMPLEX MASTER PLAN

The proposed Land Use concept for the TID #7 development was revised to better accommodate industrial, residential, recreational, and stormwater needs. Park Concepts will be updated for review with the confirmation of the revised land use layout.

REQUESTED ACTION:
Update only, no action needed.

TID #5 LIFT STATION & UTILITY EXTENSION

The TID #5 lift station is online. A preliminary punch list, which includes site restoration items, has been given to the contactor to be completed in the spring.

REQUESTED ACTION:
Update only, no action needed.

TID #5 – LATITIUDE 45 DEVELOPMENT

The contractor plans to raise all manhole castings & gate valve boxes and complete the remaining second lift of pavement in the development this summer.

REQUESTED ACTION:
Update only, no action needed.

PINE VALE SECOND ADDITION

Pine Vale Second Addition is located east of the original Pine Vale and south of the First Addition platted lands. A preconstruction meeting is scheduled for the end of March. Construction is expected to occur in the spring.

REQUESTED ACTION:
Update only, no action needed.

PINE VALE FIRST ADDITION

The contractor plans to complete the remaining second lift of pavement and bituminous trail this summer.

REQUESTED ACTION:
Update only, no action needed.

WINESAP PRAIRIE FIRST ADDITION

Albrightson Excavating, Inc. crew finished installing utilities in Bruce Larson Way and Wolf River Street right of way to the phase line in February. The crew will complete the testing and start utility work in Harvest Court and England Street when the weather warms. The final course of bituminous pavement will be placed in 2027.

REQUESTED ACTION:
Update only, no action needed.

MULTI-USE TRAIL (WISDOT TAP PROJECT)

The contractor is expected to start in spring. A preconstruction meeting will be scheduled for the end of March. The Contractor will provide a construction schedule at that time.

REQUESTED ACTION:
Update only, no action needed.

"OTHER THINGS GOING ON"

- Pine Vale Pond 1 – The infiltration bench for the Pine Vale Pond 100 is not functioning properly. MSA's stormwater team reviewed the geotechnical report and made recommendations on corrective actions. Next week MSA will be on site with the Contractor and Geotechnical Engineer to dig test pits and review the native soils below the pond.
- Our office reviewed and commented on the River Valley Meadows Sketch Plan. For this development to move forward, the property would need to be rezoned and the Future Land Use (FLU) map amended. Our planners are assisting staff with the required materials for each of these tasks.
- Ellyson CSM – The Certified Survey Map (CSM) is seeking to create four new lots on a parcel located in the extra-territorial planning area east of the Village in the Town of Star Prairie. MSA reviewed the CSM and has made a recommendation to the Village.

ORDINANCE A-711

AN ORDINANCE ANNEXING TERRITORY TO THE VILLAGE OF SOMERSET, WISCONSIN

THE VILLAGE BOARD OF THE VILLAGE OF SOMERSET, WISCONSIN, DOES ORDAIN AS FOLLOWS:

SECTION 1. TERRITORY ANNEXED. In accordance with Section 66.0217(2) of the Wisconsin Statutes and the petition for Unanimous annexation filed with the Village Clerk on the 28th day of December 2025, signed by all the owners and by all the electors, the following described territory in the Town of Somerset, St. Croix County, Wisconsin, is annexed to the Village of Somerset, Wisconsin:

Parcel Description:
A PARCEL OF LAND LOCATED IN THE SW I/4 OF THE NW I/4, THE NW I/4 OF THE NW I/4 THE NE I/4 OF THE NW I/4, THE NW I/4 OF THE NE I/4, THE SE I/4 OF THE NE I/4, THE SW I/4 OF THE NE I/4 AND THE SE I/4 OF THE NW I/4 AND PART OF THE NW I/4 OF THE SW I/4 OF SECTION 25, T31N, R19W, TOWN OF SOMERSET, ST. CROIX COUNTY, WISCONSIN, INCLUDING LOT 1 OF CERTIFIED SURVEY MAP RECORDED IN VOLUME 19, PAGE 4865 AS DOCUMENT NUMBER 778154 AND PART OF LOT 2 OF CERTIFIED SURVEY MAP RECORDED IN VOLUME 9, PAGE 2506 AS DOCUMENT NUMBER 485437 IN THE ST. CROIX COUNTY RESISTER OF DEEDS OFFICE, FURTHER DESCRIBED AS FOLLOWS:

