**1. Discussion/Review – Park Plan/Future:** Chairman Hehenberger opened up the discussion noting that he would like to prepare a 5-year plan for the park. Plan includes what the Committee would like seen down in the park and what uses can be done with the park. Committee reviewed old Comprehensive Outdoor Recreation Plan (CORP). Many projects in the CORP made it a multi-million-dollar plan. Don't know if that is the direction the committee would like to go. C/T presented Committee and those present a grant opportunity that was forwarded to her from Raine at MSA. Looks like a good opportunity. 1:1 match. Will review further. Committee listed ideas that they would like to see done within 5 years. C/T compiled a list of project ideas for Committee to present to Full Board at October meeting. Two things of note will be added to October Regular Meeting Agenda – Celebration for Trellis in Vodak Park and a possible road overlay for the park road as there are some spots on the road that is in rough condition. C/T also noted that she will talk with DPW on whether a hose box was purchased or not for out in the park for the flowers.

**Adjournment:** Chairman Hehenberger adjourned the meeting at 7:33 PM.
