Jeff Attoe reported the dock piece was already gone.

Barnard reported there was nothing to report on Grant Progress

Barnard reported there was no progress on finding a contractor to oversee the project

Barnard reported that Smykal had not gotten back to him, Robbie Jansen, Village Maintenance Chief will talk to concrete people to get quotes on getting the work done. Work entails creating a base for the marker, and also possibly creating a ramp on the pond side entrance per plans.

New Business -

Mill Visit - After looking at the site by the parking lot, it was agreed that the open space (no fencing) to the right of the parking spaces would be a good location as it offers the opportunity for photos of the mill with the sign, and since it is in the parking area, it would be safer than having the marker on 22, next to the mill, where parking is limited.