Beginning at the W 1/4 Corner of said Section 25; thence S00°18'59"E 110.00' along the west line of the SW 1/4 of said Section 25 to the south line of Lot 1 of Certified Survey Map recorded in volume 19, page 4865 as document number 778154 in the St. Croix County Register of Deeds office; thence S89°58'07"E 300.00' along the south line of said Lot 1 to the east line of said Lot 1; thence N00°18'4611W 110.00' along said east line to the east - west quarter section line of said Section 25; thence S89°58'07"E 5,008.01' along said east - west quarter section line to the E 1/4 Corner of said Section 25; thence N00°27'04"E 1,304.71' along the east line of the SE 1/4 of the NE 1/4 of said Section 25 to the north line of said SE 1/4 of the NE 1/4 ; thence N89°34'16"W 1,733.02' along said north line and part of the north line of the SW 1/4 of the NE 1/4 to the southwest corner of Lot 4 of Certified Survey Map recorded in volume 20, page 5155 as document number 818152 in the St. Croix County Register of Deeds office; thence N06°39'39"W 1,258.29' along the west line of said Lot 4 to a northerly line of said Lot 4; thence N87°51'21"E 196.00' along said northerly line to the southwesterly meander line of Turtle Lake; thence N28°51'29"W 67 .90' along said meander line to the north line of the NW l/4 of the NE 1/4; thence N89°10'24"W 910.56' along said north line to the N l/4 Corner of said Section 25; thence S89°54'17"W 1945.43' along the north line of the NW 1/4 to the northeast corner of Lot 1 of Certified Survey Map recorded in volume 2, page 443 as document number 342479; thence 501 °13'57"W 287.95' along the east line of said Lot 1 and the east line of those lands described in quit claim deed recorded in document number 1027707 in the St. Croix County Register of Deeds office; thence S89°36'15"W 110.85' along the south line of last said lands to the east line of those lands described in warranty deed recorded in volume 1050, page 171 as document number 509286 in the St. Croix County Register of Deeds office; thence 501 °12'28"W 710.01' along the east line of last said lands to the south line of said described property; thence S89°36'16"W 580.01' along the south line of said lands to the west line of the NW 1/4 of said Section 25; thence S0l 012'28"W 1,371.03' to the north line of those lands described in warranty deed recorded in volume 1240, page 123 as document number 5596776 in the St. Croix County Register of Deeds office; thence S88°47'32"E 197.96' along said north line to the east line of last said parcel; thence 501 °12'28"W 264.00' along the east line of last said lands and the east line of those lands described in special warranty deed recorded in volume 2811, page 178, document 796151 in the St. Croix County Register of Deeds; thence N89°58"0711W 198.00' along the south line of last said lands to the point of beginning. This description contains 10,945,641 square feet (251.277 acres) including those lands between the meander line and the ordinary high water mark of Turtle Lake.

Note: Any land below the ordinary high water mark of a lake or a navigable stream is subject to the public trust in navigable waters that is established under article IX, section 1 of the state constitution.

SECTION 2. EFFECT OF ANNEXATION. From and after the date of this ordinance the territory described in Section I shall be a part of the village of Somerset for any and all purposes provided by law, and all persons coming or residing within such territory shall be subject to all ordinances, rules and regulations governing the Village of Somerset.

SECTION 3. ZONING CLASSIFICATION. The territory annexed hereby to the Village of Somerset is zoned Agricultural and is subject to all provisions of the zoning ordinance of the village of Somerset.

SECTION 4. SEVERABILITY. If any provision of this ordinance is invalid or unconstitutional, or if the application of this ordinance to any person or circumstances is invalid or unconstitutional, such invalidity or unconstitutionality shall not affect the other provisions or applications of this ordinance which can be given effect without the invalid or unconstitutional provisions or application.

SECTION 5. PAYMENT TO TOWN. Pursuant to Wis. Stats. § 66.0217(14)(a)(1), the Village of Somerset agrees to pay annually to the Town of Somerset for five (5) years, an amount equal to the amount of property taxes that the Town levied on the annexed territory, as shown by the tax roll under Wis. Stats. § 70.65, in the year which the annexation is final.

SECTION 5. WARD DESIGNATION. The territory described in Section 1 of this ordinance is hereby made a part of the Third (3) ward of the Village of Somerset.

SECTION 6. POPULATION. The current population of the area is two (2).

SECTION 7. EFFECTIVE DATE. This ordinance shall take effect upon passage and publication as provided by law.

VILLAGE OF SOMERSET, WISCONSIN

RESOLUTION NO. 2026-01

RESOLUTION CREATING TAX INCREMENTAL DISTRICT NO. 7, APPROVING ITS PROJECT PLAN AND ESTABLISHING ITS BOUNDARIES

WHEREAS, the Village of Somerset (the "Village") has determined that use of Tax Incremental Financing is required to promote development and redevelopment within the Village; and

WHEREAS, Tax Incremental District No. 7 (the "District") is proposed to be created by the Village as a mixed-use district in accordance with the provisions of Wisconsin Statutes Section 66.1105 (the "Tax Increment Law"); and

WHEREAS, a Project Plan for the District has been prepared that includes:

a. A statement listing of the kind, number and location of all proposed public works or improvements within the District, or to the extent provided in Wisconsin Statutes Sections 66.1105(2)(f)1.k. and 66.1105(2)(f)1.n., outside of the District;
b. An economic feasibility study;
c. A detailed list of estimated project costs;
d. A description of the methods of financing all estimated project costs and the time when the related costs or monetary obligations are to be incurred;
e. A map showing existing uses and conditions of real property in the District;
f. A map showing proposed improvements and uses in the District;
g. Proposed changes of zoning ordinances, master plan, map, building codes and Village ordinances;
h. A list of estimated non-project costs;
i. A statement of the proposed plan for relocation of any persons to be displaced;
j. A statement indicating how the District promotes the orderly development of the Village;
k. An opinion of the Village Attorney or of an attorney retained by the Village advising that the plan is complete and complies with Wisconsin Statutes Section 66.1105(4)(f).; and

WHEREAS, prior to its publication, a copy of the notice of public hearing was sent to the chief executive officers of St. Croix County, the School District of Somerset, and the Northwood Technical College, and any other entities having the power to levy taxes on property located within the District, in accordance with the procedures specified in the Tax Increment Law; and

WHEREAS, in accordance with the procedures specified in the Tax Increment Law, the Plan Commission, on December 2, 2025 held a public hearing concerning the project plan and boundaries and proposed creation of the District, providing interested parties a reasonable opportunity to express their views thereon; and

WHEREAS, after said public hearing, the Plan Commission designated the boundaries of the District, adopted the Project Plan, and recommended to the Village Board that it create such District and approve the Project Plan.

NOW, THEREFORE, BE IT RESOLVED by the Village Board of the Village of Somerset that:

1. The boundaries of the District that shall be named "Tax Incremental District No. 7, Village of Somerset", are hereby established as specified in Exhibit A of this Resolution.
2. The District is created effective as of January 1, 2026.
3. The Village Board finds and declares that:
   (a) Not less than 50% by area of the real property within the District is suitable for mixed-use development as defined by Wisconsin Statutes Section 66.1105(2)(cm).
   (b) Based upon the finding stated in 3.a. above, the District is declared to be a mixed-use district based on the identification and classification of the property included within the District.
   (c) The improvement of such area is likely to enhance significantly the value of substantially all of the other real property in the District.
   (d) The equalized value of the taxable property in the District plus the value increment of all other existing tax incremental districts within the Village, does not exceed 12% of the total equalized value of taxable property within the Village.
   (e) That for those parcels to be included within the District that were annexed by the Village within the three-year period preceding adoption of this Resolution, the Village pledges to pay the Town of Somerset an amount equal to the property taxes the town last levied on the territory for each of the next five years.
   (f) The Village estimates that less than 35% of the territory within the District will be devoted to retail business at the end of the District's maximum expenditure period, pursuant to Wisconsin Statutes Section 66.1105(5)(b).
   (g) The project costs relate directly to promoting mixed-use development in the District consistent with the purpose for which the District is created.
   (h) Lands proposed for newly-platted residential development comprise no more than 35% of the real property area within the District.
   (i) Costs related to newly-platted residential development may be incurred based on the proposed development having a density of at least three (3) units per acre as defined in Wisconsin Statutes Section 66.1105(2)(f)3.a.
4. The Project Plan for "Tax Incremental District No. 7, Village of Somerset" (see Exhibit B) is approved, and the Village further finds the Plan is feasible and in conformity with the master plan of the Village.

BE IT FURTHER RESOLVED THAT the Village Clerk is hereby authorized and directed to apply to the Wisconsin Department of Revenue, in such form as may be prescribed, for a "Determination of Tax Incremental Base", as of January 1, 2026, pursuant to the provisions of Wisconsin Statutes Section 66.1105(5)(b).

BE IT FURTHER RESOLVED THAT pursuant to Section 66.1105(5)(f) of the Wisconsin Statutes that the Village Assessor is hereby authorized and directed to identify upon the assessment roll returned and examined under Wisconsin Statutes Section 70.45, those parcels of property which are within the District, specifying thereon the name of the said District, and the Village Clerk is hereby authorized and directed to make similar notations on the tax roll made under Section 70.65 of the Wisconsin Statutes.

Adopted this 17th day of March 2026.

TABLE OF CONTENTS

SECTION 1:
Executive Summary

DESCRIPTION OF DISTRICT

Tax Incremental District ("TID") No. 7 ("District") is a proposed mixed-use District comprising approximately 250 acres located in northern Somerset, bounded by Highway 35 to the West and 80th Street to the East. The District will be created to pay the costs of developing this area for a mixed-use neighborhood in Somerset. The area is anticipated to feature residential, commercial, and industrial uses, and also a new athletic complex to enhance the Village's recreational amenities. In addition to the incremental property value that will be created, the Village expects the Project to be the forefront of development to attract families and businesses seeking quality of life in Somerset.

AUTHORITY

The Village is creating the District under the provisions of Wis. Stat. § 66.1105.

ESTIMATED TOTAL PROJECT COST EXPENDITURES

The Village anticipates making total expenditures of approximately $26.1 million ("Project Costs") to undertake the projects listed in this Project Plan ("Plan"). Project Costs include Property Acquisition, Public Infrastructure, Development Incentives, Athletic Complex Development, Interest on Long-Term Debt, Financing Costs, and Ongoing Planning & Administrative Costs.

INCREMENTAL VALUATION

The Village projects that new land and improvements value of approximately $107,500,000 will result from the Project. Creation of this additional value will be made possible by the Project Costs made within the District. A table detailing assumptions as to the development timing and associated values is included in the Economic Feasibility Study located within this Plan.

EXPECTED TERMINATION OF DISTRICT

Based on the Economic Feasibility Study located within Section 9 of this Plan, the Village anticipates that the District will generate sufficient tax increment to pay all Project Costs within 20 of its allowable 20 years.

SUMMARY OF FINDINGS

As required by Wis. Stat. § 66.1105, and as documented in this Plan and the exhibits contained and referenced herein, the following findings are made:

1. That "but for" the creation of this District, the development projected to occur as detailed in this Plan: 1) would not occur; or 2) would not occur in

the manner, at the values, or within the timeframe desired by the Village. In reaching this determination, the Village has considered:

The substantial investment needed to provide the public infrastructure necessary to allow for development within the District. Absent the use of tax incremental financing, the Village is unable to fully fund this program of infrastructure improvements.

2. The economic benefits of the District, as measured by increased employment, business and personal income, and property value, are sufficient to compensate for the cost of the improvements. As demonstrated in the Economic Feasibility Section of this Project Plan, the tax increments projected to be collected are more than sufficient to pay for the proposed project costs. On this basis alone, the finding is supported.
3. The benefits of the proposal outweigh the anticipated tax increments to be paid by the owners of property in the overlying taxing jurisdictions. As required by Wis. Stat. § 66.1105(4)(i)4., a calculation of the share of projected tax increments estimated to be paid by the owners of property in the overlying taxing jurisdictions has been prepared and can be found in this Plan. However, because the Project would not occur without the use of tax incremental financing, these tax increments would not be paid but for creation of the District. Accordingly, the Village finds that the benefits expected to be realized as set forth in this Plan outweigh the value of the tax increments to be invested in the Project.
4. Not less than 50% by area of the real property within the District is suitable for mixed-use development as defined by Wis. Stat. § 66.1105(2)(cm). Lands proposed for newly-platted residential development comprise no more than 35% of the real property area within the District. Costs related to newly-platted residential development may be incurred based on the proposed development having a density of at least three (3) units per acre as defined in Wis. Stat. § 66.1105(2)(f)3.a.
5. Based on the foregoing finding, the District is designated as a mixed-use district.
6. The Project Costs relate directly to promoting mixed-use development in the District, consistent with the purpose for which the District is created.
7. Improvements to be made in the District are likely to significantly enhance the value of substantially all of the other real property in the District.
8. The equalized value of taxable property in the District, plus the incremental value of all existing tax incremental districts within the Village does not

exceed 12% of the total equalized value of taxable property within the Village.

9. The Village estimates that less than 35% of the territory within the District will be devoted to retail business at the end of the District's maximum expenditure period, pursuant to Wis. Stat. § 66.1105(5)(b).

10. That for those parcels to be included within the District that were annexed by the Village within the three-year period preceding adoption of this Resolution, the Village pledges to pay the Town of Somerset an amount equal to the property taxes the town last levied on the territory for each of the next five years.

11. The Plan for the District is feasible and is in conformity with the Master Plan of the Village.

SECTION 2:
Preliminary Map of Proposed District Boundary

To the extent District boundaries include wetlands identified on a map prepared under Wis. Stat. § 23.32, the wetlands are excluded from the District.

2) Calculation based on aggregate assessment ratio of 69.65%.

SECTION 5:
Equalized Value Test

The following calculations demonstrate that the Village expects to be in compliance with Wis. Stat. § 66.1105(4)(gm)4.c., which requires that the equalized value of the taxable property in the proposed District, plus the value increment of all existing tax incremental districts, does not exceed 12% of the total equalized value of taxable property within the Village.

The equalized value of the increment of existing tax incremental districts within the Village, plus the base value of the proposed District, totals $10,288,100. This value is less than the maximum of $59,407,080 in equalized value that is permitted for the Village.

Residual Value Capacity of TID IN Equalized Value	$49,118,980

SECTION 6:
Statement Listing the Kind, Number and Location of All Proposed Public Works or Improvements Within the District

Project Costs are any expenditure made, estimated to be made, or monetary obligations incurred or estimated to be incurred as outlined in this Plan. Project Costs will be diminished by any income, special assessments or other revenues, including user fees or charges, other than tax increments, received or reasonably expected to be received in connection with the implementation of the Plan. If Project Costs incurred benefit territory outside the District, a proportionate share of the cost is not a Project Cost. Costs identified in this Plan are preliminary estimates made prior to design considerations and are subject to change after planning, design and construction is completed.

With all Project Costs, the costs of engineering, design, survey, inspection, materials, construction, restoring property to its original condition, apparatus necessary for public works, legal and other consultant fees, testing, environmental studies, permits, updating Village ordinances and plans, judgments or claims for damages and other expenses are included as Project Costs.

The following is a list of public works and other tax incremental financing eligible Project Costs that the Village expects to make, or may need to make, in conjunction with the implementation of the District's Plan. The map found in Section 7 of this Plan along with the Detailed List of Project Costs found in Section 8 provide additional information as to the kind, number and location of potential Project Costs.

Property, Right-of-Way and Easement Acquisition

Property Acquisition for Development

To promote and facilitate development the Village may acquire property within the District. The cost of property acquired, and any costs associated with the transaction, are eligible Project Costs. Following acquisition, other Project Costs within the categories detailed in this Section may be incurred to make the property suitable for development. Any revenue received by the Village from the sale of property acquired pursuant to the execution of this Plan will be used to reduce the total project costs of the District. If total Project Costs incurred by the Village to acquire property and make it suitable for development exceed the revenues or other consideration received from the sale or lease of that property, the net amount shall be considered "real property assembly costs" as defined in Wis. Stat. § 66.1105(2)(f)1.c., and subject to recovery as an eligible Project Cost.

Property Acquisition for Conservancy

To promote the objectives of this Plan, the Village may acquire property within the District that it will designate for conservancy. These conservancy objectives include: preserving historic resources or sensitive natural features; protection of scenic and historic views; maintaining habitat for wildlife; maintaining adequate open space; reduction of erosion and sedimentation by preserving existing vegetation; and providing adequate areas for management of stormwater. The cost of property acquired for conservancy, and any costs associated with the transaction, are eligible Project Costs.

Acquisition of Rights-of-Way

The Village may need to acquire property to allow for installation of streets, driveways, sidewalks, utilities, stormwater management practices and other public infrastructure. Costs incurred by the Village to identify, negotiate and acquire rights-of-way are eligible Project Costs.

Acquisition of Easements

The Village may need to acquire temporary or permanent easements to allow for installation and maintenance of streets, driveways, sidewalks, utilities, stormwater management practices and other public infrastructure. Costs incurred by the Village to identify, negotiate and acquire easement rights are eligible Project Costs.

Relocation Costs

If relocation expenses are incurred in conjunction with the acquisition of property, those expenses are eligible Project Costs. These costs may include, but are not limited to: preparation of a relocation plan; allocations of staff time; legal fees; publication of notices; obtaining appraisals; and payment of relocation benefits as required by Wis. Stat. Chapter 32 and Wis. Admin. Code ADM 92.

Site Preparation Activities

Environmental Audits and Remediation

If it becomes necessary to evaluate any land or improvement within the District, any cost incurred by the Village related to environmental audits, testing, and remediation are eligible Project Costs.

Demolition

To make sites suitable for development, the Village may incur costs related to demolition and removal of structures or other land improvements, to include abandonment of wells or other existing utility services.

Site Grading

Land within the District may require grading to make it suitable for development, to provide access, and to control stormwater runoff. The Village may need to remove and dispose of excess material, or bring in fill material to provide for proper site elevations. Expenses incurred by the Village for site grading are eligible Project Costs.

Utilities

Sanitary Sewer System Improvements

To allow development to occur, the Village may need to construct, alter, rebuild or expand sanitary sewer infrastructure within the District. Eligible Project Costs include, but are not limited to, construction, alteration, rebuilding or expansion of: collection mains; manholes and cleanouts; service laterals; force mains; interceptor sewers; pumping stations; lift stations; wastewater treatment facilities; and all related appurtenances. To the extent sanitary sewer projects undertaken within the District provide direct benefit to land outside of the District, the Village will make an allocation of costs based on such benefit. Those costs corresponding to the benefit allocated to land within the District, and necessitated by the implementation of the Project Plan, are eligible Project Costs. Implementation of the Project Plan may also require that the Village construct, alter, rebuild or expand sanitary sewer infrastructure located outside of the District. That portion of the costs of sanitary sewer system projects undertaken outside the District which are necessitated by the implementation of the Project Plan are eligible Project Costs.

Water System Improvements

To allow development to occur, the Village may need to construct, alter, rebuild or expand water system infrastructure within the District. Eligible Project Costs include, but are not limited to, construction, alteration, rebuilding or expansion of: distribution mains; manholes and valves; hydrants; service laterals; pumping stations; wells; water treatment facilities; storage tanks and reservoirs; and all related appurtenances. To the extent water system projects undertaken within the District provide direct benefit to land outside of the District, the Village will make an allocation of costs based on such benefit. Those costs corresponding to the benefit allocated to land within the District, and necessitated by the implementation of the Project Plan, are eligible Project Costs. Implementation of the Project Plan may also require that the Village construct, alter, rebuild or expand water system infrastructure located outside of the District. That portion of the costs of water system projects undertaken outside the District which are necessitated by the implementation of the Project Plan are eligible Project Costs.

Stormwater Management System Improvements

Development within the District will cause stormwater runoff. To manage this stormwater runoff, the Village may need to construct, alter, rebuild or expand stormwater management infrastructure within the District. Eligible Project Costs include, but are not limited to, construction, alteration, rebuilding or expansion of: stormwater collection mains; inlets, manholes and valves; service laterals; ditches; culvert pipes; box culverts; bridges; stabilization of stream and river banks; and infiltration, filtration and detention Best Management Practices (BMP's). To the extent stormwater management system projects undertaken within the District provide direct benefit to land outside of the District, the Village will make an allocation of costs based on such benefit. Those costs corresponding to the benefit allocated to land within the District, and necessitated by the implementation of the Project Plan, are eligible Project Costs. Implementation of the Project Plan may also require that the Village construct, alter, rebuild or expand stormwater management infrastructure located outside of the District. That portion of the costs of stormwater management system projects undertaken outside the District which are necessitated by the implementation of the Project Plan are eligible Project Costs.

Electric Service

To create sites suitable for development, the Village may incur costs to provide, relocate or upgrade electric services. Relocation may require abandonment and removal of existing poles or towers, installation of new poles or towers, or burying of overhead electric lines. Costs incurred by the Village to undertake this work are eligible Project Costs.

Gas Service

To create sites suitable for development, the Village may incur costs to provide, relocate or upgrade gas mains and services. Costs incurred by the Village to undertake this work are eligible Project Costs.

Communications Infrastructure

To create sites suitable for development, the Village may incur costs to provide, relocate or upgrade infrastructure required for voice and data communications, including, but not limited to: telephone lines, cable lines and fiber optic cable. Costs incurred by the Village to undertake this work are eligible Project Costs.

Streets and Streetscape

Street Improvements

To allow development to occur, the Village may need to construct or reconstruct streets, highways, alleys, access drives and parking areas. Eligible Project Costs include, but are not limited to: excavation; removal or placement of fill; construction of road base; asphalt or concrete paving or repaving; installation of curb and gutter; installation of sidewalks and bicycle lanes; installation of culverts, box culverts and bridges; rail crossings and signals; utility relocation, to include burying overhead utility lines; street lighting; installation of traffic control signage and traffic signals; pavement marking; right-of-way restoration; installation of retaining walls; and installation of fences, berms, and landscaping.

Streetscaping and Landscaping

To attract development consistent with the objectives of this Plan, the Village may install amenities to enhance development sites, rights-of-way and other public spaces. These amenities include, but are not limited to: landscaping; lighting of streets, sidewalks, parking areas and public areas; installation of planters, benches, clocks, tree rings, trash receptacles and similar items; and installation of brick or other decorative walks, terraces and street crossings. These and any other similar amenities installed by the Village are eligible Project Costs.

Community Development

Cash Grants (Development Incentives)

The Village may enter into agreements with property owners, lessees, or developers of land located within the District for sharing costs to encourage the desired kind of improvements and assure tax base is generated sufficient to recover Project Costs. No cash grants will be provided until the Village executes a developer agreement with the recipient of the cash grant. Any payments of cash grants made by the Village are eligible Project Costs.

Contribution to Community Development Authority (CDA) or Redevelopment Authority (RDA)

As provided for in Wis. Stat. § 66.1105(2)(f)1.h and Wis. Stat. § 66.1333(13), the Village may provide funds to its CDA (RDA) to be used for administration, planning operations, and capital costs, including but not limited to real property acquisition, related to the purposes for which it was established in furtherance of any redevelopment or urban renewal project. Funds provided to the CDA (RDA) for this purpose are eligible Project Costs.

***Revolving Loan/Grant Program** (Development Incentives)*

To encourage private development consistent with the objectives of this Plan, the Village, through its CDA (RDA), may provide loans or grants to eligible property owners in the District. Eligible improvements will be those that are likely to improve the value of the property, enhance the visual appearance of the property and surrounding area, correct safety deficiencies, or as otherwise specified by the CDA (RDA) in the program manual. Any funds returned to the CDA (RDA) from the repayment of loans made are not considered revenues to the District, and will not be used to offset District Project Costs. Instead, these funds may be placed into a revolving fund and will continue to be used for the program purposes stated above. Any funds provided to the CDA (RDA) for purposes of implementing this program are considered eligible Project Costs.

Miscellaneous

Rail Spur

To allow for development, the Village may incur costs for installation of a rail spur or other railway improvements to serve development sites located within the District.

Property Tax Payments to Town

Property tax payments due to the Town of Somerset under Wis. Stat. § 66.1105(4)(gm)1. because of the inclusion of lands annexed after January 1, 2004 within the boundaries of the District are an eligible Project Cost.

Projects Outside the Tax Increment District

Pursuant to Wis. Stat. § 66.1105(2)(f)1.n, the Village may undertake projects within territory located within one-half mile of the boundary of the District provided that: 1) the project area is located within the Village's corporate boundaries; and 2) the projects are approved by the Joint Review Board. The cost of projects completed outside the District pursuant to this section are eligible project costs, and may include any project cost that would otherwise be eligible if undertaken within the District. No projects are anticipated to occur outside the District.

Professional Service and Organizational Costs

The costs of professional services rendered, and other costs incurred, in relation to the creation, administration and termination of the District, and the undertaking of the projects contained within this Plan, are eligible Project Costs. Professional services include but are not limited to: architectural; environmental; planning; engineering; legal; audit; financial; and the costs of informing the public with respect to the creation of the District and the implementation of the Plan.

Administrative Costs

The Village may charge to the District as eligible Project Costs reasonable allocations of administrative costs, including, but not limited to, employee salaries. Costs allocated will bear a direct connection to the time spent by Village employees relating to the implementation of the Plan.

Financing Costs

Interest expense, debt issuance expenses, redemption premiums, and any other fees and costs incurred in conjunction with obtaining financing for projects undertaken under this Plan are eligible Project Costs.

SECTION 8:
Detailed List of Estimated Project Costs

The following list identifies the Project Costs that the Village currently expects to incur in implementing the District's Plan. All projects identified and related costs reflect the best estimates available as of the date of preparation of this Plan. All costs are preliminary estimates and may increase or decrease. Certain Project Costs listed may become unnecessary, and other Project Costs not currently identified may need to be made. (Section 6 details the general categories of eligible Project Costs). Changes in Project Cost totals or the types of Project Costs to be incurred will not require that this Plan be amended. This Plan is not meant to be a budget nor an appropriation of funds for specific Project Costs, but a framework within which to manage Project Costs.

Notes: Public Infrastructure may include, but is not limited to, street construction, water, sewer, or electrical utility extensions.

SECTION 9:
Economic Feasibility Study, Description of the Methods of Financing Estimated Project Costs and the Time When Related Costs or Monetary Obligations are to be Incurred

This Section includes a forecast of the valuation increases expected within the District, the associated tax increment collections, a summary of how Project Costs would be financed, and a projected cash flow demonstrating that the District is economically feasible.

Key Assumptions

The Project Costs the Village plans to make are expected to create $107,500,000 in incremental value by 2041. Estimated valuations and timing for construction of the Project are included in Table 1. Assuming the Village's current equalized TID Interim tax rate of $14.56 per thousand of equalized value, and no economic appreciation or depreciation, the Project would generate $19,669,163 in incremental tax revenue over the 20-year term of the District as shown in Table 2.

	Totals	**$107,500,000**					**$19,669,163**

Notes:
1) Tax rate shown is actual 2025/2026 rate per DOR Form PC-202 (Tax Increment Collection Worksheet).

Financing and Implementation

The first phase of Property Acquisition is anticipated to occur late in 2025 so that the Village can control the site for development activity in 2026. The remaining phases of Property Acquisition are expected to occur in 2029, 2023, and 2035 as additional development interest is generated. All property acquisitions are anticipated to be financed with State Trust Fund Loans.

Public Infrastructure costs are anticipated to occur in 2027, 2029, and 2039 as required by new development. Public Infrastructure is likely to be financed with General Obligation Promissory Notes. The Athletic Complex is likely to be financed with General Obligation Promissory Notes in 2031. Development Incentives are envisioned to be financed on a pay-as-you-go basis as new development generates increment revenue. Table 3 on the following page provides a summary of the District's financing plan.

Table 3 – Financing Plan

Based on the Project Cost expenditures as included within the cash flow exhibit (Table 4), the District is projected to accumulate sufficient funds by the year 2047 to pay off all Project cost liabilities and obligations. The projected closure is based on the various assumptions noted in this Plan and will vary dependent on actual Project Costs incurred and the actual amount of tax increments collected. Table 4 is shown on the following page.

Notes: - - - - - - - End of Expenditure Period

PROJECTED CLOSURE YEAR

SECTION 10:
Annexed Property

A tax incremental district cannot include annexed territory unless at least three years have elapsed since the annexation, or certain other requirements are met. Since property within the proposed District boundary has been annexed within the past three years, the Village pledges to pay the Town of Somerset for each of the next five years an amount equal to the property taxes levied on the territory by the town at the time of the annexation. Such payments allow for inclusion of the annexed lands as a permitted exception under Wis. Stat. § 66.1105(4)(gm)1.

SECTION 11:
Estimate of Property to Be Devoted to Retail Business

Pursuant to Wis. Stat. § 66.1105(5)(b), the Village estimates that less than 35% of the territory within the District will be devoted to retail business at the end of the District's maximum expenditure period.

SECTION 12:
Proposed Changes of Zoning Ordinances, Master Plan, Map, Building Codes and Village Ordinances

Zoning Ordinances

The proposed Plan is in general conformance with the Village's current zoning ordinances. Individual properties may require rezoning at the time of development.

Master (Comprehensive) Plan and Map

The proposed Plan is in general conformance with the Village's Comprehensive Plan identifying the area as appropriate for mixed-use development.

Building Codes and Ordinances

Development within the District will be required to conform to State Building Codes and will be subject to the Village's permitting and inspection procedures. The proposed Plan conforms to all relevant State and local ordinances, plans, and codes. No changes to the existing regulations are proposed or needed.

SECTION 13:
Statement of the Proposed Method for the Relocation of any Persons to be Displaced

Should implementation of this Plan require relocation of individuals or business operations, relocations will be handled in compliance with Wis. Stat. Chapter 32 and Wis. Admin. Code ADM 92.

SECTION 14:
How Creation of the Tax Incremental District Promotes the Orderly Development of the Village

Creation of the District and the implementation of the projects in its Plan will promote the orderly development of the Village by creating new industrial sites, creating opportunities for mixed-use development, providing necessary public infrastructure improvements, and providing appropriate financial incentives for private development projects. Through use of tax increment financing, the Village can attract new investment that results in increased tax base. Development will occur in an orderly fashion in accordance with approved plans so that the Projects will be compatible with adjacent land uses. Development of new uses in the District will add to the tax base and will generate positive secondary impacts in the community such as increased employment opportunities and homeownership.

SECTION 15:
List of Estimated Non-Project Costs

Non-project costs are public works projects which only partly benefit the District. Costs incurred that do not benefit the District may not be paid with tax increments. Examples of non-project costs are:

- A public improvement made within the District that also benefits property outside the District. That portion of the total Project Costs allocable to properties outside of the District would be a non-project cost.
- A public improvement made outside the District that only partially benefits property within the District. That portion of the total Project Costs allocable to properties outside of the District would be a non-project cost.
- Projects undertaken within the District as part of the implementation of this Project Plan, the costs of which are paid fully or in part by impact fees, grants, special assessments, or revenues other than tax increments.

The Plan includes the following non-project costs:

1. Athletic Complex Development – $5,000,000 other Village sources may include Levy and Impact Fees

SECTION 16:
Legal Opinion Advising Whether the Plan is Complete and Complies with Wis. Stat. § 66.1105(4)(f)

Re: Project Plan for Tax Incremental District No. 7

Dear President Kern:

Wisconsin Statute 66.1105(4)(f) requires that a project plan for a tax incremental financing district include an opinion provided by the Village Attorney advising as to whether the plan is complete and complies with Wisconsin Statute 66.1105.

As Village Attorney for the Village of Somerset, I have been asked to review the above-referenced project plan for compliance with the applicable statutory requirements. Based upon my review, in my opinion, the Project Plan for the Village of Somerset Tax Incremental District No. 7 is complete and complies with the provisions of Wisconsin Statute 66.1105.

Sincerely,

BAKKE NORMAN, S.C.

Paul H. Mahler

Subject: shed at Larry Forrest Park

To: Somerset Village Board members

From: Debra K[redacted]
Somerset

The purpose of this email is to address the new shed that was moved to the parking lot of Larry Forrest Park with the intent of installing it near the field used by the high school baseball team.

My first question is how was a shed moved to the park to be placed at a location chosen by the high school coach without him going to the proper committees to obtain approval for an additional shed in the park. I believe that this would be the second shed installed in the park for the baseball programs without getting approval, the first being the one by the batting cages.

Secondly, do we need another storage shed for ball when we already have 5 in the park? The larger storage shed at the end of the parking lot has 3 doors on either side for storage. The dugout by the high school Baseball field has a storage compartment at the end of it with a roll up door for equipment storage and the fifth is the shed by the batting cages. Have these sheds been looked at to see if there is room for equipment in them? Do they just need reorganizing or hangers and shelves installed for maximum use?

Larry Forrest Park is first and foremost a year-round community park with the fields used by the ball teams during the ball season. It has been proposed that this new shed be placed at the far end of the dugout coming out almost to the walking path. The walking path is a high traffic path used every day, all day by a large number of community members, making this a poor placement. A clear view of the entire path is appreciated when walking it for the safety of the community members, including myself, who frequently walk it. If the other sheds are explored (which I believe should happen first) and it is determined that another shed is necessary, the proposed location for it would also block the view of people who like to sit under the shade of the pine trees or along the fence to watch the games.

This is one of the nicest parks in town and one that should be kept uncluttered with extra, unnecessary buildings. If a building is deemed necessary, they should be placed in such a way that they don't interfere with the clean look of the park or the recreational pursuits of the community members using it. This shed should be placed by the shed by the batting cages and both painted the same color as the other structures in the park.

This isn't part of the current discussion but I would also like to touch on the parking issue that exists at almost every high school game. Most of the players drive to the fields separately with their cars taking up many of the parking lot spots, forcing spectators to park up and down both sides of Forrest Drive and on CTY RD I. A simple solution to this problem would be to request that the high school players park at the schools and car pool to the field which would open up additional parking for the spectators or that they park on the streets where the spectators (some of them elderly) are expected to park when the lot is full.

Thank you for taking your time to read this email and for your thoughtful consideration to this issue.
